

**WIZCOM**

## Working With Wizcom

Wizcom are part of the Caudwell group of companies. The Caudwell group is a UK based privately owned business that employs approximately 5000 people. The group's turnover is in excess of £2.25 billion.

Wizcom operate wireless data services, which include and increasing number personalisation and entertainment products. Wizcom market these products using proprietary platform technologies and an ever-increasing number of channels. Channels include retailer, Phones 4u, Singlepoint (4u) Ltd - Part of the Vodafone Group and it's own successful direct channel, Coolfinger.com.

Working with Wizcom is very simple. All products are licensed on a revenue sharing, performance based system.

Wizcom are especially keen to source Graphics and Games in Q2 & Q3 of 2004, however, all applications submitted will be reviewed openly and honestly.

If you would like Wizcom to consider your applications it couldn't be simpler than 1,2,3

### Step 1

Contact us for a new developer application pack. You will be allocated a supplier manager at this stage. Complete the pack and send examples of your application for assessment.

### Step 2

Subject to approval of your application we will agree the commercial relationship and available channels to you. Payment terms are agreed at this stage.

### Step 3

Exchange agreements, supply full applications and monitor your sales in real-time online. At the end of each month you will be issued with a statement to invoice against. If you are based in the UK and VAT registered we will self-bill and send your payment automatically each month.

contact with all of our development partners on a regular basis. Your supplier manager will help you to maximise sales and maximise revenues at every opportunity.

To request your developer application pack e-mail
