Nokia smartphones and business solutions

As work becomes ever more mobile, you need a smartphone that keeps you connected to the core of your business, seamlessly. In this brochure, you'll find out how Nokia provides both the smartphones and the end-to-end solutions for businesses of all sizes.

Nokia business mobility equips you with everything you need when you're on the move. Best-in-class smartphones are supported by fully scalable email and messaging solutions, which work quickly and easily with software you're already familiar with, such as Microsoft® Exchange and IBM Lotus Domino®. Strengthened by top enterprise technology partners, Nokia can deliver a wide selection of business and utility applications, security features, cost-efficient device management tools, advanced voice options and free navigation, providing numerous business benefits.

You can also add accessories such as a power pack to extend your connection time, a car kit to let you take calls while driving, or a noise cancellation headset to make music and calls clearer.

“ Nokia simply makes excellent devices.”

Pete Cummins
Network Manager, SSP

“ The goal is to marry the productivity gains that mobile devices and software can provide, with the stability requirements of our IT infrastructure and budgets. Nokia with Microsoft gives us that balance.”

Juuso Ihalainen
Development Manager, Tapiola Group

“ Giving rescuers the exact GPS location of the incident saves precious minutes. Rescuers are texted the address of the emergency from Fire Control. They can then copy and paste the address directly into Nokia Maps and find the best route instantly.”

Keith Bellamy
Deputy Section Leader, Hampshire Fire and Rescue Service

Combines convenience of touch screen and full QWERTY keyboard

NOKIA C5-00

Sleek, classic business smartphone

NOKIA E5

Comfortable QWERTY keyboard with A-GPS – the affordable business smartphone

NOKIA C6-01

Affordable, compact with touch screen UI

Keeping you well connected

Fast, reliable connection with your team and other specialists in your organisation has never been more important. That's why we offer you a range of communication solutions designed to be easy, flexible and cost-efficient to implement. To deliver the full mobile office experience, Nokia smartphones feature leading email and messaging solutions.

Mobile email

Get our familiar, desktop-like, and easy-to-use interface for email, calendar, contacts and tasks. Solutions are compatible with a wide range of Nokia smartphones.

Microsoft® Exchange ActiveSync®

Use Mail for Exchange to synchronise your existing Microsoft Exchange accounts. So employees can use their Microsoft Exchange inbox, calendar and contacts in real time on their Nokia smartphones.

IBM® Lotus Notes® Traveler

Take your IBM Lotus Notes email, calendar, contacts, journal, and to-do items and synchronise them between IBM Lotus Domino® servers and Nokia smartphones.

Mobile messaging

Help your business communicate directly, securely and more cost-effectively. We offer instant messaging solutions, plus Multimedia Messaging Service (MMS) and Short Message Service (SMS).

Microsoft® Lync™ 2010 Mobile

Gives a rich experience of Instant Messaging (IM), contacts with photos, and up-to-date availability status so colleagues know when to call, email or instant message, and when to hold back. Join Lync and other audio meetings directly from calendar without typing passcodes.

Similar to the PC-based Microsoft® Lync application, this is a familiar interface which allows users to start single and multi-party instant messaging conversations and search new contacts directly from their global address books. It uses existing environment and authentication credentials, with no additional licences needed. It's also easy to deploy with only minimal support – no need for new hardware.

IBM® Lotus Sametime®

IBM® Lotus Sametime® mobile client extends instant messaging and collaboration services for mobile users. It's a fast and efficient way of communicating with colleagues, business partners and customers in real time. IBM® Lotus Sametime® is compatible with Nokia Symbian S60 smartphones.

Mobile notes, presentations and documents

Microsoft® Apps is a full suite of productivity applications for Nokia Symbian Belle smartphones. In addition to Microsoft Lync 2010 Mobile, the suite includes:

Microsoft® PowerPoint® Broadcast

Quickly broadcast presentations from PC to mobile. Combine with Lync audio conferencing for a full meeting experience.

