New Phones to keep on top of work and life

Welcome to your latest Nokia for Business newsletter. We're proud to tell you how the launch of our Lumia smartphones can benefit you every day at work.

There's also information about the new Asha phones and smart apps, available with the Windows Phone, which will make your day-to-day business easier.

And for those of you who didn't attend Nokia World 2011, we'll be looking back at the event.

New Nokia with Windows Phone

The newly announced [Nokia Lumia 800](#) and [Nokia Lumia 710](#) received rave reviews, with the Nokia Lumia 800 crowned the Mobile of the Year at the [What Mobile Awards 2011](#).

These phones not only look great, they're also brilliant for taking care of business whilst on the move. Both have Microsoft Outlook Mobile™ built-in and you can link your different accounts so you see all your emails on one screen.

With Microsoft Office Mobile™ it's easy to create, view and edit documents using Word, Excel and PowerPoint. And you can share work with others, without slowing down your emails. Simply upload it on Sharepoint for your colleagues to review. For faster collaboration, Microsoft Lync™ Mobile will soon be available in Windows Marketplace. View your colleagues' availability and send them an IM when they are online and available.

There are many new business features that allow you to work securely whilst on the go.

[More about the Lumia phones](#)

The Asha family - mobile productivity for everyone

Our other new range of phones offer stylish design and location-aware technology. If you're looking for a QWERTY keyboard with a rich social experience then the [Nokia Asha 201](#) is the phone for you.

The [Nokia Asha 303](#) combines both a QWERTY and touch screen experience with fast connectivity and integrated social networking. This includes a 1GHz processor, WLAN access and premium messaging features such as Push email out-of-the-box, allowing you to work no matter where you are. One touch access to Email, IM and Internet ensure you never miss out the opportunity to keep track of your tasks and friends.

Smart apps for Nokia Lumia smartphones

In a world with millions of apps, we need the ones that make our work and lives easier. Here are just a few you might find useful:

Seesmic

Spending a lot of time in the office entering, looking up and managing customer data? Download [Seesmic CRM](#) for Salesforce, a great way to manage your Salesforce CRM life in one powerful app. The application supports full integration of Salesforce.com standard Objects and Activities as well as full implementation of custom fields and access rights. Easily look up information on Leads, Contacts, Accounts and Opportunities while on-the-go.

[Read more](#)

Evernote

Ever have that feeling that you are forgetting something? Download [Evernote](#) and enjoy this award winning app which lets you remember and recall anything that happens in your life. From notes to ideas to snapshots to recordings, put everything into Evernote and seamlessly sync with your desktop or other mobile devices.

[Read more](#)

Yammer

Do you use Yammer at your PC as your company's private and secure social network? Ever wished you had an access to it on your phone? Download [Yammer](#) and view messages, post updates and receive important notifications no matter where you are. Stay connected to your business wherever you go with Yammer for Windows Phone.

Nokia World 2011 – we hope you enjoyed it!

[Nokia World 2011](#) caused a lot of excitement at the ExCeL London convention center on the 26th October. Stephen Elop, the Nokia CEO, launched the Nokia Lumia smartphones running on Windows Phone and the new Asha range of smarter phones.

And it wasn't just our exciting new phones on show. Guests were able to try out the latest versions of Nokia Maps and [Nokia Drive](#) as well as [Nokia Pulse](#), which lets you privately send location-tagged updates and photos. In addition, a new concept called [Nokia Kinetic](#) "bendy phone", a concept under development which received massive attention at the Nokia Future Lounge.

We'd like to thank our partners, developers, and devoted customers for your enthusiasm and contribution. Come see us again at:

- [CES](#) in Las Vegas on 10 – 13 January 2012
- [Mobile World Congress](#) in Barcelona on 27 February – 1 March 2012

Microsoft® Apps coming to Symbian Belle

Look out for future products that will improve how you work every day. [Microsoft® Apps](#) software update including Microsoft® Lync™ 2010 Mobile, Microsoft® PowerPoint® Broadcast, Microsoft® OneNote™ and Microsoft® Document Connection will be available early 2012 for Symbian Belle smartphones.

Thank you for reading, and look out for your next Nokia newsletter coming soon.
