Make more happen with
Nokia Eseries smartphones

NOKIA
Connecting People

Nokia Eseries – optimised for business

The ability of your business to adapt to new, increasingly mobile ways of working could be what sets you apart from the competition. When you're on the move, Nokia Eseries smartphones provide you with freedom, flexibility and power to collaborate, wherever your work takes you.

Bring your workforce together with Nokia Eseries smartphones that suit individual requirements – from the flagship Nokia E7 to the accomplished Nokia E63. No matter how each member of your team works with documents and other content, there is an Eseries smartphone engineered to help your productivity, communications and collaboration. Designed with people in mind, each smartphone is also stylish and comfortable in your hand, easy to master and includes many time-saving features. Plus, they safeguard your personal and business information, are renowned for reliability and are simple to deploy, manage and upgrade.

Delivering efficiency and productivity, business-optimised Nokia Eseries smartphones add value to your chosen mobility solution. See how the suite of Nokia Eseries smartphones can help to maximise the potential of your business.

Email and instant messaging

Nokia Eseries smartphones support an array of email and messaging options, including Mail for Exchange (Microsoft® ActiveSync®), *IBM® Lotus® Notes® Traveler, Instant Messaging (IM/Chat), Microsoft® Office Communicator, *IBM® Lotus Sametime® Multimedia Messaging Service (MMS), and Short Message Service (SMS).

Essential office applications

Nokia Eseries smartphones have in-built mobile VPN to give you access to your corporate intranet and network applications, such as enterprise resource planning (ERP), customer relationship management (CRM) and sales force automation (SFA). You can read, create and edit Microsoft® Office documents, spreadsheets and presentations with the Quickoffice® application. Plus, you can view PDF documents in Adobe® Reader®.

Calendar and organiser utilities

Advanced and optimised calendar functions, contacts and to-do lists can all be synchronised with common business email solutions traditionally used on PC. Viewing and making calendar appointments is now even easier with the Nokia Eseries interface offering you month, week or day views. Pop-up windows show you more information at a glance.

Security and data protection

Get the protection that your business demands with in-built security features such as hardware accelerated smartphone and memory card encryption, smartphone locking and remote wiping.

Smartphone management solutions

Nokia Eseries smartphones are compatible with most device management providers for over-the-air management, delivering lower support costs and enhancing the usability of mobile software. Additionally, Mail for Exchange offers you the possibility to create and manage security policies over the Microsoft® Exchange ActiveSync protocol.

Advanced voice technologies

Superior voice clarity is paramount, so noise cancellation is especially useful in busy surroundings. Other advances to help you meet your business goals include:

Call Connect (integrates Nokia Eseries smartphones with your fixed telephony system), handsfree speakerphone, voice dialling, conference calling, and a host of call handling and call management features.

Stylish and functional designs

Contemporary designs with different form factors are engineered to suit the variety of ways that people work. You'll enjoy a choice of screen size, navigation options including Navi™ key, and keymat layout – for instance the fast and convenient QWERTY. Nokia Eseries smartphones are also elegantly created in tactile and stylish materials that make them comfortable in your hand and easy to use.

High-performance business tools

Business-level performance features include long battery life, fast processing speeds and generous built-in memory with expandable data storage up to 32GB on microSD cards.

Extensive connectivity options

The full connectivity suite includes WLAN/Wi-Fi, Bluetooth® wireless technology, infrared, 3G, USB on the go and HDMI TV output.

*Nokia E6 and Nokia E7 support coming soon

Nokia Eseries

Key smartphone features

Nokia Eseries smartphones are designed for the increasingly connected business world, where a comprehensive range of requirements, challenges and demands need to be met.

Nokia E7

Success is what you make it

More is more. Nokia E7 is the business smartphone with an impressive AMOLED screen, full QWERTY keyboard and support for 10 different email accounts. This flagship smartphone puts all other smartphones on notice.

Nokia E7 enables direct, secure and real-time access to your corporate systems, plus easy synchronisation with your work inbox, calendar, contacts and tasks. All with a beautiful, innovative design that seamlessly incorporates everything you need to stay in sync. You can also do more with quick access to your work and private email accounts from the same view.

View and edit Microsoft® Word, Excel and PowerPoint documents using the Quickoffice® application. Also view PDF files with Adobe Reader.

Real-time business email with Mail for Exchange – no extra fees and no additional hardware required. Plus support for up to 10 email accounts.

Communicate how you want to with both an AMOLED real glass 4" touchscreen and side-slide full QWERTY keypad.

Easy presentation capabilities via HDMI TV out.

