

1. Product Overview

Nokia ONT G-240G-H is designed to cater to residential customer requirements and offers data services to the subscriber through fiber to the home (FTTH) or fiber to the premises (FTTP) applications. The ONT is compliant with ITU-T G.984 supporting a line rate of 1.25 Gbps upstream and 2.5 Gbps downstream. The device supports standard triple play services, voice, video and high-speed internet access to support home networking. Compliant with standard OMCI definition, the Nokia G-240G-H can be managed from a remote site.

A. Technical Specifications

Width: 100 mm (3.94 in)

Height: 31.75 mm (1.25 in)

Depth: 158.5 mm (6.24 in)

Weight: 247 g (0.54 lb)

Desk or wall mount

Power consumption:

- Standby mode: 4.06 W
- Typical mode: 5.61 W

B. Manufacturer Information

For Products Purchased in EU/EAA Countries

The products are manufactured and imported by Nokia Solutions and Networks Oy. Karakaari 7, 02160 Espoo, Finland.

Nokia is a registered trademark of Nokia Corporation.

Please contact your Internet Services Provider in case of questions on the product.

2. Safety Guidelines

ALWAYS READ THE PRODUCT GUIDE BEFORE SET UP OR USE OF THE PRODUCT. IT IS YOUR RESPONSIBILITY TO FAMILIARIZE YOURSELF WITH THE PRODUCT GUIDE AND WARNINGS, AND TO USE A PRODUCT PROPERLY. CONTACT YOUR INTERNET SERVICES PROVIDER FOR FURTHER QUESTIONS.

Warning - Risk of electric shock or fire

Connect the Product power adaptor or cord to the right supply voltage (for example, 230V in Europe, Australia, South Africa and 120V in US).

The socket-outlet shall be easily accessible.

Pay attention to the power load of the electrical outlet and possible extension cord. An overburdened power outlet or damaged cords and plugs may cause electric shock or fire. Check the power cords regularly. If you find any damage, replace the cord immediately.

Do not connect the plug into an extension cord, receptacle, or other outlet unless the plug can be fully inserted with no part of the blades exposed.

Leave adequate space for heat dissipation to avoid any damage caused by overheating the Product. Do not cover the Product or its ventilation holes. Blocking the ventilation holes may cause fire.

Use the power adapter provided with your Product and do not fasten the power cable to building surfaces. Ensure the cable can move freely. Do not place heavy objects on the cable.

Do not use the Product outside, and make sure all the connections are indoors.

Do not install, use, or service this Product during a thunderstorm. There is a remote risk of electric shock from lightning.

Caution - Potential equipment damage

Follow these recommendations to protect yourself and the Product from harm:

- Do not look directly at the optical port without protection.
- Do not insert any sharp object into the openings of a Product.
- Do not put the Product near a heat source. Avoid placing the Product in direct sunlight.
- Do not put the Product in damp or wet locations; for example, near a bathtub, washbowl, kitchen sink or laundry tub, in a wet basement, or near a swimming pool. Do not spill any liquid on the Product.
- Do not touch the Product or its power adapter or cord with wet hands.
- Do not place the Product on an unstable surface or support.
- Do not place heavy objects on top of the Products.
- Do not use liquid or aerosol cleaners; unplug the Product and use a soft, dry cloth for cleaning.
- When connecting a PC or other electronic device to a Product, make sure you use the right cables and connect the device to the right port of the Product. Incorrect connections may damage the device and/or the Product.

Nokia ONT G-240G-H Quick Reference Guide

- Do not open or try to open the Product. Opening or removing covers can expose you to dangerous high voltage points or other risks.

It is recommended that users and other individuals maintain a distance of at least 10 cm between themselves and the Product to avoid exposure. The Product contains components that emit an electromagnetic field and could interfere with pacemakers or other electronic medical devices. If you have a pacemaker or other implantable or personal medical device, please consult your physician or medical device manufacturer about the required minimum safe distance between the Product and your medical device.

Keep your product and accessories out of reach of pets. They could damage it and cause injury or electrocution.

If the Product malfunctions or fails to perform as expected, stop using it immediately.

The product is expected to operate at a temperature of -5 to 60 degrees Celsius for a relative humidity between 5% and 95%.

3. Install the ONT

The ONT is normally installed by a professional installer.

- Plug the power cable to the ONT into power input jack.
- Plug the power socket to the wall socket.
- Remove the protective cap on the optical port of the ONT.
- Remove the protective cap from the optical fiber.
- Plug the optical fiber to the optical port of the ONT.
- Connect the ONT to the home router via an Ethernet cable into the Ethernet port.
- Push the power button to be "ON" ("ON" = recessed stated, "OFF" = non-recessed state).

