This Base Prospectus has been approved by the Central Bank of Ireland (the "Central Bank") as competent authority under Regulation (EU) 2017/1129 (the "Prospectus Regulation"). The Central Bank only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed under the Prospectus Regulation. Approval by the Central Bank should not be considered as an endorsement of the Issuer or the quality of the notes ("Notes") issued under the Euro Medium Term Note Programme (the "Programme") described in this Base Prospectus which are to be admitted to trading on a regulated market for the purposes of the Directive 2014/65/EU, as amended or superseded (the "Markets in Financial Instruments Directive") and/or which are to be offered to the public in any Member State of the European Economic Area ("EEA"). Application has been made for Notes issued under the Programme during the period of 12 months after the date hereof to be admitted to the Official List of Euronext Dublin (the "Official List") and to trading on its regulated market. The maximum aggregate principal amount of Notes outstanding at any one time under the Programme will not exceed EUR 5,000,000,000 (as further described herein).

References in this Base Prospectus to Notes being "listed" (and all related references) shall mean that such Notes have been admitted to trading on Euronext Dublin's regulated market and have been listed on the Official List. References in this Base Prospectus to "Euronext Dublin" (and all related references) shall mean the regulated market of the Irish Stock Exchange plc trading as Euronext Dublin.

This Base Prospectus (as supplemented as at the relevant time, if applicable) is valid for 12 months from its date in relation to Notes which are to be admitted to trading on a regulated market in the EEA. The obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Base Prospectus is no longer valid.

As at the date of this Base Prospectus, Nokia Corporation (the "Issuer") has the following credit ratings assigned to it: "BBB-" by Fitch Ratings Limited ("Fitch"), "BB+" by S&P Global Ratings Europe Limited ("S&P") and "Ba2" by Moody's Italia S.r.l. ("Moody's"). The Programme has been rated "BBB-" by Fitch, "BB+" by S&P and "Ba2" by Moody's. Each of S&P and Moody's is established in the EEA and is registered under Regulation (EC) No. 1060/2009, as amended (the "EU CRA Regulation"). As such, S&P and Moody's are included in the list of credit rating agencies published by the European Securities and Markets Authority ("ESMA") on its website (at https://www.esma.europa.eu/page/List-registered-and-certified-CRAs) in accordance with the EU CRA Regulation. As such, S&P and Moody's are not established in the United Kingdom but the ratings issued by S&P and Moody's have been endorsed by S&P Global Ratings UK Limited and Moody's Investors Service Limited, respectively in accordance with Regulation (EC) No. 1060/2009 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("EUWA") (the "UK CRA Regulation").

Fitch is established in the UK and is registered under the UK CRA Regulation. Fitch is not established in the EEA but the ratings issued by Fitch have been endorsed by Fitch Ratings Ireland Limited in accordance with the EU CRA Regulation. Fitch Ratings Ireland Limited is established in the EEA and registered under the EU CRA Regulation. As such Fitch Ratings Ireland Limited is included in the list of credit rating agencies published by ESMA on its website (at https://www.esma.europa.eu/page/List-registered-and-certified-CRAs) in accordance with the EU CRA Regulation.

Tranches of Notes to be issued under the Programme may be rated or unrated. Where a Tranche of Notes is to be rated, such rating will not necessarily be the same as the rating assigned to Notes already issued. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the relevant credit rating agency.

Amounts payable on Floating Rate Notes will be calculated by reference to one of LIBOR, EURIBOR, NIBOR or STIBOR as specified in the relevant Final Terms. As at the date of this Base Prospectus, the European Money Markets Institute (as the administrator of EURIBOR) and Norske Finansielle Referanser AS (as the administrator of NIBOR) are included in ESMA’s register of administrators under Article 36 of the Regulation (EU) No. 2016/1011 (the "EU Benchmarks Regulation"). whereas ICE Benchmark Administration Limited (as the administrator of LIBOR) and the Swedish Financial Benchmark Facility (as the administrator of STIBOR) are not included in ESMA's register of administrators under Article 36 of the EU Benchmarks Regulation.
As far as the Issuer is aware, the transitional provisions in Article 51 of the EU Benchmarks Regulation apply, such that ICE Benchmark Administration Limited (as the administrator of LIBOR) and Swedish Financial Benchmark Facility (as the administrator of STIBOR) are not currently required to obtain authorisation/registration (or, if located outside the European Union, recognition, endorsement or equivalence).

*Investing in Notes issued under the Programme involves certain risks. The principal risk factors that may affect the abilities of the Issuer to fulfil its obligations under the Notes are discussed under "Risk Factors" below.*

CERTAIN DEFINITIONS AND PRESENTATION OF FINANCIAL AND OTHER INFORMATION

Nokia Corporation is a public limited liability company incorporated in the Republic of Finland. In this Base Prospectus, all references to "Nokia", "we", "us", "our" or "the Group" are to Nokia Corporation and its consolidated subsidiaries and generally to Nokia's Continuing operations, except where it is made clear that the term means Nokia Corporation or a particular subsidiary or business segment only or our Discontinued operations. "Continuing operations" refers to the Continuing operations following the acquisition of Alcatel-Lucent, the Sale of the HERE Business in 2015 and the Sale of the Devices & Services ("D&S") Business in 2014. "Discontinued operations" mainly refers to the divestment of our HERE business to an automotive consortium and the sale of substantially all of our Devices & Services business to Microsoft.

References to Nokia's "shares", matters relating to Nokia's shares or matters of Nokia's corporate governance, refer to the shares and corporate governance of Nokia Corporation. All references to the "Issuer" are to Nokia Corporation and not to any of its subsidiaries.

In this Base Prospectus, unless otherwise specified, references to a "Member State" are references to a Member State of the European Economic Area, references to "U.S.$", "USD", "U.S. dollars", "$" or "dollars" are to United States dollars, references to "EUR", "euro" or "€" are to the lawful currency of the Member States that have adopted the single currency in accordance with the Treaty establishing the European Community, as amended by the Treaty on European Union, references to "Sterling", "£" and "GBP" are to the currency of the United Kingdom, references to "Japanese Yen" and "JPY" are to the currency of Japan, and references to "Swiss Francs" and "CHF" are to the currency of Switzerland.

In this Base Prospectus, "Sale of the HERE Business" refers to the transaction announced on 3 August 2015 and closed on 4 December 2015 where Nokia sold HERE, Nokia's digital mapping and location services business, to a German automotive industry consortium comprising AUDI AG, BMW Group and Daimler AG ("Consortium"). The HERE business was reported as discontinued operations from the third quarter of 2015 onwards. See "Description of Nokia — Discontinued Operations".

The "Sale of the D&S Business" refers to our sale of substantially all of our Devices & Services business to Microsoft in a transaction that was completed on 25 April 2014.

The "Acquisition of Alcatel-Lucent" refers to the completion of our acquisition of Alcatel-Lucent on 4 January 2016.

In 2020, Nokia had three reportable segments for financial reporting purposes: (1) Networks, (2) Nokia Software and (3) Nokia Technologies. Nokia's new operating model became effective on 1 January 2021, and the reportable segments changed accordingly to: (1) Mobile Networks, (2) Network Infrastructure, (3) Cloud and Network Services and (4) Nokia Technologies. Segment-level information for Group Common and Other is still being presented in our financial information, which comprises Radio Frequency Systems, which is managed as a separate entity, Nokia Bell Labs' operating expenses, as well as certain corporate-level and centrally managed operating expenses.

Financial reporting structure

In 2020, Nokia had three reportable segments: (1) Networks, (2) Nokia Software and (3) Nokia Technologies. Nokia provided net sales disclosure for the following businesses within Networks reportable segment: (i) Mobile Access, (ii) Fixed Access, (iii) IP Routing and (iv) Optical Networks. On 29 October 2020, Nokia announced the first phase of its new strategy, outlining a new operating model designed to better position Nokia for changing markets and align with customer needs. On 1 January 2021, Nokia adopted the new operating model, which includes four reportable segments: (1) Mobile Networks, (2) Network Infrastructure, (3) Cloud and Network Services and (4) Nokia Technologies. The new operating model is optimised for better accountability and transparency, increased simplicity and improved cost-efficiency. In addition, Nokia will continue to disclose segment level information for Group Common and Other.

Within the new Network Infrastructure reportable segment, Nokia intends to provide net sales disclosure for the following businesses: (i) Fixed Networks, (ii) IP Networks, (iii) Optical Networks and (iv) Submarine Networks.
Nokia also intends to continue providing separate net sales disclosure for its different customer types: (1) Communication Service Providers, (2) Enterprises and (3) Licensees. Net sales by region are provided at the Nokia level.

**Changes from previous financial reporting structure to new financial reporting structure**

The following seven product areas were reclassified into new reportable segments:

(i) Network management was reclassified to Mobile Networks from Nokia Software;
(ii) Submarine Networks was reclassified to Network Infrastructure from Group Common and Other;
(iii) Packet Core was reclassified to Cloud and Network Services from Networks;
(iv) Enterprise Solution Services was reclassified to Cloud and Network Services from Networks;
(v) Managed Services was reclassified to Cloud and Network Services from Networks;
(vi) Network Cognitive Services was reclassified to Cloud and Network Services from Networks; and
(vii) Digital Automation and Analytics & IoT was reclassified to Cloud and Network Services from Group Common and Other.

To summarise these changes, the new business groups will be comprised as follows:

1. Mobile Networks is now comprised of Mobile Access from our previous Networks reportable segment, plus the following reclassifications:
   (a) Into Mobile Networks:
       - Network management (from Nokia Software).
   (b) Out of Mobile Access from our previous Networks reportable segment:
       - Enterprise Solution Services (to Cloud and Network Services);
       - Managed Services (to Cloud and Network Services); and
       - Network Cognitive Services (to Cloud and Network Services).

2. Network Infrastructure is now comprised of Fixed Access, IP Routing, and Optical Networks from our previous Networks reportable segment, plus the following reclassifications:
   (a) Into Network Infrastructure:
       - Submarine Networks (from Group Common and Other).
   (b) Out of IP Routing from our previous Networks reportable segment:
       - Packet Core (to Cloud and Network Services).

3. Cloud and Network Services is now comprised of our previous Nokia Software business group, plus the following reclassifications:
   (a) Into Cloud and Network Services:
       - Packet Core (from Networks);
       - Enterprise Solution Services (from Networks);
       - Managed Services (from Networks);
• Network Cognitive Services (from Networks); and
• Digital Automation and Analytics & IoT (from Group Common and Other).

(b) Out of our previous Nokia Software business group:
• Network management (to Mobile Networks).

4. Group Common and Other continues to include Radio Frequency Systems (RFS), and the following product areas were reclassified into our new business groups:
• Submarine Networks was reclassified to Network Infrastructure; and
• Digital Automation and Analytics & IoT was reclassified to Cloud and Network Services.

Changes in Accounting Standards

On 1 January 2019, Nokia adopted IFRS 16, Leases. In accordance with the transitional provisions of IFRS 16, Nokia has not restated prior year comparatives but has presented the cumulative effect of adopting such standard as transition adjustment to the opening balance of other comprehensive income and retained earnings as at 1 January 2019. The nature of the new standard, impact of adoption on Nokia's consolidated financial statements and changes to Nokia's accounting policies resulting from the adoption are described in detail in Note 3, "New and amended standards and interpretations" in Nokia's audited consolidated financial statements as at and for the twelve months ended 31 December 2019. Other amendments and interpretations that became effective on 1 January 2019 did not have a material impact on Nokia's consolidated financial statements.

On 1 January 2020, Nokia adopted the certain amendments to the accounting standards issued by the IASB and endorsed by the EU with no material impact on Nokia's consolidated financial statements:

1. Amendments to IFRS 3, Definition of a Business;
2. Amendments to IFRS 7, IFRS 9 and IAS 39, Interest Rate;
3. Benchmark Reform;
4. Amendments to IAS 1 and IAS 8, Definition of Material; and
5. Amendments to References to the Conceptual Framework in IFRS Standards.

Nokia has not early adopted any new and amended standards and interpretations that have been issued but are not yet effective. The new and amended standards and interpretations issued by the IASB that are effective in future periods are not expected to have a material impact on the consolidated financial statements of the Group when adopted. Nokia intends to adopt these new and amended standards and interpretations, if applicable, when they become effective and are endorsed by the EU.

Rounding

Certain figures included in this Base Prospectus have been subject to rounding adjustments; accordingly, figures shown for the same category presented in different tables may vary slightly and figures shown as totals in certain tables may not be an arithmetic aggregation of the figures which precede them.

Website

Our website is located at https://www.nokia.com/. We have included our website address as an inactive textual reference only. The contents of the website are not incorporated by reference into this Base Prospectus.

In this Base Prospectus, unless the contrary indication appears, a reference to a law or a provision of a law is a reference to that law or provision, as extended, amended or re-enacted.
IMPORTANT NOTICES

This Base Prospectus comprises a base prospectus in respect of all Notes issued under the Programme for the purposes of Article 8 of the Prospectus Regulation.

The Issuer accepts responsibility for the information contained in this Base Prospectus and any Final Terms (as defined below) and declares that, having taken all reasonable care to ensure that such is the case, the information contained in this Base Prospectus and any Final Terms are, to the best of its knowledge, in accordance with the facts and contains no omission likely to affect its import.

Subject as provided in the relevant Final Terms, the only persons authorised to use this Base Prospectus in connection with an offer of Notes are the persons named in the relevant Final Terms as the relevant Dealer or the Managers, as the case may be.

This Base Prospectus is to be read in conjunction with all documents which are deemed to be incorporated herein by reference (see "Information Incorporated by Reference"). This Base Prospectus shall be read and construed on the basis that such documents are incorporated and form part of this Base Prospectus.

Other than in relation to documents which are deemed to be incorporated herein by reference (see "Information Incorporated by Reference"), the information on the websites to which this Base Prospectus refers does not form part of this Base Prospectus and has not been scrutinised or approved by the Central Bank.

Where information in this Base Prospectus has been sourced from a third party, this information has been accurately reproduced and, as far as the Issuer is aware and is able to ascertain from the information published by that third party, no facts have been omitted which would render the reproduced information inaccurate or misleading. The source of third party information is identified where used.

The language of the Base Prospectus is English. Certain legislative references and technical terms have been cited in their original language in order that the correct technical meaning may be ascribed to them under applicable law.

Each Tranche (as defined herein) of Notes will be issued on the terms set out herein under "Terms and Conditions of the Notes" (the “Conditions”) below as completed by a document specific to such Tranche of Notes called the final terms (each a "Final Terms") or in a separate prospectus specific to such Tranche of Notes (each a "Drawdown Prospectus") (as described in "Final Terms, Drawdown Prospectuses and Supplements"). In the case of a Tranche of Notes which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the relevant Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus, unless the context requires otherwise. This Base Prospectus must be read and construed together with any amendments or supplements hereto and with any information incorporated by reference herein and, in relation to any Tranche of Notes which is the subject of Final Terms, must be read and construed together with the relevant Final Terms.