Access the internet through a fast 3G or Wi-Fi network – or use your phone as a modem by connecting to a compatible computer.

Built-in GPS, compass and with the largest selection of free maps, Ovi Maps is more efficient than competitive offerings, no separate licence.

Hold business meetings over the phone with multi-party conference calling. Make low-cost VoIP calls over a secure and reliable connection.

For more information please visit www.nokia.com/E7

Nokia E6

Get more done

Manage your business and your workflow your way with Nokia E6. The comfortable QWERTY keyboard now comes with enhanced touchscreen display bringing you added efficiency, while access to a suite of Microsoft solutions will keep you productive on the move. Do even more with access to Ovi Store Business Apps as well as Ovi Maps with free navigation – all on the smartphone with the longest battery life ever from Nokia.

Easy and efficient usage with full QWERTY keyboard and 640x480 pixel touchscreen display.

Stay on the move with 7.5 hours of 3G talk time or 14.8 hours of 2G talk time and up to 31 days on standby.

Get desktop-like business email at your fingertips with integrated Mail for Exchange.

View and edit Microsoft Word, Excel and PowerPoint documents using Quickoffice® with secure access to Microsoft SharePoint. Also view PDF files with Adobe Reader.

Staying connected is simple with Instant Messaging from Microsoft® Communicator Mobile.

Built-in A-GPS receiver and Ovi Maps with free lifetime navigation (both walk and drive) including turn-by-turn voice guidance in more than 78 countries.

For more information please visit www.nokia.com/E6

Nokia E5

Stay connected your way

Nokia E5 is the smart way to organise your work and personal life with secure support for email, IM and social networks. View and edit Microsoft Word, Excel and PowerPoint documents using the Quickoffice® application, all while listening to your favourite music using the player and 256 MB of built-in memory.

Get work emails in real time through Mail for Exchange and IBM Lotus Notes Traveler – access up to 10 independent email accounts.

Type a quick email, SMS or note using the full QWERTY keyboard – built for fast, efficient messaging.

Arrive at the right place, on time with built-in GPS and Ovi Maps – including free lifetime navigation and turn-by-turn voice instructions.

Stay on the move with up to 13 hours of GSM talk and 38 hours of music playback courtesy of the 1200mAh battery.

Capture high-resolution photos and DVD-quality video using the 5 megapixel digital camera with full focus and flash.

For more information please visit www.nokia.com/E5

Mail for Exchange for Nokia smartphones

Mail for Exchange software is already integrated on Nokia Eseries smartphones making it a simple and secure way of deploying business-grade email.

Using the Microsoft® Exchange ActiveSync protocol, it allows your business to easily mobilise Microsoft® Exchange email, calendar, contacts and tasks. A cost-effective direct access mobility solution, it extends the capabilities of a desktop or laptop to your Nokia Eseries smartphone.

Nokia E72

Boost your work

Nokia E72 is a high-performance smartphone with comprehensive push email support, a high-quality 5 megapixel camera and intuitive optical Navi™ key. You can be more responsive with the full QWERTY keypad, whether it's a quick text or you're composing a longer email.

Store photos, music, videos and other data with 250MB internal memory and up to 16GB memory card.

Get desktop-like, business-grade email at your fingertips with integrated Mail for Exchange or Lotus® Notes® Traveler.

Noise cancellation ensures superior voice call clarity, which can be particularly useful when you're travelling or in a busy, urban area.

The streamlined interface and optical Navi™ key mean you'll navigate conveniently, intuitively and easily to every smartphone feature.

Capture high resolution images and video using the 5 megapixel camera with flash and autofocus, plus an additional front camera for video calling.

Message indicator light located in the Navi™ key so you know immediately when you have new email, SMS or MMS messages.

Easy set-up and a full keyboard, auto-completion, auto-correction and learning capability for fast and easy typing.

For more information please visit www.nokia.com/E72

Get desktop-like, business email at your fingertips with integrated Mail for Exchange or IBM Lotus Notes Traveler.

Full QWERTY keyboard with advanced messaging and effortless switching between inboxes for business and private email.

Comprehensive security with remote device management options including device locking and device wipe via SMS to protect against theft or loss.

Delivers a secure, encrypted and reliable connection via integrated Nokia Mobile VPN.

Built in A-GPS receiver and Ovi Maps application to find places with both speed and precision.

For more information please visit www.nokia.com/E71

Nokia E71

Connected freedom

Nokia E71 is mobile efficiency, beautifully styled. Enjoy an impressive business experience that helps keep ideas fresh, enhances collaboration and improves workflow – all while keeping you up to speed with 3G, HSPDA and WLAN connectivity built in. Harness this powerful combination of mobile office, security and performance.

