Nokia comprises three business groups:

- **Mobile Phones** connects people by providing expanding mobile voice and data capabilities across a wide range of mobile devices.
- **Multimedia** gives people the ability to create, access, experience and share multimedia in the form of advanced mobile multimedia computers and applications with connectivity over multiple technology standards.
- **Enterprise Solutions** offers businesses and institutions a broad range of products and solutions, including enterprise-grade mobile devices, underlying security infrastructure, software and services.

Our business groups are supported by various horizontal entities:

- **Customer and Market Operations** is responsible for sales and marketing, manufacturing and logistics, and sourcing and procurement for mobile devices from Mobile Phones, Multimedia and Enterprise Solutions.
- **Technology Platforms** delivers leading technologies and platforms to Nokia's business groups and external customers.
- Many other Nokia-wide horizontal units drive and manage specific Nokia assets. These include **Brand and Design, Developer Support, Research and Venturing, and Business Infrastructure.**
- **Corporate functions** (support Nokia's businesses with company-wide strategies and services)

[Nokia Siemens Networks](#), which started operations on April 1, 2007, combines Nokia's networks business and Siemens' carrier-related operations for fixed and mobile networks into a company owned approximately 50% by each of Nokia and Siemens, and consolidated by Nokia.