No person has been authorised to give any information or to make any representation not contained in or not consistent with this Base Prospectus or any other document entered into in relation to the Programme or any information supplied by Nokia or such other information as is in the public domain and, if given or made, such information or representation should not be relied upon as having been authorised by Nokia or any Dealer.

Neither the Dealers nor any of their respective affiliates have authorised the whole or any part of this Base Prospectus and none of them makes any representation or warranty or accepts any responsibility as to the accuracy or completeness of the information contained in this Base Prospectus. Neither the delivery of this Base Prospectus or any Final Terms nor the offering, sale or delivery of any Note shall, in any circumstances, create any implication that the information contained in this Base Prospectus is true subsequent to the date hereof or the date upon which this Base Prospectus has been most recently amended or supplemented or that there has been no adverse change, or any event reasonably likely to involve any adverse change, in the prospects or financial performance or financial position of Nokia since the date thereof or, if later, the date upon which this Base Prospectus has been most recently amended or supplemented or that any other information supplied in connection with the Programme is correct at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

ESG ratings may vary amongst ESG ratings agencies as the methodologies used to determine ESG ratings may differ. The Issuer’s ESG ratings are not indicative of its current or future operating or financial performance, or any future ability to service the Notes and are only current as of the dates on which they were initially issued.
Prospective investors must determine for themselves the relevance of any such ESG ratings information contained in this Base Prospectus or elsewhere in making an investment decision. Furthermore, ESG ratings shall not be deemed to be a recommendation by the Issuer or any other person to buy, sell or hold the Notes. Currently, the providers of such ESG ratings are not subject to any regulatory or other similar oversight in respect of their determination and award of ESG ratings. For more information regarding the valuation methodologies used to determine ESG ratings, please refer to the relevant ratings agency’s website (which website does not form a part of, nor is incorporated by reference in, this Base Prospectus).

The distribution of this Base Prospectus and any Final Terms and the offering, sale and delivery of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus or any Final Terms comes are required by the Issuer and the Dealers to inform themselves about and to observe any such restrictions. In particular, no action has been taken by the Issuer or the Dealers which is intended to permit a public offering of any Notes or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. For a description of certain restrictions on offers, sales and deliveries of Notes and on the distribution of this Base Prospectus or any Final Terms and other offering material relating to the Notes, see “Subscription and Sale”. In particular, Notes have not been and will not be registered under the United States Securities Act of 1933 (as amended) (the "Securities Act") and Bearer Notes are subject to U.S. tax law requirements. Subject to certain exceptions, Notes may not be offered, sold or delivered within the United States or to U.S. persons.

Neither this Base Prospectus nor any Final Terms constitutes an offer or an invitation, or inducement to subscribe for or purchase any Notes and should not be considered as a recommendation by the Issuer, the Dealers or any of them that any recipient of this Base Prospectus or any Final Terms should subscribe for or purchase any Notes. Each recipient of this Base Prospectus or any Final Terms shall be taken to have made its own investigation and appraisal of the condition (financial or otherwise) of the Issuer.

The maximum aggregate principal amount of Notes outstanding at any one time under the Programme will not exceed EUR 5,000,000,000 (and for this purpose, any Notes denominated in another currency shall be translated into euro at the date of the agreement to issue such Notes (calculated in accordance with the provisions of the Dealer Agreement). The maximum aggregate principal amount of Notes which may be outstanding at any one time under the Programme may be increased from time to time, subject to compliance with the relevant provisions of the Dealer Agreement (as defined under "Subscription and Sale" below).

Any person making or intending to make a public offer of Notes, or seek the admission of any Notes to trading, in any Member State of the European Economic Area may only do so if this Base Prospectus has been approved by the competent authority in that Member State (or, where appropriate, approved in another Member State and notified to the competent authority in that Member State) and published in accordance with the Prospectus Regulation. Any person making or intending to make a public offer of Notes, or seek the admission of any Notes to trading in the UK may only do so if this Base Prospectus has been approved by the Financial Conduct Authority (as the competent authority in the UK) and published in accordance with the Prospectus Regulation, as it forms part of domestic law by virtue of the EUWA (the "UK Prospectus Regulation"). Save as provided above, none of the Issuer or any Dealer has authorised, nor do they authorise, the making of any public offer of Notes, or any application for admission of any Notes to trading, in circumstances in which an obligation arises for the Issuer or any Dealer to publish or supplement a prospectus for such offer.

In connection with any offering of the Notes, the Dealers are not acting for anyone other than the Issuer and will not be responsible to anyone other than the Issuer for providing the protections afforded to their clients nor for providing advice in relation to any offering of the Notes.

IMPORTANT – EEA RETAIL INVESTORS — If the Final Terms in respect of any Notes includes a legend entitled "Prohibition of Sales to EEA Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For the purposes of this provision, the expression "retail investor" means a person who is one (or more) of the following: (i), a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "MiFID II"); (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the "Insurance Distribution Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently, no key information document required by Regulation (EU) No. 1286/2014 (as amended, the "PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the EEA.
has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

IMPORTANT – UK RETAIL INVESTORS — If the Final Terms in respect of any Notes includes a legend entitled "Prohibition of Sales to UK Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the UK. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (the "EUWA"); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000, as amended ("FSMA") and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of the UK Prospectus Regulation. Consequently, no key information document required by the PRIIPs Regulation as it forms part of domestic law by virtue of the EUWA (the "UK PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MiFID II product governance / target market – The Final Terms in respect of any Notes may include a legend entitled "MiFID II product governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the Product Governance rules under EU Delegated Directive 2017/593 (the "MiFID Product Governance Rules"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

UK MiFIR product governance / target market — The Final Terms in respect of any Notes may include a legend entitled "UK MiFIR Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "UK MiFIR Product Governance Rules") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

NOTICE TO POTENTIAL INVESTORS IN THE UNITED KINGDOM — In the United Kingdom, this document is for distribution only, and is only directed at persons who (i) have professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (as amended, the "Financial Promotion Order"), (ii) are persons falling within Article 49(2)(a) to (d) ("high net worth companies, unincorporated associations etc.") of the Financial Promotion Order; or (iii) are persons to whom an invitation or inducement to engage in investment activity (within the meaning of section 21 of the Financial Services and Markets Act 2000) in connection with the issue or sale of any securities may otherwise lawfully be communicated or caused to be communicated (all such persons together being referred to as "relevant persons"). This document is directed only at relevant persons and must not be acted on or relied on by persons who are not relevant persons. Any investment or investment activity to which this document relates is available only to relevant persons and will be engaged in only with relevant persons.

NOTIFICATION UNDER SECTION 309B(1)(c) OF THE SECURITIES AND FUTURES ACT (CHAPTER 289) OF SINGAPORE (as amended or modified from time to time) (the "SFA") – Unless otherwise
stated in the Final Terms in respect of any Notes, all Notes issued or to be issued under the Programme shall be
prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

NOTICE TO INVESTORS IN CANADA - The Notes may be sold only to purchasers purchasing, or deemed
to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 Prospectus Exemptions or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 Registration Requirements, Exemptions and Ongoing Registrant Obligations. Any resale of the Notes must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws. Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this Base Prospectus (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor. Pursuant to section 3A.3 (or, in the case of securities issued or guaranteed by the government of a non-Canadian jurisdiction, section 3A.4) of National Instrument 33-105 Underwriting Conflicts ("NI 33-105"), the Dealers are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

NOTICE TO SWISS PERMITTED INVESTORS - The Notes may not be publicly offered, directly or
indirectly, in Switzerland within the meaning of the Swiss Financial Services Act ("FinSA") and no application
has or will be made to admit the Notes to trading on any trading venue (exchange or multilateral trading facility) in Switzerland. Neither this Base Prospectus nor any other offering or marketing material relating to the Notes constitutes a prospectus pursuant to the FinSA, and neither this Base Prospectus nor any other offering or marketing material relating to the Notes may be publicly distributed or otherwise made publicly available in Switzerland. No key information document according to FinSA or any equivalent document under the FinSA has been prepared in relation to the Notes, and, therefore, the Notes may not be offered or recommended to private clients within the meaning of the FinSA in Switzerland.

In connection with the issue of any Tranche of the Notes, the Dealer or Dealers (if any) named as the
Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) may over allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilisation Manager(s) (or person(s) acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws.

The Notes may not be a suitable investment for all investors

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

(i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;

(ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;

(iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor’s currency;

(iv) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets; and
(v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor’s overall investment portfolio.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent: (i) Notes are legal investments for it; (ii) Notes can be used as collateral for various types of borrowing; and (iii) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.
FORWARD-LOOKING STATEMENTS

It should be noted that Nokia and its businesses are exposed to various risks and uncertainties and certain statements herein that are not historical facts are forward-looking statements. These forward-looking statements reflect Nokia's current expectations and views of future developments and include statements regarding:

- business strategies, market expansion, growth management, and future industry trends and megatrends and our plans to address them;
- future performance of our businesses and any future distributions and dividends;
- expectations and targets regarding financial performance, results, operating expenses, cash flows, taxes, currency exchange rates, hedging, cost savings and competitiveness, as well as results of operations including targeted synergies and those related to market share, prices, net sales, income and margins;
- expectations, plans, timelines or benefits related to changes in our organisational and operational structure;
- market developments in our current and future markets and their seasonality and cyclical nature, including the communication service provider market, as well as general economic conditions, future regulatory developments and the expected timing and duration of the COVID-19 pandemic on our businesses, our supply chain, our customers' businesses and the general market and economic conditions;
- our position in the market, including product portfolio and geographical reach, and our ability to use the same to develop the relevant business or market and maintain our order pipeline over time;
- any future collaboration or business collaboration agreements or patent license agreements or arbitration awards, including income from any collaboration or partnership, agreement or award;
- timing of the development and delivery of our products and services, including our short term and longer term expectations around the deployment of 5G and our ability to capitalise on such deployment as well as use our global installed base as the platform for success in 5G, and the overall readiness of the 5G ecosystem;
- the outcome of pending and threatened litigation, arbitration, disputes, regulatory proceedings or investigations by authorities;
- restructurings, investments, capital structure optimisation efforts, divestments and our ability to achieve the financial and operational targets set in connection with any such restructurings, investments, and capital structure optimisation efforts including our 2019-2020 cost savings programme;
- future capital expenditures, temporary incremental expenditures or other research and development ("R&D") expenditures to develop or rollout new products, including 5G; and
- the sustainability and corporate responsibility contained in the sustainability and corporate responsibility section of the annual report included in the Issuer's annual accounts for the financial year ended 31 December 2020 (incorporated by reference to this Base Prospectus).

These forward-looking statements are subject to a number of risks and uncertainties, many of which are beyond our control, which could cause actual results to differ materially from such statements. These statements are based on management's best assumptions and beliefs in light of the information currently available to it and are subject to a number of risks and uncertainties, many of which are beyond our control, which could cause actual results to differ. These forward-looking statements are only predictions based upon our current expectations and views of future events and developments and are subject to risks and uncertainties that are difficult to predict because they relate to events and depend on circumstances that will occur in the future. Factors, including risks and uncertainties that could cause these differences include, but are not limited to the "Risk Factors" section of this Base Prospectus.

Other unknown or unpredictable factors or underlying assumptions subsequently proven to be incorrect could cause actual results to differ materially from those in the forward-looking statements. We do not undertake any obligation to publicly update or revise forward-looking statements, whether as a result of new information, future
events or otherwise, except to the extent legally required, as well as or as described in more detail in the risk factors specified in the "Risk Factors" section of this Base Prospectus.

OVERVIEW

This overview must be read as an introduction to this Base Prospectus and any decision to invest in the Notes should be based on a consideration of the Base Prospectus as a whole, including any information incorporated by reference.

The overview does not purport to be complete and is taken from, and is qualified in its entirety by, the remainder of this Base Prospectus and, in relation to the terms and conditions of any particular Tranche of Notes, the relevant Final Terms.

This overview constitutes a general description of the Programme for the purposes of Article 25(1) of Commission Delegated Regulation (EU) No 2019/980 (the "Delegated Regulation").

Words and expressions defined in the "Terms and Conditions of the Notes" below or elsewhere in this Base Prospectus have the same meanings in this overview.

Issuer: ............................................ Nokia Corporation, a limited liability company under the Finnish Companies Act (osakeyhtiölaki, 624/2006, as amended).

Issuer Legal Entity Identifier: ....... 743700SNFX8L4ST32255.

Risk Factors: ................................. Investing in Notes issued under the Programme involves certain risks. The principal risk factors that may affect the ability of the Issuer to fulfil its obligations under the Notes are discussed under "Risk Factors" below.

Arranger: ................................. Deutsche Bank Aktiengesellschaft.

Dealers: ................................. Citigroup Global Markets Limited, Deutsche Bank Aktiengesellschaft, Goldman Sachs International, J.P. Morgan AG and any other Dealer appointed from time to time by the Issuer either generally in respect of the Programme or in relation to a particular Tranche of Notes.

Irish Listing Agent: ............... J&E Davy.

Final Terms or Drawdown Prospectus: ................................. Notes issued under the Programme may be issued either: (i) pursuant to this Base Prospectus and associated Final Terms; or (ii) pursuant to a Drawdown Prospectus. The terms and conditions applicable to any particular Tranche of Notes will be the Conditions as completed by the relevant Final Terms or, as the case may be, the relevant Drawdown Prospectus.

Listing and Trading: .................... Application has been made for Notes issued under the Programme during the period of 12 months after the date hereof to be admitted to the Official List of Euronext Dublin and to trading on its regulated market. The Programme also permits Notes to be issued on the basis that they will be admitted to listing, trading and/or quotation by such other or further competent authorities, stock exchanges and/or quotation systems as may be agreed with the Issuer.

Clearing Systems: ...................... Euroclear and/or Clearstream, Luxembourg and/or, in relation to any Tranche of Notes, any other clearing system as may be specified in the relevant Final Terms.

Initial Programme Amount: ........ Up to EUR 5,000,000,000 (or its equivalent in other currencies) aggregate principal amount of Notes outstanding at any one time.

Issuance in Series: ................. Notes will be issued in Series. Each Series may comprise one or more Tranches issued on different issue dates. The Notes of each Series will all be subject to identical terms, except that the issue date and the amount of
the first payment of interest may be different in respect of different Tranches. The Notes of each Tranche will all be subject to identical terms in all respects save that a Tranche may comprise Notes of different denominations.