4. LED description

The following table describes the LEDs of the device:

LED indicator	LED color and behavior	LED behavior description
Power	Green solid	Power on and the system is running properly.
Power	Green flashing	System is booting up.
Power	Amber flashing	Default LED and upgrading of new firmware.
Power	Red	Failed on startup (for example corrupt flash), or self-test failed on startup, or self-test failed during regular operation or when executed over OMCI.
Power	Off	Power off.
PON 1 and 2	Green solid	ONT has ranged successfully.
PON 1 and 2	Green flashing	ONT is ranging.
PON 1 and 2	Off	No light source is detected.
AUTH	Green solid	ONT is authorized/authenticated.
AUTH	Green flashing	ONT is ranging or synchronizing.
AUTH	Off	ONT is not authorized/authenticated.
LAN 1 to 4	Green solid	Ethernet connected/powering device connected to LAN port.
LAN 1 to 4	Green flashing	LAN data activity present (traffic in either direction).
LAN 1 to 4	Off	Power off or Ethernet not connected.

Nokia ONT G-240G-H Quick Reference Guide

LED indicator	LED color and behavior	LED behavior description
TEL	Green solid	Call account is registered.
TEL	Green flashing	Phone call in progress, call account registration is in progress.
TEL	Off	Call account is not registered.
VoIP	Green solid	VOIP service is built up and is providing service.
VoIP	Green flashing	No IP address obtained in the VOIP interface.
VoIP	Off	Service is not built up or out of service.
INTERNET	Green solid	HSI WAN is connected.
INTERNET	Green flashing	PPPoE or DHCP connection is in progress.
INTERNET	Off	HSI WAN is not connected.
USB	Green solid	A device is connected to the USB port.
USB	Green flashing	Traffic activity on the USB connection.
USB	Off	No device is connected to the USB port.

5. Accessibility features

WebGUI compliance with accessibility guidelines

The Device's WebGUI is designed to be accessible for users with disabilities and is compatible with assistive technology.

- Screen reader support: The interface is optimized for screen readers. All menus and settings comply with WCAG 2.1 Level AA.
- Keyboard navigation: You can navigate the full interface using only a keyboard (Tab and Arrow keys) without needing a mouse.

Tactile indicators

The device features tactile indicators on the panel to help identify interfaces by touch.

- Voice port: Identified by two tactile dots under each port.

6. EU Declaration of Conformity

Hereby, Nokia Solutions and Networks Oy declares that the Product is in compliance with Low Voltage Directive 2014/35/EU; EMC Directive 2014/30/EU, Directive RoHS 2011/65/EU and 2015/863/EU, Directive Eco-design 2009/125/EC and European Accessibility Act Directive 2019/882/EU. The full text of the EU declaration of conformity, as well as additional compliance information, is available at www.nokia.com/notices/declaration-of-conformity/.

Products are for indoor use only.

Specific precautions for EMC Warning

The Products are compliant with Class B of EN 55032. In a residential environment, this equipment may cause radio interference. The Products are tested to the requirements of EN 55032 (Emissions) and EN55035. There are no specific precautions which must be taken in order to comply with the requirements of Directive 2014/30/EU Essential Requirements in Section 1 of Annex I. In addition, the Products are further tested to ensure spurious emissions are within the specified limits, as well as meeting the requirements for adaptivity, which mitigates against problems

If you have received this document in error, do not use or copy this document for any purpose nor disclose its contents to any other person.

caused by co-location with other wireless products. The Products are not subject to the requirements in Section 2 of Annex I of Directive 2014/30/EU for fixed installations.

End of Life Collection and Treatment

In the European Union and European Economic Area, this label indicates that this product should not be disposed of with household waste. It should be deposited in an appropriate facility to enable recovery and recycling.

The Product is marked with this symbol, which is known as the WEEE mark. WEEE stands for Waste Electronics and Electrical Equipment. Electronic products bearing or referencing the WEEE mark shown above, when put on the market within the European Union (EU) and European Economic Area (EEA), shall be collected and treated at the end of their useful life, in compliance with applicable EU and local legislation. They shall not be disposed of as part of unsorted municipal waste. Due to materials that may be contained in the Product, such as heavy metals or batteries, the environment and human health may be negatively impacted as a result of inappropriate disposal.

At the end of their life, the Products are subject to the applicable local legislations that implement the European Directive 2012/19EU on WEEE. There can be different requirements for collection and treatment in different member states of the European Union.

In compliance with legal requirements and contractual agreements, where applicable, Nokia will offer to provide for the collection and treatment of Products bearing the logo above at the end of their useful life, or Products displaced by Nokia equipment offers. The equipment can be disposed at electronic waste collection points or to stores that sell electronics.

For information regarding take-back of equipment by Nokia, or for more information regarding the requirements for recycling/disposal of the Product, contact your service provider. Regulatory compliance information, including EU Declaration of Conformity, can be found at www.nokia.com/notices/declaration-of-conformity/.
