Specifications

Pro True Wireless Earphones P3802A

Earwax Filter
Ear Graft
Frequency response
Dynamic/Condenser
Sound pressure level dBA
100 dB / 1 m
Impedance
120 Ohm
Microphone type
Microphone type
Power supply
800mV, 44mV rechargeable batteries, 3.7V
Left speaker: Rechargeable batteries, 3.7V
Right speaker: Rechargeable batteries, 3.7V
Charging case: 2.5 hours
Operating time
6 hours per battery; 3.7 hours for the charging case
Charging time
Approx. 2.5 hours
Battery power (estimated)
Estimated time per battery: 10 hours
Weight
Left: 18g Right: 18g
Charging case: 130g
Volume Control
Yes

Bluetooth

Version
10.0
Profile
HFP, A2DP, AVRCP, HSP, SPP
Effective Range
30 m
Transmission Frequency
2400 to 2480 MHz
Output Power
10 mW (max)
Supported Audio Format
SBC

Intended Use/Liability

This device is intended for personal, non-commercial use. It is not designed or intended for use in any manner that may constitute a danger to life or limb, or for use in any manner that may create any risk of serious injury, death, or property damage. The user is responsible for ensuring that the device is used in a manner consistent with the intended design and safety features of the device. The user is advised to consult with a healthcare professional before using the device for any medical condition.

Reset

Removing the battery can lead to loss of data and other issues. Before removing the battery, make sure to save important data and reset your device to avoid any potential problems.

EU Declaration of Conformity

This device complies with the essential safety requirements of Directive 2014/30/EU (Article 3.1). For further information, visit: https://www.nokia.com/en-us/support/declaration-conformity

Safety guide

Important safety instructions

Read this guide carefully before using the product. Failing to follow these instructions may result in damage to the product or personal injury.

Preventing damage to health and accidents

• Always keep the product away from water, moisture, and direct sunlight.
• Do not use the product in areas with high humidity or temperature.
• Do not use the product near open flames or other heat sources.
• Do not use the product near mobile phones or other electronic devices that may cause interference.
• Do not use the product while driving or performing activities that require your full attention.

Preventing damage to the product and malfunction

• Do not subject the product to physical shocks or impacts.
• Do not disassemble or modify the product.
• Do not expose the product to excessive pressure or force.
• Do not expose the product to high temperatures or direct sunlight.
• Do not use the product near radio transmitters or other sources of electromagnetic interference.