**Forms of Notes:** 
Notes may be issued in bearer or in registered form. Each Tranche of Notes will initially be in the form of either a Temporary Global Note or a Permanent Global Note, in each case as specified in the relevant Final Terms. Each Global Note which is not intended to be issued in new global note form (a "Classic Global Note" or "CGN"), as specified in the relevant Final Terms, will be deposited on or around the relevant issue date with a depository or a common depositary for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and each Global Note which is intended to be issued in new global note form (a "New Global Note" or "NGN"), as specified in the relevant Final Terms, will be deposited on or around the relevant issue date with a common safekeeper for Euroclear and/or Clearstream, Luxembourg. Each Temporary Global Note will be exchangeable for a Permanent Global Note or, if so specified in the relevant Final Terms, for Definitive Notes. If the TEFRA D Rules are specified in the relevant Final Terms as applicable, certification as to non-U.S. beneficial ownership will be a condition precedent to any exchange of an interest in a Temporary Global Note or receipt of any payment of interest in respect of a Temporary Global Note. Each Permanent Global Note will be exchangeable for Definitive Notes in accordance with its terms. Definitive Notes will, if interest-bearing, have Coupons attached and, if appropriate, a Talon for further Coupons.

Each Tranche of Registered Notes will be in the form of either Individual Note Certificates or a Global Registered Note, in each case as specified in the relevant Final Terms. Each Global Registered Note, which is not intended to be held under the new safekeeping structure (the "New Safekeeping Structure" or "NSS"), as specified in the relevant Final Terms, will be deposited on or around the relevant issue date with a depository or a common depositary for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and registered in the name of a nominee for such depositary and will be exchangeable for Individual Note Certificates in accordance with its terms. Each Global Registered Note intended to be held under the New Safekeeping Structure, as specified in the relevant Final Terms, will, on or about the relevant issue date, be registered in the name of a common safekeeper (or its nominee) for Euroclear and/or Clearstream, Luxembourg and the relevant Global Registered Note will be exchangeable for Individual Note Certificates in accordance with its terms.

**Currencies:**
Notes may be denominated in Euro, Sterling, U.S. dollars, Japanese Yen, Swiss Francs or in any other currency or currencies, subject to compliance with all applicable legal and/or regulatory and/or central bank requirements.

**Status of the Notes:**
Notes will be issued on an unsubordinated basis.

**Issue Price:**
Notes may be issued fully-paid at any price. The price and amount of Notes to be issued under the Programme will be determined by the Issuer and the relevant Dealer at the time of issue in accordance with prevailing market conditions.

**Maturities:**
Any maturity specified in the relevant Final Terms, subject, in relation to specific currencies, to compliance with all applicable legal and/or regulatory and/or central bank requirements.
Where Notes have a maturity of less than one year and either (a) the issue proceeds are received by the Issuer in the United Kingdom or (b) the activity of issuing the Notes is carried on from an establishment maintained by the Issuer in the United Kingdom, such Notes must: (i) have a minimum redemption value of £100,000 (or its equivalent in other currencies) and be issued only to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses; or (ii) be issued in other circumstances which do not constitute a contravention of section 19 of the Financial Services and Markets Act 2000 ("FSMA") by the Issuer.

Redemption:  Notes may be redeemable at the Redemption Amount specified in the relevant Final Terms.

Optional Redemption:  Notes may be redeemed before their stated maturity at the option of the Issuer as described in Condition 9(c) (Redemption and Purchase — Redemption at the option of the Issuer (Call Option)), Condition 9(d) (Redemption and Purchase — Redemption at the option of the Issuer (Make-Whole)) and/or the Noteholders as described in Condition 9(g) (Redemption and Purchase — Redemption at the option of Noteholders) to the extent (if at all) specified in the relevant Final Terms.

Tax Redemption:  Except as described in "Optional Redemption" above, early redemption will only be permitted for tax reasons as described in Condition 9(b) (Redemption and Purchase — Redemption for tax reasons).

Interest:  Notes may be interest-bearing or non-interest bearing. Interest (if any) may accrue at a fixed rate or a floating rate and the method of calculating interest may vary between the issue date and the maturity date of the relevant Series.

Denominations:  The Notes will be issued in such denominations as may be agreed between the Issuer and the relevant Dealer save that (i) the minimum denomination of each Note will be such amount as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the relevant Specified Currency, and (ii) the minimum denomination of each Note will be EUR 100,000 (or, if the Notes are denominated in a currency other than euro, the equivalent amount in such currency). See also "Maturities" above, in relation to Sterling Notes having a maturity of less than one year.

Negative Pledge:  The Notes will have the benefit of a negative pledge as described in Condition 5 (Negative Pledge).

Cross Acceleration:  The Notes will have the benefit of a cross acceleration provision as described in Condition 13 (Events of Default).

Taxation:  All payments in respect of Notes will be made free and clear of withholding taxes of the Republic of Finland, as the case may be, unless the withholding is required by law. In that event, the Issuer will (subject as provided in Condition 12 (Taxation)) pay such additional amounts as will result in the Noteholders receiving such amounts as they would have received in respect of such Notes had no such withholding been required.

Governing Law:  The Notes and any non-contractual obligations arising out of or in connection with the Notes will be governed by, and shall be construed in accordance with, English law.
Enforcement of Notes in Global Form: ............................................

In the case of Global Notes, individual investors' rights against the Issuer will be governed by a Deed of Covenant dated 27 March 2020, a copy of which will be available for inspection at the specified office of the Fiscal Agent.

Ratings: .........................................

The Issuer has been rated "BBB-" by Fitch, "BB+" by S&P and "Ba2" by Moody's. The Programme has been rated "BBB-" by Fitch, "BB+" by S&P and "Ba2" by Moody's.

Series of Notes issued under the Programme may be rated or unrated. Where a Series of Notes is rated, such rating will be disclosed in the applicable Final Terms and will not necessarily be the same as the ratings assigned to the Programme. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Selling Restrictions: ...................... For a description of certain restrictions on offers, sales and deliveries of Notes and on the distribution of offering material in the United States of America, the United Kingdom, the European Economic Area, Japan and Singapore, see "Subscription and Sale" below.
RISK FACTORS

Set forth below is a description of risk factors that could affect Nokia. The risk factors described below should not be construed as exhaustive. There may be additional risks that are unknown to us and other risks currently believed to be immaterial that could turn out to be material. Unless otherwise indicated or the context otherwise provides, references in these risk factors to “Nokia”, “we”, “us” and “our” mean Nokia’s consolidated operating segments, including Alcatel-Lucent. Certain risks or events as indicated may be more prevalent with respect to Nokia or a certain business group, business or part of the Group.

Prior to investing in the Notes, prospective investors should carefully consider risk factors associated with any investment in the Notes, the business of the Issuer and the industry in which it operates together with all other information contained in this Base Prospectus, including, in particular the risk factors described below. We believe the risks presented below, either individually or together, could adversely affect our business, sales, profitability, results of operations, financial condition, liquidity, market share, brand and reputation from time to time, which may affect our ability to fulfil our obligations under any Notes issued under the Programme.

Prospective investors should read the entire Base Prospectus and reach their own views prior to making any investment decision. Words and expressions defined in the "Terms and Conditions of the Notes" below or elsewhere in this Base Prospectus have the same meanings in this section.

Factors which are material for the purpose of assessing the risks related to our business

Risks related to our strategy and its execution

We may be unable to successfully implement our strategic plans, the new operating model, sustain or improve the operational and financial performance of our business groups, correctly identify or successfully pursue business opportunities or otherwise grow our business.

We operate in rapidly changing and innovative industries and the opportunities we pursue require significant investments in innovation in order to generate growth, profitability or other targeted benefits across our business. On 29 October 2020, we announced a new operating model that became effective on 1 January 2021 and on our Capital Markets Day on 18 March 2021, we announced our new strategy. The aim of our new operating model with four P&L responsible business groups is to better align with the needs of our customers, increase accountability, reduce complexity and improve cost-efficiency as well as to have a more rigorous approach to capital allocation and we will invest to win in those segments where we choose to compete. If we are unable to successfully implement the new operating model and achieve the goals set for it, this could have a material impact on our results of operations and financial condition, which may, in turn, affect our ability to fulfil our obligations under the Notes.

Our strategic plans, which include targeted investments in our business and pursuing new business opportunities based on identified trends and opportunities, even if successful, may not yield a return on our investment as planned or at all. There can be no assurance that we will correctly identify trends or opportunities to pursue or be able to achieve the goals or targets we have set. Furthermore, there can be no assurance that our investments will result in technologies, products or services that achieve or retain broad or timely market acceptance, answer to the expanding needs or preferences of our customers or consumers, or break-through innovations that we could otherwise utilise for value creation. As an example, while we believe that the progress of cloudification and open RAN/openness creates an opportunity for us to differentiate with our products and to serve our customers better, it may lead to entry of new competitors with different business models and, on the long-term horizon, could attempt to disaggregate the hardware from the software to build multi-vendor RAN networks. The virtualisation of core and radio networks and the convergence of IT and telecommunications may lower barriers of entry for IT and webscale companies in the traditional telecommunications industry or they may build up tight strategic partnerships with our traditional competitors or our communication service provider customers. The enhanced competition might result in increased price competition and negatively affect our margins. Virtualisation and disaggregation might also affect other parts of our portfolio and lead to changes in competitive landscape, business models and margin profile. The materialisation of these risks could adversely affect our business, financial condition, results of operations and prospects which, in turn, can affect our ability to fulfil our payment obligations under the Notes, including payment of interest or principal.

We target on a continuous basis various improvements in our operations and efficiencies through investing in R&D, entering into licensing arrangements, acquiring businesses and technologies, recruiting expert employees
and partnering with third parties or forming joint ventures. There can be no assurance that our efforts will generate the expected results or improvements in our operations or that we will achieve our intended targets or financial objectives related to such efforts. For instance, the underlying business case in terms of profits, revenue, strategic impact or otherwise justifying the creation or continuation of the arrangement may not be realised. If these risks materialise (i.e. if our efforts do not generate the expected results or improvements in our operations, if we do not achieve our intended targets or financial objectives or if business cases are not realised) our business, financial condition, results of operations and prospects may be adversely affected, which may, in turn, affect our ability to fulfil our obligations under the Notes.

We may be unable to successfully implement planned transactions or transactions may result in liabilities.

From time to time, as part of our strategy, we may consider and engage in possible transactions, such as acquisitions, divestments, mergers, joint ventures or minority investments that could complement our existing operations and enable us to grow our business or shift focus via divestitures of our existing businesses or operations. We may engage in further transactions, such as acquisitions, divestments, mergers, joint ventures or minority investments in the future. Additionally, we may make investments through certain investment funds, including NGP Capital, that invest in other companies.

The transactions that we initiate may not ultimately be completed on favourable terms or at all or provide the benefits or return on investment that we had originally anticipated. After reaching an agreement for a transaction, we may need to satisfy pre-closing conditions on acceptable terms, which may prevent us from completing the transaction or result in changes to the scope of the transaction. Furthermore, our initial assumptions may be incorrect in evaluating a transaction. Therefore, we may be exposed to unknown, larger or contingent liabilities of acquired businesses, such as those related to contractual obligations, taxes, pensions, environmental liabilities, disputes and compliance matters. Transactions may result in claims between the parties, (including, but not limited to, any indemnification or breach of contract claims), which can consume time and management attention, and the outcome of any claims related to transactions may be difficult to predict.

Additionally, there are multiple other events or conditions that can hamper or delay a transaction or impact our ability to realise value from the transaction, including:

- unanticipated delays or inability to proceed with transactions as planned, for instance, due to issues in obtaining regulatory or shareholder approvals, completing public offers or proposals, the imposition of conditions on the acquirer of a business to divest certain assets or impose other obligations due to competition laws or other regulations;

- unanticipated costs or changes in scope, for instance, due to issues with regulators or courts imposing terms on a transaction or obstacles that result in changes required in the scope of the transaction;

- the potential loss of key employees, customers and suppliers;

- unanticipated changes in business, industry or general economic conditions that affect the assumptions underlying the acquisition;

- impairments related to goodwill and other intangible assets, for instance, due to business performance after an acquisition or differences in evaluating the goodwill with respect to the acquired businesses;

- unexpected costs associated with the integration or the separation of the business as applicable;

- additional payment obligations and higher costs resulting from non-performance by divested businesses;

- exposure to contingent liabilities in connection with any regulatory compliance failures relating to divested products or any indemnity we provide to the purchaser in connection with such divestment;

- our dependence on some of the divested businesses as our suppliers in the future; and

- high transaction costs.

If we are unable to successfully implement or extract value from planned transactions, our business, financial condition, results of operations and prospects may be adversely affected, which may, in turn, affect our ability to fulfil our obligations under the Notes.
We may be unable to realise the anticipated benefits, synergies, cost savings or efficiencies from acquisitions, and we may encounter issues or inefficiencies related to our organisational and operational structure, including being unable to successfully implement our business plans.

The level of effort required for successful integration of acquired businesses or assets depends on the complexity of the acquired business or asset. There can be no assurance that we will be able to realise the intended organisational and operational benefits and potentially targeted cost savings related to our business plans in the manner or within the timeframe currently anticipated. The risks and uncertainties related to the integration include, among others, the distraction of our management’s attention from our business resulting in performance shortfalls, the disruption of our ongoing business, interference with our ability to maintain our relationships with customers, vendors, regulators and employees and inconsistencies in our services, standards, quality, product road maps, controls, procedures and policies, any of which could have a material adverse effect on our business, financial condition and results of operations and, in turn, on our ability to fulfil our obligations under the Notes, whether related to payments or otherwise.

These failures could be triggered, among others, by the following factors impacting the integration process and operations:

- adverse contractual issues with respect to various agreements with third parties, employment agreements, or pension and other post-employment benefits-related funding or liability issues;
- our failure to identify issues and liabilities at the target business or assets during the due diligence and pre-acquisition process;
- disruptions caused, for instance, by reorganisations, which may result in inefficiency within the new organisation through loss of key employees or delays in implementing our intended structural changes, among other issues;
- inability to rationalise or streamline our organisation or product lines/services or to retire legacy products and related services as a result of pre-existing customer commitments;
- loss of, or lower volume of, business from key customers, or the inability to renew agreements with existing customers or establish new customer relationships, including limitations linked to customer policies with respect to aggregate vendor share or supplier diversity policies or increased efforts from competitors aiming to capitalise on disruptions;
- conditions and burdens imposed by laws, regulators or industry standards on our business or adverse regulatory or industry developments or litigation affecting us;
- issues relating to fraud, non-compliance with applicable laws and regulations, improper accounting policies, improper internal control or other improper activities;
- challenges relating to the consolidation or ongoing integration of corporate, financial data and reporting, control and administrative functions;
- the coordination of R&D, marketing and other support functions of the combined business may fail or cause inefficiencies or other administrative burdens caused by operating the combined business; and
- our inability to eliminate the complexity of our corporate structure following the acquisition.