Microsoft® OneNote™

Create, read and edit rich text notes and add images from your phone's camera or gallery. Sync your notebooks to Microsoft® Windows SkyDrive cloud to keep them accessible across mobile, PC and browser.

Microsoft® Document Connection

Gives you a single view of documents stored on your mobile, including email attachments as well as documents on Microsoft® SharePoint® 2010 sites.

Device management with Microsoft® System Center Configuration Manager

System Center Configuration Manager supports management of Nokia Symbian Belle smartphones. Allows your IT department to take care of needed security settings and policies, and install required applications to your mobile automatically.

Ready when you are

All these services work with your existing infrastructure. And remember, you don't need any new hardware or licence fees. So they're as easy to deploy as they're cost-effective. Just get in touch.

Nokia Maps & Apps

Nokia Maps – free navigation for life

Wherever you're headed worldwide, finding your way and making the most of your trips has never been easier. All our latest smartphones have free, built-in navigation tools – including GPS, compass, free maps coverage and drive and walk navigation. As well as weather forecasts and city guides.

Nokia Maps cover more than 180 countries, and you can download or preload them to your smartphone free of charge. This means they work for you when you're offline – eliminating roaming charges. You also get integrated driving and walking navigation for over 75 countries, with audio directions.

Nokia Apps – to meet almost any business need

You can find a Nokia app to boost productivity, keep up to date, or help sales teams improve collaboration and meet targets. Many apps can be pre-loaded. Visit nokia.com/business, and click on **Applications** to access a wide range of Business and Utility apps. These cover travel, security, work force tools and other relevant topics for staying organised and productive.

NEWS AND INFORMATION APPS

- **Bloomberg Mobile** – up-to-the-minute financial news and information, wherever you may be
- **CNN International** – stay ahead of events with news you can trust, or share what's important to you by contributing your story with iReport
- **Thomson Reuters** – professional-level news and current market data, at your fingertips
- **LinkedIn** – contact your connections, check out profiles and network updates straight from your phone

CRM, FIELD FORCE AUTOMATION APPS

- **SalesForce** – award-winning CRM software to help you stay in touch with your customers and access your company information on the move
- **Expense Recorder** – lets you track your daily and monthly business and travel expenses, with spreadsheet view
- **MileBug** – helps you keep track of your mileage and related expenses
- **SugarSync** – lets you remotely access, open and easily share files through your mobile phone

TRAVEL APPS

- **lastminute.com** – works with Nokia GPS to find a hotel near you, even in unfamiliar places
- **HRS Hotelportal** – gives access to a database of more than 250,000 hotels worldwide, then checks availability and prices

UTILITIES APPS

- **Call Connect for Cisco** – extends business voice communications in Cisco Unified Communications Manager using WLAN and cellular, to Eseries smartphones
- **Skype** – save money and stay in touch when you're on the move. Make free Skype-to-Skype calls and instant messages on 3G or Wi-Fi
- **Connect-on-demand** – access almost 140,000 Wi-Fi venues with an iPass subscription
- **F-secure** – the latest anti-virus, anti-intrusion and anti-theft protection. Also lets you locate, then remotely lock and wipe your smartphone
- **Bestsafe** – stores your sensitive data, such as credit card information, behind a password-protected and encrypted shield

Security & Smartphone -Device Management

Nokia smartphones protect your business data, information and workforce with a comprehensive set of security features. These include smartphone encryption, locking and remote wiping for end-to-end, multi-level security management.

Integrated mobile VPN provides reliable and secure access to company information – along with anti-virus, personal firewall, data security and authentication.

SMARTPHONE AND CONTENT SECURITY

Using Mail for Exchange or IBM® Lotus Notes® Traveler, emails are synchronised over secured end-to-end connection with SSL/TLS authentication and data encryption.

SECURE CONNECTIVITY

Nokia smartphones are pre-loaded with security certificates from leading Certificate Authorities (CA) – including Baltimore, Equifax, GeoTrust, Go Daddy and VeriSign. You can also use your own self-signed certificate.