Nokia E63

Mobile email made easy

Keep your co-workers and friends in the loop while you stay on the move with Nokia E63. It brings email, messaging, document viewing and your company intranet together. The full keyboard and large landscape display makes accessing and updating information easy, while the sleek, ergonomic and robust design is perfect for business and personal use.

Keep work and leisure in balance with effortless switching between separate, customisable homescreens.

Stay organised with dedicated keys for calendar and contacts plus online file sharing.

Protect your work with a secure, encrypted and reliable connection via integrated Nokia Mobile VPN.

Seamlessly add desk phone capabilities to your device via Nokia Call Connect.

Messaging on the go is made simple and intuitive with the comfortable, quick and easy-to-master QWERTY keyboard.

For more information please visit www.nokia.com/E63

What's the perfect smartphone for you? Things to consider:

- How much data will you be accessing?
- What sort of information will you be viewing on screen (e.g. video, spreadsheets, IM, maps)?
- What applications do you want to use (calendar, email, full HTML web browser)?
- What connectivity options do you require (GPS, 3G, Wi-fi)?
- What features are essential for you (camera, QWERTY keyboard)?

Enhancing mobile products

Nokia Bluetooth® Headset BH-217

Answer calls with headset or phone – it's your choice. Turns on and connects automatically when you take the earpiece out of the holder and turns off when you place it back. You'll also enjoy the convenience of voice guidance for Bluetooth® pairing and battery and connection status.

Nokia Bluetooth® Stereo Headset BH-905i

Hear clear music and calls with multi-microphone noise cancellation. The headset is acoustically designed to provide you with the best possible audio quality. Ultra lightweight with a compact travel case for maximum mobility.

Nokia Car Kit CK-200

Take calls and keep your hands on the wheel with the wireless remote control and see who's calling on the clear, detachable display. You can even read received SMS messages on the car kit display*.

* Full SMS functionality only with Nokia S60 3.2 onwards. Safety notice: drivers should not use the SMS functions or read SMS messages while the car is moving.

Nokia Universal Holder CR-115

Talk freely when you're on the road with this compact, adjustable phone holder – or angle it for the best view as you navigate with Ovi Maps. It attaches easily to your windscreen or dashboard*.

* For Nokia E7 please select CR-122.

Nokia Bluetooth® Headset BH-609

Hear and be heard clearly from just about anywhere with advanced 2-mic noise and wind-noise reduction features. With a slim and sleek ergonomic design, you can comfortably listen to text messages, directions, and even the time. Exceptional battery life means up to 6 hours of talk-time from a 1-hour charge, or if you're in a hurry, 2 hours of talk-time from a mere 15-minute charge.

Nokia Extra Power DC-11

Stay productive, be entertained and keep in touch for longer with this lightweight mobile power pack. Simultaneously power up your phone and headset while on the go and then store the cables neatly away. When you're back in the office, charge the power pack, your phone and an accessory at the same time.

Nokia Carrying Case CP-520

Simple and stylish, this carrying case is the handy way to keep your Nokia E7 safe from bumps and knocks. The pull-up loop design means you'll always have easy access to your phone. Choose either black or a polished pink.

Created with the environment in mind

We are continuously improving the environmental sustainability of our products. Our Eseries smartphones introduce Eco innovations and solutions for a greener lifestyle, which will be implemented more widely in the future.

Learn more at: www.nokia.com/environment

For a full Eco profile or Eco Declaration for each Nokia smartphone, please go to:

<http://www.nokia.com/environment/devices-and-services/devices-and-accessories/eco-profile>

Since 2001 Nokia has been providing Eco Declarations for all its products. Eco Declarations provide basic information on the environmental attributes of the product covering material use, energy efficiency, packaging, disassembly and recycling.

In May 2010, we started providing Eco profiles for all our new products. In addition to the basic information of the environmental attributes, the new Eco profiles also contain information on the environmental impact of our products.

Eco profile: Nokia E7, Nokia E6 and Nokia E5

Energy efficiency: PowerSave Mode, ambient light sensor, unplug charger reminder and Fast Micro-USB charger AC-10 (Nokia E7), High Efficiency charger AC-8 (Nokia E5) and AC-15 (Nokia E6)

Materials: Free of PVC, BFR and RFR, contains bio plastics

Eco content and services: Available on the Ovi Store Green Channel

Recycling: All materials can be recycled or recovered as energy

Packaging: 100% recyclable

User manual: In-device e-guide, quick guide