Additionally, the anticipated cost reductions and other benefits expected to arise from the acquisitions and integration of businesses, as well as related costs to implement such measures, are derived from our estimates, which are uncertain. The underlying assumptions are inherently uncertain and subject to a variety of significant business, economic, and competitive factors, risks and uncertainties that could cause our actual results to differ materially from those contained in the expected synergy benefits and related cost estimates. Any deviations between such estimations and our expectations could adversely affect our business, financial condition, results of operations and prospects, which may, in turn, affect our ability to fulfil our payment obligations under the Notes, including our obligation to pay interest and principal on the Notes.

As previously disclosed, we were made aware of certain practices relating to compliance practices at the former Alcatel-Lucent business that have raised concerns. We voluntarily reported the matter to the relevant regulatory
authorities and we continue to cooperate with them. We have seen no evidence that would suggest that criminal penalties would apply in this case, and we believe it is highly likely that any penalties that might apply would be limited and immaterial.

**Risks related to the general economic and financial market conditions and the industries and markets in which we operate**

We may be materially and adversely affected by general economic and financial market conditions and other developments in the economies where we operate.

As we are a company with global operations and sales in many countries around the world, our sales and profitability are dependent on general economic and financial market conditions both globally and locally. We have manufacturing facilities and suppliers located in various countries around the world that may equally be impacted by these conditions. Adverse developments in, or the general weakness of, economic conditions, such as unemployment or consumer spending, may have an adverse impact on the spending patterns of end-users. This, in turn, may affect demand for consumables, such as mobile devices, mobile subscriptions and related services which would have an adverse effect on Nokia Technologies. In our Networks and Nokia Software segments, this may also affect both the services that end-users subscribe to and the usage levels of such services, which may lead service providers to invest less in related infrastructure and services or to invest in low-margin products and services. Likewise, adverse developments in economic conditions may lead certain customer segments, such as webscale companies, Technological Extra-Large Enterprises (“TXLE”), transportation, energy and public safety, to invest less or delay spend in infrastructure and services to digitise their operations or to invest in low-margin products and services. Negative market developments affecting our customers (including our licensees) and their end-users may also be caused by other adverse conditions such as natural or man-made disasters, geopolitical disruptions, civil unrest or health crises.

General uncertainty and adverse developments in the financial markets and the general economy could have a material adverse effect on our or our partners’ or suppliers’ ability to obtain sufficient or affordable financing on satisfying terms, having in turn an adverse effect on our ability to deliver our products and services in time and with acceptable quality. Uncertain market conditions may increase the price of financing or decrease its availability. We or our suppliers could also encounter difficulties in raising funds or accessing liquidity necessary to maintain financial condition and results of operations.

If the risks described above related to general economic and financial market conditions materialise, our business, financial condition, results of operations and prospects may be adversely affected, which may, in turn, affect our ability to fulfil our obligations under the Notes.

Depending on the duration of the COVID-19 outbreak and disruptiveness of the related measures to contain the virus, the pandemic could have further adverse effect on the results of our operations and financial condition.

The impact of COVID-19 on our operations in 2020 was primarily related to temporary factory closures in the first half of the year. Although we believe that our industry is relatively resilient to the effects of COVID-19, customer demand and/or our capacity to meet customer demand could be further impacted in the future. The measures taken by the governmental authorities have adversely affected and/or may further adversely affect our employees, supply chain, product development, service delivery and other operations. Any of such events could have a material adverse effect on our results of operations and financial condition, which, in turn, may affect our ability to fulfil our payment obligations under the Notes. The impact of COVID-19 on the global economy and financial markets has also adversely affected and/or may further adversely affect the value of our financial, tax, pension and other assets. In addition, the spread of COVID-19 has caused us to modify our business practices (including employee travel, employee work locations, and cancellation of physical participation in meetings, events and conferences), and we may take further actions as may be required by government authorities or determined by us to be necessary to protect our employees.

We recognise that this pandemic has significantly increased the number of employees and suppliers working from home or remotely, which inherently raises the vulnerability of IT security environment. As a result, we have adapted our IT security training, processes and tools accordingly. There is no certainty that the measures we or the governments take will be sufficient to mitigate the risks posed by the COVID-19 virus. The continued spread of COVID-19 could cause further disruption or delays in our operations and/or the operations of our suppliers, partners, customers and/or licensees. The degree to which the COVID-19 pandemic affects Nokia’s operations, results, assets and financial condition will depend on future developments, which are highly uncertain and cannot be predicted, including, but not limited to, the duration and spread of the outbreak (including mutations into new
our ability to fulfil our payment obligations under the Notes. In addition, the investments of the service providers may adversely affect our business, financial condition, results of operations and prospects and, in turn, our ability to fulfil our payment obligations under the Notes.

We face intense competition and are dependent on development of the industries and markets in which we operate. The information technology and communications industries and related services market are cyclical and are affected by many factors, including the general economic environment, technological changes, competitor behaviour, customer consolidation, purchase and spending behaviour of service providers and vertical customers, consumers and businesses, deployments and roll-out timing. Our competition and new competition challenging the connectivity business models of our customers are driving price erosion.

The competitive environment in the markets where we operate, including the information technology and communications and related services market in numerous markets around the world, continues to be intense and is characterised by maturing industry technologies, 5G and related new technologies, equipment price erosion and aggressive price competition. For instance, we are particularly dependent on the investments made by service providers in network infrastructure and related services. The pace and size of such investments are in turn dependent on the ability of service providers to increase their subscriber numbers, reduce churn, maintain or increase their average revenue per user, and compete with business models eroding revenue from traditional voice, messaging and data transport services, as well as the financial condition of such service providers. Further, the purchasing power of our customers, particularly in developing markets, depends to a greater extent on the price development of basic commodities and currency fluctuations, which may render our products or services unaffordable. If the risks set out in this paragraph materialise (i.e. risks in connection with the competitive environment, the network infrastructure-related investments made by the service providers, the ability of such service providers to increase their users or our customers' purchasing power), our business, financial condition, results of operations and prospects may be adversely affected, which may, in turn, affect our ability to fulfil our payment obligations under the Notes.

We continue to face intense competition, including from companies based in China, that endeavour to gain market share in selected regions where Nokia has a large footprint. Despite exponential growth in mobile data traffic, most of our customer base has been facing persistent revenue erosion and is reverting to vendors to compensate for it. Competition for new customers, as well as for new infrastructure deployment, is particularly intense and focused on the favourability of price and agreement terms. We compete with companies that have large overall scale, which affords such companies more flexibility compared with us. In addition, new competition may be entering the network infrastructure and related services business through new technologies (such as virtualised RAN and O-RAN) or business models (such as products/services as-a-service models).

Service providers' cost reductions and network sharing, and industry consolidation among operators have reduced the amount of available business, resulting in further competition and pressure on pricing and profitability. Consolidation of operators may result in vendors and service providers concentrating their business in certain service providers and increasing the possibility that agreements with us are terminated or not renewed. Merger activity between our customers has in the past constricted and may continue to constrict such customers' capital expenditure. Factors such as increased competition and market pressure as well as industry consolidation could adversely affect our business, financial condition, results of operations and prospects, which may, in turn, affect our ability to fulfil our payment obligations under the Notes. In addition, the investments of the service providers in the new spectrum assets may reduce their funds available for investing in the new network infrastructure and related services. Furthermore, the level of demand by service providers and other customers that purchase our products and services can change quickly and can vary over short periods of time. In addition, a portion of our revenues is driven by the timing of completion and customer acceptances, which particularly in relation to 5G are further dependent on maturity of the whole 5G ecosystem. Significant reduction of business with us could result in the loss of benefits related to economies of scale. These uncertainties and variations in the telecommunications and vertical industries can make it difficult to accurately forecast revenues, results and cash flow and could adversely affect our business, financial condition, results of operations and prospects, which may, in turn, affect our ability to fulfil our payment obligations under the Notes.
We may be unable to respond successfully to technological challenges in the markets in which we operate.

Market developments favouring new technological solutions, such as Software Defined Networks ("SDNs"), cloud and virtualisation may result in reduced spending for the benefit of our competitors who have, or may have, a stronger position in such technologies. The technological viability of standardised, low-margin hardware products in combination with the virtualisation of functions can induce a change in purchase behaviour, resulting in favouring other vendors or in higher bargaining power versus Nokia due to more alternative vendors. Our customers may prefer best-of-breed from multiple vendors or turn to alternative vendors to maintain end-to-end services. Additionally, new competitors may enter the industry as a result of acquisitions or shifts in technology. Furthermore, some companies, including webscale companies, may drive a faster pace of innovation in telecommunication infrastructure through more collaborative approaches and open technologies across access, backhaul, core and management.

We expect to generate a significant share of our growth from new customers, including webscale companies and vertical customers in energy, transport, public sector, manufacturing and TXLEs. Each of these sectors may face adverse industry developments which may significantly impact the size of investments addressable by us and our ability to address these investments, in terms of both having the right products available and being able to attain new customers and having the right go-to-market capabilities and expertise to address the specific needs of these sectors. Furthermore, there are various incumbent and new players competing with Nokia in these customer groups we strategically target. With these types of customers, the nature of competition and the required capabilities can be significantly different from the communication service provider market, including competition based on access network, core network, cloud infrastructure, platforms, applications and devices, and related services.

If the risks described above materialise and we are unable to respond successfully to technological and competitive challenges in the markets in which we operate, our business, financial condition, results of operations and prospects may be adversely affected which, in turn, may affect our ability to fulfil our payment obligations under the Notes.

We may be adversely affected by developments with respect to customer financing or extended payment terms that we provide to our customers. Unwillingness of banks or other institutions to provide guarantees or financing to our customers or purchase our receivables could impair our capability to attract customers or to enter new markets, mitigate payment risk and to manage our liquidity.

Requests for customer financing and extended payment terms are typical for our industry and uncertainty in the financial markets may, among other things, result in increased customer financing requests.

As a strategic marketing requirement, we arrange and facilitate financing or provide extended payment terms to a number of our customers, typically supported by export credit agencies or through the sale of related deferred receivables. In certain cases, the amounts and duration of these financings and trade credits, and the associated impact on our working capital, may be significant. Furthermore, reduced availability of export credits supporting our sales could affect our ability to attract customers and enter new markets thus facing the possibility of reduced sales.

In the event that export credit agencies face future constraints on their ability or willingness to provide guarantees or financing to our customers, or there is insufficient demand from banks or other financial institutions to purchase receivables, such events could have a material adverse effect on our business and financial condition. We have agreed to extended payment terms for a number of our customers, and may continue to do so in the future. Extended payment terms may result in a material aggregate amount of trade credits. Even when the associated risk is mitigated by a diversified customer portfolio, defaults in the aggregate could have a material adverse effect on our business, financial condition, results of operations and prospects and, in turn, on our ability to fulfil our payment obligations under the Notes.

Our ability to manage our total customer financing and trade credit exposure depends on a number of factors, including capital structure, market conditions affecting our customers, the levels and terms of credit available to us and our customers, the cooperation of export credit agencies and our ability to mitigate exposure on acceptable terms. We may be unsuccessful in managing the challenges associated with the customer financing and trade credit exposure that we may face from time to time, particularly in difficult financial conditions on the market. While defaults under financings, guarantees and trade credits to our customers resulting in impairment charges and credit losses have not been significant for us in the past, these may increase in the future, in particular in markets such as India with increased risks potentially affecting our customers. Further, commercial banks may not continue to be able or willing to provide sufficient long-term financing, even if backed by export credit agency
guarantees, due to their own constraints. Additionally, certain of our competitors may have greater access to
arranging such financing, which could adversely affect our ability to compete in similar manner for business
opportunities in the markets in which we operate. If we are unable to successfully manage our customer financing
and do not meet our clients' expectations or our competitors' offer in connection with customer financing, both
our and our customer's business, financial condition, results of operations and prospects could be adversely
affected which could, in turn, affect our ability to fulfil our payment obligations under the Notes.

We have sold certain receivables to banks or other financial institutions to mitigate the payment risk and improve
our liquidity, and any significant change in our ability to continue this practice could impair our capability to
mitigate such payment risk and to manage our liquidity.

Nokia arranges bank guarantees and issues commercial guarantees in customers' favour in relation to our business.
We may not be able to collect outstanding guarantees and bonds that could limit our possibilities to issue new
 guarantees and/or bonds, which are required in customer agreements or practices. We also face risks that such
 commercial guarantees and bonds may be unfairly called.

We are dependent on a limited number of customers and large multi-year agreements. The loss of a single
customer or contract, operator consolidation, unfavourable contract terms or other issues related to a single
agreement may have a material adverse effect on our business and financial condition.

A significant proportion of the net sales and profits that we generate have historically been derived from a limited
number of customers. As consolidation among existing customers continues, it is possible that an even greater
portion of our net sales will be attributable to a smaller number of large service providers operating in multiple
markets. These developments are also likely to increase the impact on our net sales based on the outcome of
certain individual agreement tenders. This may adversely affect our business, financial condition, results of
operations and prospects and, in turn, our ability to fulfil our payment obligations under the Notes, including our
 obligation to pay interest and principal on the Notes.

Service providers are increasingly entering into network sharing arrangements, as well as joint procurement
agreements, which may reduce their investments and the number of networks available for us to service.
Furthermore, procurement organisations of certain large service providers sell consulting services to enhance the
negotiating position of small operators with their vendors. As a result of these trends and the intense competition
in the industry, we may be required to agree to increasingly less favourable terms in order to remain competitive.
Any unfavourable developments in relation to, or any change in the agreement terms applicable to, a major
customer may have a material adverse effect on our business, results of operations and financial condition which,
in turn, may affect our ability to fulfil our obligations under the Notes (including payment obligations). Also, due
to the long-term nature of the agreements, it is possible that the contract terms of the agreement may prove less
favourable to us than originally expected, for instance due to changes in costs and product portfolio decisions.
Furthermore, in particular given the bargaining power of our customers or limited legal ability to deviate from the
standard governmental contract terms, we may be exposed to onerous terms and liabilities in our customer
contracts.

During 2020, we have experienced market share loss with one large North American customer. The loss of a
single customer or contract, or other issues related to a single agreement may have a material adverse effect on
our business and financial condition. Any suspension, termination or non-performance by us under an agreement's
terms may have a material adverse effect on us, for example due to penalties for breaches, early termination or,
reduced orders or customer footprint. In addition, we may lose existing agreements, or we may be unable to renew
or gain new agreements, for instance due to customer diversity policies that limit the ability of customers to have
one network provider exceeding a certain threshold of business in a given market. If further loss of customer
contracts or contractual issues were to materialise, this may, in turn, have an adverse effect on our ability to remain competitive.

