

What is Nokia TechSquad?

Nokia TechSquad is a community of certified technical professionals who have a common interest in innovative networking technologies and strategic business transformation across the enterprise.

Together with Nokia and industry experts, members collaborate, learn, and exchange ideas on industry hot topics such as Industry 4.0, private networks, and sustainability.

What are the Benefits of being a TechSquad Member?

As a member of the exclusive Nokia TechSquad community you will be included in workshops and events featuring analysts, visionaries, and Bell Labs luminaries. Join your industry colleagues for workshops and training events covering Private Wireless and Passive Optical Lan solutions, industry use cases*, technology challenges and other network transformation topics of interest.

Who's Eligible?

All Nokia partners who have achieved technical certifications in one or more areas:

Sales Engineers	Network Integration
Network Planning	Technical Support
Field Technician	CBRS/CPI (US only)

Certifications must be valid and not expired.

Activities include:

- Discussion boards for collaboration
- Technical problem solving
- Meeting the experts
- Proof-of-Concept (POC)
- Regional in-person events and discussion groups
- Access to Nokia portfolio information
- Unique badging – for greater industry visibility and recognition

*For privacy and confidentiality partner specific names will not be included.