All essential IT security policies are supported, including Microsoft® ActiveSync® policies. Smartphone password, lock and remote wipe can be mandated by administrators.

END-POINT SECURITY

We offer anti-theft and remote data-wipe solutions through partners including F-Secure and Kaspersky Mobile Security. As for viruses, you'll be pleased to know that these pose a low risk on Nokia smartphones because of the way the Symbian operating system handles applications.

REMOTE MANAGEMENT

You can implement Open Mobile Alliance (OMA) standards-based smartphone management solutions.

Accessories

Make the most of your smartphone with our latest range of accessories. Enjoy easier and safer connection with your colleagues, customers and business partners. Everything is aimed at enhancing your mobile experience.

Extend your reach

NOKIA EXTRA POWER DC-11

Stay productive and keep in touch (or entertained) for longer, with this lightweight mobile power pack. Power up your phone and headset together while on the go, then charge the power pack, phone and an accessory together when you're back in the office.

NOKIA CS-19 INTERNET STICK

Our easy-to-use internet stick lets you connect your computer to the internet quickly, with up to 21 Mbps connection over 3.5G.

Nokia Car Kits

* Full SMS functionality only with Nokia S60 3.2 onwards.
Safety notice: drivers should not use the SMS functions or read SMS messages while the car is moving.

NOKIA CAR KIT CK-200

Take calls and keep your hands on the wheel with the wireless remote control. You can also see who's calling you on the clear, detachable display – and even read received SMS messages on the car kit display.*

NOKIA UNIVERSAL HOLDER CR-115

Talk freely when you're on the road with this compact, adjustable phone holder – or angle it for the best view as you navigate with Nokia Maps. It attaches easily to your windscreen or dashboard. For Nokia E7 please select CR-122.

Nokia Bluetooth® Headset Range

NOKIA BLUETOOTH® HEADSET BH-217

Answer calls with headset or phone – it's your choice. The headset connects automatically when you take the earpiece out of the holder, and turns off when you put it back. You'll also enjoy the convenience of voice guidance for Bluetooth® pairing, plus battery life status and connection strength.

NOKIA BLUETOOTH® HEADSET BH-806

Advanced 2-mic noise and wind-noise reduction features bring you clearer sound wherever you may be. The slim ergonomic design makes it easy to use whether you're listening to text messages or directions, or simply checking the time. What's more, exceptional battery life offers up to six hours of talk time from a one-hour charge – or two hours from a mere 15-minutes.

NOKIA BLUETOOTH® STEREO HEADSET BH-905I

Music and calls are clearer with multi-microphone noise cancellation. This headset is acoustically designed to provide you with the best possible audio quality. Ultra-lightweight, with a compact travel case for maximum mobility.

Sustainability

CREATED WITH THE ENVIRONMENT IN MIND

As a global business leader, Nokia has a major commitment to sustainability, recycling, and protecting the environment. We also aim for the lowest possible energy use at every point in product design, manufacturing and packaging. We call our approach 'lifecycle thinking', and focus on five key areas:

- Sustainability
- Energy efficiency
- Smaller and smarter packaging
- Consumer involvement with eco services
- Take back and recycle

You'll find more information at nokia.com/environment

GREEN ACHIEVEMENTS

Nokia has been ranked first in the Greenpeace Guide to Greener Electronics for several years. In 2009, we were first out of 166 technology companies in the Dow Jones Sustainability Index (DJSI) – with top scores in the environmental and social categories.

Eco profiles for Nokia business smartphones

Since 2001, we've provided Eco Declarations for all our products. These give essential information on each smartphone's environmental profile – including material use, energy efficiency, packaging, disassembly and recycling.

For a full Eco Declaration for any Nokia smartphone, visit:

<http://www.nokia.com/environment/devices-and-services/devices-and-accessories/eco-profile>