Agreements in the networks infrastructure business are typically complex and long-term in nature and over time
the contracts may turn commercially less successful than anticipated. The timing of sales and results of operations
associated with large multi-year agreements or turnkey projects may differ from expectations. For instance,
recognition of sales and related costs in network implementation projects is often linked with achievement of
customer acceptances, which may delay for reasons contributable or not contributable to us. Moreover, such
agreements often require dedication of substantial amounts of working capital and other resources, which may
adversely affect our cash flow, particularly in the early stages of an agreement's term, or may require us to continue
to sell certain products and services, or to sell in certain markets, that would otherwise be discontinued or exited,
thereby diverting resources from developing more profitable or strategically important products and services, or
focusing on more profitable or strategically important markets. Furthermore, our customer agreements may involve complex transformation of the networks as the customers deploy new technologies and the related costs and scope of required deliverables may differ from our expectations at the time we enter into such agreements. If the risks set out in this paragraph materialise, our business, financial condition, results of operations and prospects may be adversely affected which may, in turn, affect our ability to fulfil our payment obligations under the Notes, including our obligation to pay interest and principal on the Notes.

**Risks impacting our competitiveness**

We may fail to effectively and profitably invest in new competitive high-quality products, services, upgrades and technologies or bring them to market in a timely manner. We also may fail to adapt to changing business models.

Our business and the markets where we operate are characterised by rapidly evolving technologies, frequent new technological requirements, product feature introductions and evolving industry standards. The participants in the information technology, communications and related services market compete on the basis of product offerings, technical capabilities and quality in addition to price and affordability through consumer financing arrangements. As a result, our business performance depends on the timely and successful introduction of new products, services and upgrades of current products to meet the evolving requirements of customers, comply with emerging industry standards and address competing technological and product developments carried out by competitors while keeping prices and costs at competitive levels.

The R&D of new and innovative, technologically advanced products, as well as upgrades to current products and new generations of technologies, is a complex and uncertain process requiring high levels of innovation and investment, in addition to accurate anticipation of technological, regulatory and market trends. We may focus our resources on products and technologies that do not become widely accepted or ultimately prove unviable. Additionally, many of our current and planned products are highly complex and may contain defects or errors that are, for instance, detected only after deployment in telecommunications networks. Any materially adverse effect on our ability to innovate could affect our business, financial condition, results of operations and prospects and, in turn, our ability to fulfil our payment obligations under the Notes, including our obligation to pay interest and principal on the Notes. Our results of operations will depend to a significant extent on our ability to succeed in the following areas:

- maintaining and developing a competitive product portfolio and service capability that are attractive to our customers, for instance by keeping pace with technological advances in our industry and pursuing the technologies that become commercially accepted and price competitive;
- continuing to introduce new products and product upgrades successfully and on a cost-efficient and timely basis;
- developing new or enhancing existing tools for our services offerings;
- optimising the amount of customer or market specific technology, product and feature variants in our product portfolio;
- continuing to meet expectations and enhance the quality of our products and services as well as introducing products and services that have desired features and attributes, such as energy efficiency;
- maintaining and building up strategic partnerships in our value creation chain (e.g. in product creation and in project delivery); and
- leveraging our technological strengths.

Certain of our competitors have significant resources to invest in market exploration and may seek new monetisation models or drive industry development and capture value in areas where we may not currently be competitive or do not have similar resources available to us. These areas may include monetisation models linked to large amounts of consumer data, large connected communities, home or other entertainment services, alternative payment mechanisms or marketing products. We also face competition from various companies that may be able to develop technologies or products that become preferred over those developed by us or result in adverse effects on us through, for instance, developing technological innovations that make our innovations less relevant. In addition, reduced government funding and support for our R&D activities could affect our ability to
develop new technology or products and, in turn, our business, financial condition, results of operations and prospects and our ability to fulfil our payment obligations under the Notes.

We must invest effectively and profitably in new competitive products, services, upgrades or technologies (such as 5G, the Internet of Things ("IoT"), the cloud or software) and manage proactively the costs related to our portfolio of products and services (including component sourcing, manufacturing, logistics and other operations). However, we may still fail to maintain or improve our market position, competitiveness or scale, or we may fail to leverage our scale to the fullest extent and keep prices and costs at competitive levels or provide high-quality products and services.

We may encounter difficulties and challenges in the development of 5G technology and the roll-out and commercialisation of 5G services.

One of our primary operational objectives is the roll-out of our 5G networks. Our 5G-related R&D efforts as well as product roll-outs require us to devote financial and operational resources, and we expect to continue to make substantial investments in 5G and 5G-related technology. However, the 5G roll-out and commercialisation has not and may not develop in the manner or in the time periods we anticipate. The acceleration of the 5G roll-out and commercialisation requires us and our partners to accelerate the related R&D, manufacturing and supply chain efforts which have and may risk our readiness to meet the timelines of our customers. Further, competitive intensity remains high in the market as competitors seek to take share in the early stage of 5G which is creating a risk of persistent high price erosion in the industry. If domestic and global economic conditions worsen, overall spending on 5G infrastructure may be reduced or delayed, and spending in our other networks products and services might be even more rapidly reduced to preserve the customer investment in 5G, which would adversely impact demand for our products and services in these markets. If we fail to implement our 5G infrastructure in the manner or timing expected by the market, our business, financial condition, results of operations and prospects may be adversely affected which could, in turn, affect our ability to fulfil our payment obligations under the Notes, including our obligation to pay interest and principal on the Notes.

Even if the 5G infrastructure market develops in the manner or in the time periods we anticipate, if we do not have timely, competitively priced, market-accepted products available to meet our customers’ planned roll-out of 5G networks, or if we have products below expected performance in the commercial networks, we may miss significant opportunities or, in the worst case, lose already awarded business. We have faced and may face challenges with respect to the R&D roadmaps, system-on-chip ("SoC") chipset development and cost competitiveness of our 5G products and our actions and investments to accelerate those roadmaps and improve our cost competitiveness to address those challenges may prove to be insufficient. Further, any reduction in our market share in 5G compared with our installed base in 4G due to decisions to protect our profitability, inability to meet the customers’ requirements or other reasons, may have a material negative effect on our scale and profitability and, in turn, on our business, financial condition, results of operations and prospects. This could adversely affect our ability to fulfil our payment obligations under the Notes.

Our efforts aimed at managing and improving our competitiveness, financial or operational performance may not lead to targeted results, benefits, cost savings or improvements.

We are continuously targeting increased efficiency of our operations. For instance, we have recently completed our operating cost and production overheads savings programme and have announced changes to our operating model (effective as of 1 January 2021) aiming at better accountability and transparency, reduction of complexity and further improving cost-efficiency. Failure by us to determine the appropriate prioritisation of operating expenses and other costs, to identify and implement the appropriate measures to improve cost-efficiency, increase simplicity or to adjust our operating expenses and other costs on timely basis, or to maintain achieved efficiency levels, could have a material adverse effect on our business, results of operations and financial condition. We may, in the ordinary course of business, institute new plans for restructuring measures or implement various programmes aimed at improving cost savings and financial performance. Such measures may be costly, potentially disruptive to operations, and may not lead to sustainable improvements in our overall competitiveness and profitability and there can be no assurance that such measures will be met as planned in contemplated timeframes or at all. Our plans may be altered in the future, including adjusting any projected financial or other targets. The anticipated costs or the level of disruption expected from implementing such plans or restructurings may be higher than expected. Efforts to plan and implement cost-saving initiatives may divert management attention from the rest of the business and adversely affect our business. The materialisation of these risks could adversely affect our business, financial condition, operations and prospects and, in turn, our ability to fulfil our payment obligations under the Notes.
There are also several other factors that may prevent or delay a successful implementation of any cost-saving initiatives, including, among others, the following:

- need to make additional investments in other areas such as 5G and automation/digitalisation of our operations;
- changes in the general economic conditions, whether globally, nationally or in the markets in which we operate, or inaccuracy in our expectations with respect to market growth, customer demand and other trends;
- legislative constraints or unfavourable changes in legislation in the markets in which we operate may influence timing, costs and expected savings of certain initiatives contemplated;
- our ability to swap equipment of certain customers in line with our future product lines development and to secure continued business from such customers;
- our ability to align and adjust resources, systems and tools, including digitalisation and automation related to implementation of planned organisational changes;
- our cost-saving initiatives, including R&D, may negatively affect our ability to develop new or improve existing products and compete effectively in certain markets, and there is no guarantee that we will continue to be able to successfully innovate or remain technologically competitive;
- intended business plans may require us to inform or consult with employees and labour representatives, and such processes may influence the timing, costs and extent of expected savings and the feasibility of certain of the initiatives contemplated; and
- bargaining power of our suppliers may prevent us from achieving targeted procurement savings.

If we are unable to effectively manage our operating expenses and to achieve our costs savings targets, our business, financial condition, results of operations and prospects could be adversely affected which could, in turn, affect our ability to fulfil our payment obligations under the Notes, including our obligation to pay interest and principal on the Notes.

**Risks associated with intellectual property rights, technology and brand licensing**

Our patent licensing income and other intellectual property-related revenues are subject to risks and uncertainties such as our ability to maintain our existing sources of intellectual property-related revenue, establish new sources of revenue and protect our intellectual property from infringement. A proportionally significant share of the current patent licensing income is generated from the smartphone market which is rapidly changing and features a limited number of large vendors.

The continued strength of our intellectually property portfolios depends on our ability to create new relevant technologies, products and services through our R&D activities and to protect our intellectual property rights ("IPRs"). If those technologies, products and services do not become relevant, and therefore attractive to licensees, the strength of our intellectual property portfolios could be reduced, which could adversely affect our ability to use our intellectual property portfolios for revenue generation and thus, our business, financial condition, results of operations and prospects could be adversely affected. This could, in turn, affect our ability to fulfil our payment obligations under the Notes, including our obligation to pay interest and principal on the Notes.

Despite the steps that we have taken to protect our technology investments with IPRs, we cannot be certain that any rights or pending applications will be granted or that the rights granted in connection with any future patents or other IPRs will be sufficiently broad to protect our innovations and maintain the relative strength of our portfolio. Third parties may infringe our intellectual property relating to our proprietary technologies or disregard their obligation to seek necessary licenses under our patents or seek to pay less than reasonable license fees. As a result, we may be unable to continue to develop or protect our intellectual property-related revenue or establish new sources of revenue and such inability could adversely affect our business, financial condition, results of operations and prospects and, in turn, our ability to fulfil our payment obligations under the Notes.

Nokia Technologies business group's sales and profits are currently largely derived from patent licensing. Our ability to protect and monetise our intellectual property may depend on regulatory and other developments in various jurisdictions with respect to protection awarded to technology innovations or compensation trends with
respect to licensing and the actions or implementation of the regulations by administrative bodies. Any patents or other IPRs may be challenged, invalidated or circumvented, and any right granted under our patents may not provide competitive advantages for us. Our ability to protect, license or divest our patented innovations may vary by region. In the technology sector generally, certain licensees are actively avoiding license payments, while some licensors are using aggressive methods to collect license payments, with both behaviours attracting regulatory attention. Authorities in various countries have increasingly monitored patent monetisation and may aim to influence the terms on which patent licensing arrangements or patent divestments may be executed, which could compromise control over or protection of our technology and proprietary information. Such terms may be limited to a certain country or region; however, authorities could potentially seek to widen the scope and even impose global terms, potentially resulting in an adverse effect on us or limiting our ability to monetise our patent portfolios. If these risks related to IPRs protection, monetisation and regulation materialise, our business, financial condition, results of operations and prospects could be adversely affected which could, in turn, affect our ability to fulfil our payment obligations under the Notes, including our obligation to pay interest and principal on the Notes.

Patent licensing income may be adversely affected by general economic conditions or adverse market developments. Their impact is particularly relevant in the current climate, influenced heavily by COVID-19 and its effects on the world markets. For example, our patent licensing business may be adversely affected if a licensee's ability to pay is reduced or it becomes insolvent or bankrupt. Additionally, poor performance of potential or current licensees may limit a licensee's motivation to seek new or renew existing licensing arrangements with us. In certain cases, patent licensing income is dependent on the sales of the licensee, where the reduced sales of the licensee have a direct effect on the patent licensing income received by the Nokia Technologies business group. Furthermore, patent license agreements can cover both licensees' past and future sales, and the portion of the income that relates to licensees' past sales is not expected to have a recurring benefit and ongoing patent income from licensing is generally subject to various factors (for instance, sales by the licensees) that we have little or no control over, and it can vary considerably from time to time based on factors such as the terms of agreements we enter into with licensees, and there is no assurance that past levels are indicative of future levels of intellectual property-related revenue.

While we seek to renew existing license agreements and negotiate new license agreements in the industries where we have established licensing programmes, we also seek to expand the scope of our licensing activities to other industries, in particular those that implement mobile communication technologies. The players in some of these industries may not have traditionally paid intellectual property-related royalties, which may hamper the expansion of our licensing activities. Entering new segments may involve litigation, while entering highly fragmented markets or markets with high volume of licensees may affect our effectiveness and/or profitability.

We retained our patent portfolio after the sale of Devices & Services business in 2014. Following the sale of Devices & Services business, Nokia Technologies is no longer required to agree cross-licenses to cover its handset business, which has contributed to growing our licensing revenue. While this has been our practice, there can be no guarantee that this can be continued in future. Also, in the past, parts of our intellectual property development were driven by innovation from the Devices & Services business. As we no longer own this business, our future intellectual property relating to the mobile phone sector may lessen and our ability to influence industry trends and technology selections may reduce.

We also enter into business agreements separately by our business groups, which may grant certain licenses to our patents. Some of these agreements may inadvertently grant licenses to our patents with a broader scope than intended, or they may otherwise make the enforcement of our patents more difficult. If these risks related to our patent licensing activity materialise, our business, financial condition, results of operations and prospects could be adversely affected which could, in turn, affect our ability to fulfil our payment obligations under the Notes, including our obligation to pay interest and principal on the Notes.

To enforce our intellectual property rights against unlawful infringement, we may engage in legal actions, the outcomes of which are uncertain.

Intellectual property-related disputes are common in the technology industry and are often used to enforce patents and seek licensing fees. Litigation and arbitration are often used to enforce patents or other rights, or to set licensing fees. In certain cases, we have initiated litigation or arbitration proceedings to enforce our rights, for instance to enforce our patents or to establish the terms of a patent license between the parties. Due to the nature of any litigation or arbitration proceedings, there can be no assurances as to the final outcome or timing of any outcome of litigation or arbitration.
In other cases, other companies have commenced and may continue to commence actions against us seeking to establish the invalidity of our intellectual property, including our patents or to contest our licensing practices. In the event that one or more of our patents is challenged, a court may invalidate the patent or determine that the patent is not enforceable, which could have an impact on our competitive position. The outcome of court proceedings is difficult to predict and, consequently, our ability to use intellectual property for revenue generation may from time to time depend on favourable court rulings. Additionally, if any of our patents is invalidated, or if the scope of the claims in any patents is limited by a court decision, we could be prevented from using such patents as a basis for product differentiation or from licensing the invalidated or limited portion of our IPRs. Even if such a patent challenge is not successful, the related proceedings could be expensive and time-consuming, divert the attention of our management and technical experts from our business and have an adverse effect on our reputation. Any diminution in the protection of our IPRs could cause us to lose certain benefits of our R&D investments. The materialisation of the risks stated above could lead to our business, financial condition, results of operations and prospects being adversely affected which, in turn, affect our ability to fulfil our payment obligations under the Notes.

**While the primary source of Nokia Technologies business group's net sales and profits is from licensing of the Nokia patents, we are also engaged with technologies and the Nokia brand, licensing other business ventures including technology innovation and incubation. Expected net sales and profitability for these businesses may not materialise as planned or at all.**

Nokia Technologies has a strategic agreement covering branding rights and intellectual property licensing with HMD Global. Under the agreement, Nokia receives royalty payments from HMD Global for sales of Nokia-branded mobile phones and tablets, covering both brand and patent licensing. Nokia also has a small number of territorially restricted brand licensing agreements beyond mobile devices and is exploring further opportunities to license the brand in new categories. However, there can be no assurance that we will successfully reach additional new brand licensing arrangements at all or on terms that prove satisfactory to us. If we fail to do so, our business, financial condition, results of operations and prospects could be adversely affected which, in turn, could affect our ability to fulfil our payment and other obligations under the Notes. The agreement with HMD Global limits Nokia's possibilities to license the Nokia brand for certain types of devices over an agreed time and as such limiting Nokia's licensing possibilities with respect to such devices.

Additionally, licensing the Nokia brand to HMD Global and other companies could – in cases where the licensee acts inconsistently with our ethical, compliance or quality standards – negatively affect our reputation and the value of our brand, thus diminishing the business potential with respect to utilising our brand for licensing opportunities or otherwise having a negative effect on our business. Nokia has limitations in its ability to influence HMD Global or other brand licensees in their business and other operations, exposing us to potential adverse effects from the use of the Nokia brand by HMD Global or other brand licensees or other adverse developments encountered by brand licensees that become attributable to Nokia. If these risks related to the licensing of our brand to third parties materialise, our business, financial condition, results of operations and prospects could be adversely affected which, in turn, affect our ability to fulfil our payment obligations under the Notes. Following a loan conversion, Nokia currently has a minority shareholding in HMD Global.

There can be no assurances that our Nokia Technologies business group, or any other part of Nokia, will be successful in innovation and incubation or in generating net sales and profits through its business plans, for instance in patent, technology and brand licensing. The industries in which we operate, or may operate in the future, are generally fast-paced, rapidly evolving and innovative. Such industries are at different levels of maturity, and there can be no assurances that any investment we make will yield an expected return or result in the intended benefits. Additionally, we are entering into new business areas based on our technology assets and may explore new business ventures. Such business areas or plans may be adversely affected by adverse industry and market developments in the numerous diverse markets in which we operate, as well as by general economic conditions globally and regionally. As such, the investments may not be profitable or achieve the targeted rates of return. If we are unable to successfully manage our innovation and incubation activities, especially in connection with patent, technology and brand licensing, or to successfully enter new business ventures, especially technological ones, our business, financial condition, results of operations and prospects and, in turn, our ability to fulfil our obligations under the Notes, may be adversely affected. In particular, the consumer business environment is currently unstable and unpredictable due to the COVID-19 situation and poor performance by any of Nokia's patent, technology or brand licensees may impact Nokia financially.

**Our products, services and business models depend on technologies that we have developed as well as technologies that are licensed to us by certain third parties. As a result, evaluating the rights related to the technologies we use or intend to use is increasingly challenging, and we expect to continue to face claims that we**
have allegedly infringed third parties' IPRs. The use of these technologies may also result in increased licensing costs for us, restrictions on our ability to use certain technologies in our products and/or costly and time-consuming litigation.

Our products and services include increasingly complex technologies that we have developed or that have been licensed to us by certain third parties. The amount of such proprietary technologies and the number of parties claiming to own relevant IPRs continue to increase. The holders of patents and other IPRs potentially relevant to these complex technologies may be unknown to us, may have different business models, may refuse to grant licenses to their proprietary rights or may otherwise make it difficult for us to acquire a license on commercially acceptable terms. If licensing agreements are not available on commercially acceptable terms, we could be precluded from making and selling the affected products, or could face increased licensing costs. As new features are added to our products, we may need to acquire further licenses, including from new and sometimes unidentified owners of intellectual property. The lack of availability of licenses for copyrighted content, delayed negotiations or restrictive IPR license terms may have a material adverse effect on the cost or timing of content-related services and products offered by us, mobile network operators or third-party service providers. The cumulative costs of obtaining any necessary licenses are difficult to predict and may be significant and could adversely affect our business, financial condition, results of operations and prospects and, in turn, our ability to fulfill our payment obligations under the Notes.

Additionally, although we endeavour to ensure that we and the companies collaborating with us possess appropriate IPRs or licenses, we cannot fully avoid the risks of IPRs infringement by suppliers of components, processes and other various layers in our products, or by companies with which we collaborate. Similarly, we and our customers may face claims of infringement in connection with the use of our products. Any restrictions on our ability to sell our products due to expected or alleged infringements of third-party IPR and any IPR claims, regardless of merit, could result in a material loss of profits, costly litigation, the obligation to pay damages and other compensation, the diversion of the attention of our key employees, product shipment delays or the need for us to develop non-infringing technology or to enter into a licensing agreement on unfavourable commercial terms. If the risks described in this paragraph in connection with the complex technologies that we use (either developed by us or licensed to us) materialise, our business, financial condition, results of operations and prospects could be adversely affected which could, in turn, affect our ability to fulfil our payment and other obligations under the Notes.

In line with standard practice in our industry, we generally indemnify our customers for certain intellectual property-related infringement claims initiated by third parties relating to products or services purchased from us. These may include claims from non-practicing entities having no product or service business. If such claims are made directly against our customers, we may have limited opportunities to participate in the processes including in negotiations and in defences, or to evaluate the outcomes and resolutions in advance. All IPRs indemnifications can result in significant payment obligations for us that are difficult to estimate in advance. Moreover, our indemnification responsibilities typically arise whether or not the IPR assertions against our customers have merit. Any potential liabilities derived from disputes against our clients related to IPRs of products and services sold by us may have a material adverse effect on our business, financial condition, results of operations and prospects and, in turn, on our ability to fulfil our payment obligations under the Notes, including our obligation to pay interest and principal on the Notes.

Since all technology standards that we use and rely on, including mobile communication technologies such as the Universal Mobile Telecommunications System, Long-Term Evolution ("LTE") and 5G, or fixed line communication technologies, include certain IPRs, we cannot avoid risks of facing claims for infringement of such rights due to our reliance on such standards. We believe the number of third parties declaring their patents to be potentially relevant to these standards is increasing, which may increase the likelihood that we will be subject to such claims in the future. As the number of market entrants and the complexity of technologies increase, it remains likely that we will need to obtain licenses with respect to existing and new standards from other licensors. While we believe most of such IPRs declared or actually found to be essential to a particular standard carry an obligation to be licensed on fair, reasonable and non-discriminatory terms, not all intellectual property owners agree to apply such terms, nor do all owners agree on what is fair, reasonable and non-discriminatory. As a result, we have experienced costly and time-consuming litigation proceedings against us and our customers or suppliers over such issues and we may continue to experience such litigations in the future. Potential liabilities derived from such claims and litigations could adversely affect our business, financial condition, results of operations and prospects which could, in turn, affect our ability to fulfil our payment and other obligations under the Notes.
From time to time, certain existing patent licenses may expire or otherwise become subject to renegotiation. The inability to renew or finalise such arrangements or renew licenses with acceptable commercial terms may result in costly and time-consuming litigation, and any adverse result in any such litigation may lead to restrictions on our ability to sell certain products and could result in payments that could be significant. These legal proceedings may continue to be expensive and time-consuming and divert the efforts of our management and technical experts from our business and, if decided against us, could result in unfavourable judgements, restrictions on our ability to sell our products, require us to pay increased licensing fees, costly settlements, fines or other penalties and expenses. If any of these risks related to the expiration or renegotiation of patent licenses materialise, our business, financial condition, results of operations and prospects could be adversely affected which could, in turn, affect our ability to fulfil our obligations under the Notes.

Our patent license agreements may not cover all the future businesses that we may enter, our existing business may not necessarily be covered by our patent license agreements if there are changes in our corporate structure or our subsidiaries, or our newly-acquired businesses may already have patent license agreements with terms that differ from similar terms in our patent license agreements. This may result in increased costs, restrictions in the use of certain technologies or time-consuming and costly disputes whenever there are changes in our corporate structure or our subsidiaries, or whenever we enter into new business areas or acquire new businesses. If any of these risks related to a potential inadequate scope of our patent license agreements materialise, our business, financial condition, results of operations and prospects could be adversely affected which could, in turn, affect our ability to fulfil our obligations under the Notes.

We make accruals and provisions to cover our estimated total direct IPR costs for our products. The total direct IPR costs consist of actual payments to licensors, accrued expenses under existing agreements and provisions for potential liabilities. We believe our accruals and provisions are appropriate for all technologies owned by third parties. The ultimate outcome, however, may differ from the provided level, which could have an adverse impact on us and, in turn, on our ability to fulfil our payment obligations under the Notes, including our obligation to pay interest and principal on the Notes.

Risks stemming from geopolitical, legal, regulatory and compliance environment

We conduct our business globally, being subject to direct and indirect regulation and exposed to geopolitical and regulatory risks, such as unfavourable or unpredictable treatment in relation to trade sanctions, tariffs, tax matters, export controls, exchange controls, and other restrictions. Our governance, internal controls and compliance processes could fail to detect errors or wrongdoings and to prevent regulatory penalties at corporate level, in operating subsidiaries and joint ventures.

Our business and activities cover multiple jurisdictions and are subject to complex regulatory frameworks and political, regulatory and economic developments – such as political turmoil, trade barriers, tariffs, military actions, labour unrest, civil unrest, and public health and safety threats, which could have a material adverse effect on us, our supply chain, our ability to supply products and services, including network infrastructure equipment manufactured in such countries, and on our sales and results of operations, which could lead to our business, financial condition, results of operations and prospects being adversely affected, which may, in turn, affect our ability to fulfil our obligations under the Notes. Furthermore, we have observed an increase in the adoption of surveillance, data localisation, national sourcing and national hiring requirements regulations and policies. Current international trends show increased enforcement activity in areas such as national security, competition law, export control and sanctions, privacy, cybersecurity and anti-corruption. Despite our Group-wide compliance measures, including annual ethical business training and other measures, we may not be able to prevent breaches of law or governance standards within our business, subsidiaries or joint ventures. If we fail to or are unable to comply with applicable law and regulations, we could experience penalties and adverse rulings in enforcement and other proceedings, which could adversely affect our business, financial condition, results of operations and prospects, which may, in turn, affect our ability to fulfil our obligations under the Notes.

The regulatory, trade controls and sanctions legal environment can be difficult to navigate for companies with global operations, impacting our ability to grow business in specific markets or enter new markets. Export controls, tariffs or other fees or levies imposed on our products and environmental, health, product safety and data protection, security, consumer protection, money laundering and other regulations that adversely affect the export, import, technical design, pricing or costs of our products could also adversely affect our sales and results of operations. Our businesses may be impacted by new, existing or tightened export control regulations, sanctions, embargoes or other forms of economic and trade restrictions imposed on certain countries and entities.
As a global operator, Nokia conducts business subject to export controls regulations in countries subject to various sanctions. Although we strive to conduct all operations of Nokia, and in particular any operations undertaken in countries targeted by sanctions, in accordance with our comprehensive and robust Internal Compliance Programme to ensure that they are in full compliance with all applicable laws and regulations, we cannot ensure that breaches will not occur. We continuously monitor international developments and assess the appropriateness of our presence and business in various markets. As an example, the U.S.' unilateral withdrawal from the international agreement on Iran's nuclear activities has led to the reimposition of U.S. sanctions while the EU and other signatories remain fully committed to the international agreement relaxing the sanctions against Iran. The diverging EU and U.S. regulatory framework governing business activities in Iran continue to be complex and as a European company, it will require reconciling the opposing foreign policy regimes of the U.S. and the EU.

The withdrawal of the United Kingdom ("UK") from the European Union, commonly referred to as "Brexit", became effective on 31 January 2020. Upon its departure, a transition period came into effect during which EU law continued to be applicable to and in the United Kingdom. That transition period came to an end on 31 December 2020 (the "Exit Date"). The United Kingdom and the European Union agreed to a Trade and Cooperation Agreement on 24 December 2020 (the "TCA"), which is intended to be operative at the end of the transition period and to govern the United Kingdom's relationship with the European Union. The TCA was ratified by the United Kingdom on 30 December 2020 and by the relevant European Union institutions on 28 April 2021, and came into full force on 1 May 2021. While the TCA regulates a number of important areas, significant parts of the UK economy are not addressed in detail by the TCA, including in particular the services sector, which represents the largest component of the UK's economy. A number of issues have also been the subject of further bilateral negotiations since the beginning of 2021. One of the subjects of these negotiations has been a Memorandum of Understanding ("MoU") between the EU and UK covering financial services, which has now been agreed. Whilst technical agreement on the MoU was reached on 26 March 2021, the text of the MoU has not been published pending further steps to be taken by both the EU and the UK to ratify the MoU. The true long-term effects of Brexit will not materialise at least until when the various transition periods agreed in the TCA expire and are replaced by the final provisions of the TCA and the legislative and regulatory actions undertaken by the UK (including the ratification of the MoU). The UK retained the freedom to diverge from EU regulation, so regulatory divergence will likely occur. Any of the potential or actual effects of Brexit (such as delays in supply chains, lack of access to skilled human resources, increased import-export controls, added bureaucracy, additional certification rules, rules of origin requirements, inability to easily transfer data) could have a negative effect on our business, both in the UK and in the EU, as well as in other countries, depending on the terms of the agreements the UK concludes with other trading partners, which may, in turn, affect our ability to fulfil our obligations under the Notes.

The U.S. continues to maintain tariffs implemented during 2019. In response, certain foreign governments have implemented or are reportedly considering implementing additional tariffs on U.S. goods. Implementation of or uncertainties with respect to any tariffs, trade agreements or further escalation of a trade war could negatively impact the global economic markets and could affect our customers' ability to invest in capital expenditures, which may in turn result in reduced demand for our products and services. Changes in tariffs have resulted, and may continue to do so, in changes in supply and manufacturing.

If the risks described in the preceding paragraphs related to protectionist measures, trade and tariff policies and Brexit materialise, our business, financial condition, results of operations and prospects may be adversely affected, which may, in turn, affect our ability to fulfil our obligations under the Notes.

We have a significant presence in emerging markets in which the political, economic, legal and regulatory systems are less predictable than in countries with more developed institutions. These markets represent a significant portion of our total sales, and a significant portion of expected future industry growth. Most of our suppliers are located in, and our products are manufactured and assembled in, emerging markets, particularly in Asia. Our business and investments in emerging markets may also be subject to risks and uncertainties, including unfavourable or unpredictable treatment in relation to tax matters, exchange controls, restrictions affecting our ability to make cross-border transfers of funds, regulatory proceedings, unsound or unethical business practices, challenges in protecting our IPRs, nationalisation, inflation, currency fluctuations or the absence of or unexpected changes in regulation, as well as other unforeseeable operational risks. The purchasing power of our customers in developing markets depends to a greater extent on the price development of basic commodities and currency fluctuations, which may render our products or services unaffordable.

In recent years, we have witnessed political unrest in various markets in which we conduct business or in which we have operations, which in turn has adversely affected our sales, profitability or operations in these markets, and also in certain cases affected us outside these countries or regions. Any reoccurrence or escalation of such
unrest could have a further material adverse effect on our sales or results of operations. Should we decide to exit or otherwise alter our presence in a particular market, this may have an adverse effect on us through, for example, triggering investigations, tax audits by authorities, claims by contracting parties or reputational damage. The results and costs of investigations or claims against our international operations may be difficult to predict and could lead to lengthy disputes, fines or fees, indemnities or costly settlements.

If the risks described in the preceding paragraphs related to emerging markets or conflict regions materialise, our business, financial condition, results of operations and prospects may be adversely affected, which may, in turn, affect our ability to fulfil our obligations under the Notes.

Nokia is a publicly listed company and, as such, subject to various securities and accounting rules and regulations. For instance, we must monitor and assess our internal control over financial reporting and its compliance with the applicable rules and regulations. Our corporate function's, our operating subsidiaries' or our joint ventures' failure to maintain effective internal controls over financial reporting or to comply with the applicable securities and accounting rules and regulations, could adversely affect the accuracy and timeliness of our financial reporting, which could result, for instance, in loss of confidence in us or in the accuracy and completeness of our financial reports, or otherwise in the imposition of fines or other regulatory measures, which could have a material adverse effect on our business, financial condition, results of operations and prospects and, in turn, on our ability to fulfil our obligations under the Notes.

Changes in various types of regulations or in their application, or emerging new regulation (in areas such as security/privacy, digital economy or sustainable finance), applicable to current or new technologies or products, may adversely affect us.

We develop our products based on existing regulations and technical standards, our predictions for, and interpretation of, unfinished technical standards and upcoming or draft regulations or, in certain cases, in the absence of applicable regulations and standards. The regulators' lack of appropriate frameworks, legislative support and competencies necessary to address the rapid evolution of technology in our domain presents a particular challenge. On the other hand, changes in various existing regulations or in their application, applicable to current or new technologies, products or telecommunication and technology sectors in general, may adversely affect our business and results of operations and, in turn, affect our ability to fulfil our obligations under the Notes. For example, changes in regulation or standards affecting the construction of base stations and other network infrastructure could adversely affect the timing and costs of new network constructions or the expansion and commercial launch and ultimate commercial success of such networks.

The COVID-19 crisis exposed the limitations of the current mechanisms for delivering connectivity, such as market and community models. While new regulatory initiatives (including cross-jurisdictional partnerships, realistic spectrum pricing for 5G deployment and tax incentives to drive infrastructure development) are being launched, their immediate impact is difficult to predict. An increase in regulation of the digital economy and telecommunications following the European Commission's review of Europe's 5G Action Plan and Radio Spectrum Policy Programme could fail to find the right balance between political ambitions and practical considerations, which might negatively affect the further uptake of 5G services, with an adverse effect on Nokia. From a spectrum policy perspective, unrealistic spectrum pricing for 5G development, failure to enable access to additional spectrum in various bands and/or failure to achieve frequency band harmonisation could also adversely impact Nokia's customers and Nokia itself.

Changes in applicable privacy-related regulatory frameworks, such as EU General Data Protection Regulation, the upcoming EU e-Evidence and e-Privacy Regulations and similar regulations in other countries or their application may adversely affect our business, including possible changes that increase costs, limit or restrict possibilities to offer products or services, or reduce or could be seen to reduce the privacy aspects of our offerings. Further, although we monitor for such changes and implement updates to applicable policies and compliance measures, we cannot ensure that violations will not occur. For instance, countries could require governmental interception capabilities or issue regulations aimed at allowing direct governmental access to data for the products and services we offer. Such requirements or regulations could adversely affect us, if, among other things, we decide to reduce our sales to such markets or if such requirements or regulations would be limiting our ability to use components, products or software that we have developed or sourced from other companies. Our current business models and operations rely on certain centralised data processing solutions and cloud or remote delivery-based services for distribution of services and software or data storage, which have certain inherent risks, including those stemming from applicable regulatory regimes, including data protection or data localisation, that may cause limitations in implementing such business models or conducting business. An increase in the protectionist stances of governments around the world, which impact the free flow of data across borders, is already affecting our global
service delivery model. Furthermore, we observe that enforcement actions and investigations by regulatory authorities related to data security incidents and privacy violations continue to increase. Unauthorised disclosure, transfer or loss of sensitive or confidential data, whether through systems failure, employee negligence, fraud or misappropriation, by Nokia, our vendors or other parties with whom we do business (if they fail to meet the standards we impose) could subject us to significant litigation, monetary damages, regulatory enforcement actions, fines and criminal prosecution in one or more jurisdictions, which may, in turn, affect our ability to fulfil our obligations under the Notes.

We are seeing an increase in climate-related regulations and customer requirements globally and, in the longer term, such regulations or requirements could impact our energy, component and logistic costs or impact the competitiveness of our product offering. Emerging regulation coming from the European Union related to Sustainable Finance could also affect how our products are perceived by the markets. For example, the EU Taxonomy initiative aims to define rules of which economic activities are deemed to contribute to sustainability objectives. If our products did not belong to categories defined as sustainable according to the EU Taxonomy or comply with other set standards, we could potentially experience loss of sales, profit and brand value.

Our business and results of operations may be adversely affected by regulation favouring the local industry participants, as well as other measures with potentially protectionist objectives or outcomes that host governments in various countries may take. Governments and regulators, particularly after changes in political regimes, may make legal and regulatory changes or interpret and apply existing laws in ways that make our products and services less appealing to end-users or require us to incur substantial costs, change our business practices or prevent us from offering our products and services. Restrictive government policies or actions, such as limitations on visas or work permits for certain foreign workers, may make it difficult for us to move our employees into and out of these jurisdictions. Our operations and employee recruitment and retention depend on our ability to obtain the necessary visas and work permits for our employees to travel and work in the jurisdictions in which we operate. Our competitors have employed and will likely continue to employ significant resources to shape the legal and regulatory regimes in countries where we have significant operations. Achieving the right balance between security imperatives, technological development needs and political ambition is essential. The impact of changes in or uncertainties related to regulation and trade policies could adversely affect our business and results of operations even in cases where the regulations do not directly apply to us or our products and services, which may, in turn, affect our ability to fulfil our obligations under the Notes.

We operate in many jurisdictions around the world, and we are subject to various legal frameworks regulating corruption, fraud, competition, trade policies, and other risk areas. At any given time, we may be subject to inspections, investigations, claims, and government proceedings, and the extent and outcome of such proceedings may be difficult to estimate with any certainty. We may be subject to material fines, penalties and other sanctions as a result of such investigations.

Bribery and anti-corruption laws in effect in many countries prohibit companies and their intermediaries from making improper payments to public officials or private individuals for the purpose of obtaining new business maintaining existing business relationships or gaining any material advantage. Certain anti-corruption laws such as the United States Foreign Corrupt Practices Act ("FCPA") also require the maintenance of proper books and records, and the implementation of controls and procedures in order to ensure that a company's operations do not involve corrupt payments. Since we operate throughout the world, and given that some of our customers are government-owned entities and that our projects and agreements often require approvals from public officials, there is a risk that our employees, suppliers, consultants or commercial third-party representatives may take actions that are in violation of our compliance policies and of applicable anti-corruption laws.

In many parts of the world where we operate, local practices and customs may be inconsistent with our policies, including the Nokia Code of Conduct, and could violate anti-corruption laws, including the FCPA and the UK Bribery Act 2010, and applicable European Union regulations, as well as applicable economic sanctions, embargoes and applicable competition laws. Our employees, or other parties acting on our behalf, could violate policies and procedures intended to promote compliance with anti-corruption laws, economic sanctions or competition laws. Violations of these laws by our employees or other parties acting on our behalf, regardless of whether we had participated in such acts or had knowledge of such acts, could result in us or our employees becoming subject to criminal or civil enforcement actions, including fines or penalties, disgorgement of profits and suspension or disqualification of sales. Additionally, violations of law or allegations of violations may result in reputational harm and loss of business and adversely affect our brand and reputation. Detecting, investigating and resolving such situations may also result in significant costs, including the need to engage external advisers, and consume significant time, attention and resources from our management and other key employees. The results and costs of such investigations or claims may be difficult to predict and could lead to, for instance, lengthy
disputes, fines, fees or indemnities, costly settlements or the deterioration of the Nokia brand. Furthermore, even without allegations of misconduct against us, our employees or other parties acting on our behalf, we may face loss of business as a result of improper conduct or alleged improper conduct by our competitors.

We may be subject to claims, fines, investigations or assessments for conduct that we failed to or were unable to discover or identify in the course of performing our due diligence investigations of Alcatel-Lucent, including unknown or unasserted liabilities and issues relating to fraud, trade compliance, non-compliance with applicable laws and regulations, improper accounting policies or other improper activities. With the acquisition of Alcatel-Lucent, any historical issues with Alcatel-Lucent's operations may be attributed to or the responsibility of Nokia. In the past, Alcatel-Lucent has experienced both actual and alleged violations of anti-corruption laws. As a result of FCPA violations in the past, Alcatel-Lucent had to pay substantial amounts in fines, penalties and disgorgement of profits to government enforcement agencies in the United States and elsewhere.

If the risks described in the preceding paragraphs related to potential violations by our employees, suppliers, consultants or commercial third party representatives of our compliance policies or of applicable anti-corruption laws or to potential breaches of such laws by conducts and actions that we failed or were unable to identify materialise, our business, financial condition, results of operations and prospects may be adversely affected, which may, in turn, affect our ability to fulfil our obligations under the Notes.

We are subject to litigation proceedings, which may be disruptive and expensive. In addition, an unfavourable outcome of litigation, arbitrations, agreement-related disputes or product liability-related allegations against our business could have a material adverse effect on us.

We are a party to lawsuits, arbitrations, agreement-related disputes and product liability-related allegations in the normal course of our business. Litigation, arbitration or agreement-related disputes can be expensive, lengthy and disruptive to normal business operations and divert the efforts of our management. Moreover, the outcomes of complex legal proceedings or agreement-related disputes are difficult to predict. An unfavourable resolution of a particular lawsuit, arbitration or agreement-related dispute could have a material adverse effect on us. The investment or acquisition decisions we make may subject us to litigation arising from minority shareholders' actions and investor dissatisfaction with the activities of our business. Shareholder disputes, if resolved against us, could have a material adverse effect on us.

We record provisions for pending claims when we determine that an unfavourable outcome is likely and the loss can reasonably be estimated. Although we believe our provisions for pending claims are appropriate, due to the inherent uncertain nature of legal proceedings, the ultimate outcome or actual cost of settlement may materially differ from estimates. We believe our provisions for pending claims are appropriate.

Although our products are designed to meet all relevant safety standards and other recommendations and regulatory requirements globally, we cannot guarantee we will not become subject to product liability claims or be held liable for such claims, which could have a material adverse effect on us. We have been involved in several lawsuits alleging adverse health effects associated with our products, including those caused by electromagnetic fields, and the outcome of such procedures is difficult to predict, including potentially significant fines or settlements. Even a perceived risk of adverse health effects of mobile devices or base stations could have a material adverse effect on us through a reduction in the demand for mobile devices, for instance, through a decreased demand for mobile networks or increased difficulty in obtaining sites for base stations.

If the risks described in the preceding paragraphs related to litigation proceedings and disputes materialise (including the costs and business disruption arising from such proceedings, unfavourable rulings, incorrect recording of provisions or reputational harm, among others), our business, financial condition and cash flows may be adversely affected, which may, in turn, affect our ability to fulfil our obligations under the Notes.

For a more detailed discussion of litigation to which we are a party, refer to Note 30, Commitments, contingencies and legal matters, of our audited consolidated financial statements incorporated by reference into this Base Prospectus.

Risks related to management and operations

We may face problems or disruptions in our or our partners' manufacturing, service creation, delivery, logistics or supply chain. Such challenges include securing adequate volumes to meet demand, adapting supply, defects in products or related software or services and achieving required efficiencies and flexibility. Our supplier or suppliers/partners may fail to meet product quality, health, safety or security requirements or comply with other
regulations or local laws, such as environmental or labor laws. Additionally, adverse events, such as geopolitical disruptions, natural or man-made disasters, civil unrest or health crises, may have a profound impact on our service delivery or production sites or the production sites of our suppliers/partners, which are geographically concentrated.

We, or third parties that we outsource manufacturing/services to, may experience difficulties in adapting supply to meet the changing demand for our products and services, ramping up and down production, adjusting network implementation capabilities as needed on a timely basis, maintaining an optimal inventory level, adopting new manufacturing processes, finding the most timely way to develop the best technical solutions for new products, managing the increasingly complex manufacturing process, service creation and delivery process or achieving required efficiencies and flexibility. In addition, these operations are exposed to various risks and potential liabilities, including those related to geopolitics, compliance with laws and regulations, exposure to environmental liabilities or other claims.

Our manufacturing operations depend on obtaining sufficient quantities of fully functional products, components, sub-assemblies, software and services on a timely basis. Our principal supply requirements for our products are for electronic components, mechanical components and software, which all have a wide range of applications in our products. In certain cases, a particular component or service may be available only from a limited number of suppliers or from a single supplier in the supply chain. Suppliers may from time to time extend lead times, limit supplies, change their partner preferences, increase prices, provide poor quality supplies or be unable to adapt to changes in demand due to capacity constraints or other factors, which could adversely affect our ability to deliver our products and services on a timely basis. If we fail to properly anticipate customer demand, an over-supply or under-supply of components and production or services delivery capacity could occur. In many cases, some of our competitors utilise the same contract manufacturers, component suppliers and service vendors. If they have purchased capacity or components ahead of us, or if there is significant consolidation in the relevant supplier base, this could prevent us from acquiring the required components or services, which could limit our ability to supply our customers or increase our costs. If we are unable to effectively manage our supply and demand chain and the risks described in this paragraph materialise, our business, financial condition, results of operations and prospects could be adversely affected which could, in turn, affect our ability to fulfil our payment obligations under the Notes, including our obligation to pay interest and principal on the Notes.

A large proportion of Nokia manufacturing and field installation activities are carried out by third-party suppliers. These vary in size and often engage a number of tiers of suppliers, which limits Nokia's direct control. Our suppliers or a supplier may fail to meet our supplier requirements, such as our and our customers' product quality, safety, security and other standards. Certain suppliers may not comply with local laws, including, among others, local labour law, health and safety or environmental requirements. Consequently, some of our products or the manner in which services are delivered may be unacceptable to us or to our customers. This can in turn lead to exposure in the form of litigation, product recalls or brand damage through association, which may have a material adverse effect on our business, financial condition, results of operations and prospects and, in turn, on our ability to fulfil our obligations under the Notes.

Our products are highly complex and defects in their design, manufacture and associated hardware, software and content have occurred in the past and may continue to occur in the future. Defects and other quality issues may result from, among other things, failure in our own product manufacturing and service creation and delivery, as well as failure of our suppliers/partners to comply with our requirements, or failures in products and services created jointly with business partners or other third parties where the development and manufacturing process is not fully within our control. If the risks related to our suppliers which are described in this paragraph materialise, our business, financial condition, results of operations and prospects could be adversely affected which could, in turn, affect our ability to fulfil our payment obligations under the Notes.

Quality issues may cause, for instance, delays in deliveries, loss of intellectual property, liabilities for network outages, court fees and fines due to breaches of significantly increasing regulatory privacy requirements and related negative publicity, and additional repair, product replacement or warranty costs to us, and harm our reputation and our ability to sustain or obtain business with our current and potential customers. With respect to our services, quality issues may relate to the challenges of having the services fully operational at the time they are made available to our customers and maintaining them on an ongoing basis. We may also be subject to damages due to product liability claims arising from defective products and components. We make provisions to cover our estimated warranty costs for our products and pending liability claims. We believe our provisions are appropriate, although the ultimate outcome may materially differ from the provisions that are provided for, which could have a material adverse effect on us. If the risks described above in connection with quality issues and damages related to our products and services materialise, our business, financial condition, results of operations
and prospects could be adversely affected which could, in turn, affect our ability to fulfil our payment obligations under the Notes.

We may be subjected to negative publicity with respect to the activities that we manage or that are managed by third parties for us. For instance, we may experience challenges caused by third parties, or other external difficulties in connection with our efforts to modify our operations to improve the efficiency and flexibility of our manufacturing, service creation and delivery, as well as our logistics, including, but not limited to, strikes, purchasing boycotts, public harm to our brand and claims for compensation resulting from our decisions on how to place and how to utilise our manufacturing facilities. Such difficulties may result from, among other things, delays in adjusting production at our facilities, delays in expanding production capacity, failures in our manufacturing, service creation and delivery, as well as logistics processes, failures in the activities we have outsourced, and interruptions in the data communication systems that run our operations. Any of these events could delay our successful and timely delivery of products that meet our and our customers’ quality, safety, security and other requirements, cause delivery of insufficient or excess volumes compared with our own estimates or customer requirements, or otherwise have a material adverse effect on our sales and results of operations or our reputation and brand value, which could in turn affect our ability to fulfil our payment obligations under the Notes, including our obligation to pay interest and principal on the Notes.

Many of our production sites or the production sites of our suppliers/partners are geographically concentrated, with a majority of our suppliers/partners based in Asia. We rely on efficient logistic chain elements, such as regional distribution hubs or transport chain elements (main ports, streets, and airways). In the event that any of these geographic areas are affected by any adverse conditions, such as severe impacts of climate change or other environmental events, natural or man-made disasters, geopolitical disruptions, civil unrest or health crises (such as the COVID-19 pandemic) that disrupt production or deliveries from our suppliers/partners, our ability to deliver our products on a timely basis could be adversely affected. In a similar manner, these adverse conditions may also cause disruption to our service creation and delivery, which, in either case, may have a material adverse effect on our business and results of operations and, in turn, on our ability to fulfil our obligations under the Notes.

Performance failures of our partners, as well as failures to agree to partnering arrangements with third parties could adversely affect us.

If any of the companies we partner and collaborate with were to fail to perform as expected, or if we fail to achieve the collaboration or partnering arrangements needed to succeed, we may be unable to bring our products, services or technologies to market successfully or in a timely manner. This could adversely affect our business, financial condition, results of operations and prospects and, in turn, our ability to fulfil our payment obligations under the Notes. We are increasingly collaborating and partnering with third parties to develop technologies, products and services, as well as seeking new revenue streams through partnering arrangements. We also depend on third-party partners in our efforts to monetise our brands, including the Nokia and Nokia Bell Labs brands and technologies, and we have outsourced various functions to third parties and are relying on them to provide certain services to us. These arrangements involve the commitment of certain resources, including technology, R&D, services and employees. Although the objective of the collaborative and partnering arrangements is a mutually beneficial outcome for each party, our ability to introduce and provide products and services that are commercially viable and meet our, our customers’ and consumers’ quality, safety, security and other standards in a timely manner could be hampered from performance or other failures. For instance, if a partner acts inconsistently with our ethical, sustainability, compliance, brand, or quality standards, this can negatively affect our reputation, the value of our brand, and the business outcome of our partnerships, and globally our business, financial condition, results of operations and prospects. This could, in turn, adversely affect our ability to fulfil our payment obligations under the Notes.

In many areas, including IT, finance and human resources-related arrangements, a failure to maintain an efficient relationship with the selected partner may lead to ongoing operational problems or even to severe business disruptions, and the availability of the processes and services upon which we rely may be interrupted. Performance problems may result in missed reporting deadlines, internal controls challenges, financial losses, missed business opportunities and reputational harm. In addition, as management’s focus shifts from a direct to an indirect operational control in these areas, there is a risk that without active management and monitoring of the relationship, the services provided may be below appropriate quality standards. Partners may not meet agreed service levels, in which case, depending on the impacted service, our contractual remedies may not fully cure all of the damages we may suffer. This is particularly true for any deficiencies that would impact the reporting requirements applicable to us as a company listed on multiple stock exchanges. If the risks described in this paragraph in connection with underperformance or deficient performance by our third-party suppliers materialise, our business, financial condition, results of operations and prospects could be adversely affected which could, in
In order to implement outsourcing arrangements, we may be required to implement changes in our business practices and processes, for instance, to capture economies of scale and operational efficiencies, and to reflect a different way of doing business. Consequently, business processes that were customised for individual business groups or for us generally may be converted to a more standardised format. During a transition to outsourcing, our employees may need to train the partner's staff or be trained in the partners' systems, potentially resulting in the distraction of our employees. Adjustments to staff size and transfer of employees to the partner's companies could have an adverse effect on us, for instance, through impacting the morale of our employees and raising complex labour law issues and resulting in the loss of key personnel. Additionally, partnering and outsourcing arrangements can create a dependency on the outsourcing company, causing issues in our ability to learn from day-to-day responsibilities, gain hands-on experience, adapt to changing business needs and properly transfer the specific know-how to the new outsourcing partners. Concerns could equally arise from giving third parties access to confidential data, strategic technology applications and books and records. There is also a risk that we may not be able to determine whether controls have been effectively implemented, and whether the partner company's performance monitoring reports are accurate. The materialisation of the risks set out in this paragraph in connection with our outsourcing arrangements could entail a material adverse effect on our business, financial condition, results of operations and prospects which could, in turn, affect our ability to fulfil our payment obligations under the Notes.

Inefficiencies, breaches, malfunctions or disruptions of information technology systems and processes could have a material adverse effect on our business and results of operations. As our business operations, including those we have outsourced, rely on complex IT systems, networks and related services, our reliance on the precautions taken by external companies to ensure the reliability of our and their IT systems, networks and related services is increasing. Consequently, certain disruptions in IT systems and networks affecting our external providers could also have a material adverse effect on our business.

Our operations rely on the efficient and uninterrupted operation of complex and centralised IT systems, networks and processes, which are integrated with those of third parties. All IT systems, networks and processes are potentially vulnerable to damage, breaches, malfunction or interruption from a variety of sources. We are, to a significant extent, relying on third parties for the provision of IT services. We may experience disruptions if our partners do not deliver as expected or if we are unable to successfully manage systems and processes together with our business partners. The ongoing migration to cloud-based architectures and network function virtualisation has introduced further complexity and associated risk.

We are constantly seeking to improve the quality and security of our IT systems. For instance, we have introduced new significant IT solutions in recent years. While we have outsourced certain functions, we have also increased our dependence on the reliability of external providers as well as on the security of communication with them. We will often need to use new service providers and may, due to technical developments or choices regarding technology, increase our reliance on certain new technologies, such as cloud or remote delivery on demand-based services and certain other services that are used over the internet rather than using a traditional licensing model. Switching to new service providers and introducing new technologies is inherently risky and may expose us to an increased risk of disruptions in our operations, for instance due to network inefficiency, a cybersecurity or a compliance breach, malfunctions, failure in disaster recovery/IT service continuity or other disruptions resulting from IT systems and processes.

If the abovementioned risks related to our reliance on IT systems, networks and processes and the potential disruptions in IT systems and networks affecting our external providers materialise, our business, financial condition, results of operations and prospects could be adversely affected which could, in turn, affect our ability to fulfil our payment obligations under the Notes.

We pursue various measures in order to manage our risks related to system and network malfunctions and disruptions, including the use of multiple suppliers and their strong technical and contractual engagements in IT security. However, despite precautions taken by us, any malfunction or disruption of our current or future systems or networks, such as an outage in a telecommunications network used by any of our IT systems, or a breach of our cybersecurity, such as an attack, malware, ransomware or other event that leads to an unanticipated interruption or malfunction of our IT systems, processes, networks or data leakages, could have a material adverse effect on our business, results of operations and brand value. Additionally, we may fail to successfully secure our IT. A disruption of services relying on our IT, for instance, could cause significant discontent among users resulting in claims, contractual penalties or deterioration of our brand value. Further, while we are increasing our
investments in digitalising our operations and transforming our IT, the legacy IT systems may be more vulnerable to malfunction, disruptions or security breaches than the new IT systems replacing them. If the risks described in this paragraph materialise, our business, financial condition, results of operations and prospects could be adversely affected which could, in turn, affect our ability to fulfil our payment obligations under the Notes, including our obligation to pay interest and principal on the Notes.

We are exposed to risks related to information security. Our business model relies on solutions for distribution of services and software or data storage, which entail inherent risks relating not only to applicable regulatory regimes, but also to cybersecurity breaches and other unauthorised access to network data or other potential security risks that may adversely affect our business and/or compromise personal data.

Our business and operations rely on confidentiality of proprietary information as well as sensitive information, for instance related to our employees, consumers and our customers. Our business models rely on certain centralised data processing solutions and cloud or remote delivery-based services for distribution of services and software or data storage, accessible by our partners or subcontractors according to the roles and responsibilities defined.

We or our products and online services, marketing and developer sites may be subject to cybersecurity breaches, including hacking, ransomware, viruses, worms and other malicious software, unauthorised modifications, or illegal activities that may cause potential security risks and other harm to us, our customers or consumers and other end-users of our products and services. It is rapidly evolving, the techniques used to obtain unauthorised access or sabotage systems change frequently and the parties behind cyber-attacks and other industrial espionage are believed to be sophisticated and have extensive resources, and it is not commercially or technically feasible to mitigate all known vulnerabilities in a timely manner or to eliminate all risk of cyber-attacks and data breaches. Further, while we are increasing our investments in digitalising our operations and transforming our IT, the legacy IT systems may be more vulnerable to malfunction, disruptions or security breaches than the new IT systems replacing them. Additionally, we contract with multiple third parties in various jurisdictions who collect and use certain data on our behalf. Although we have processes in place designed to ensure appropriate collection, handling and use of such data, third parties may use the data inappropriately or breach laws and agreements in collecting, handling or using or leaking such data. This could lead to lengthy legal proceedings or fines imposed on us, as well as adverse effects to our reputation and brand value. Additionally, cyber-attacks can be difficult to prevent, detect or contain. We cannot rule out the possibility that there may have been cyber-attacks that have been successful and/or evaded our detection. We continue to invest in risk mitigating actions; however, there can be no assurance that such investments and actions will prevent or detect future cyber-attacks. If the risks described in this paragraph related to IT security materialise, our business, financial condition, results of operations and prospects could be adversely affected which could, in turn, affect our ability to fulfil our payment obligations under the Notes.

In connection with providing products and services to our customers and consumers, certain personal and consumer data are collected, stored and processed through us, either by us or by our business partners or subcontractors in various jurisdictions. We have outsourced a significant portion of our IT operations, as well as the network and information systems that we sell to third parties or for whose security and reliability we may otherwise be accountable. Loss, improper disclosure or processing or leakage of any personal or consumer data collected by us or which is available to our partners or subcontractors, made available to us or stored in or through our products, could have a material adverse effect on us and harm our reputation and brand. This could adversely affect our business, financial condition, results of operations and prospects which could, in turn, affect our ability to fulfil our payment obligations under the Notes. Additionally, governmental authorities may use our networks products to access the personal data of individuals without our involvement; for example, through the so-called lawful intercept capabilities of network infrastructure, impairing our reputation.

Our business is also vulnerable to theft, fraud or other forms of deception, sabotage and intentional acts of vandalism by third parties and employees. Unauthorised access to or modification, misappropriation or loss of our intellectual property and confidential information, including personal data, could result in litigation and potential liability to customers, suppliers and other third parties, harm our competitive position, reduce the value of our investment in R&D and other strategic initiatives or damage our brand and reputation. Additionally, the cost and operational consequences of implementing further information system protection measures, especially if prescribed by national authorities, could be significant. We may not be successful in implementing such measures in due time, which could cause business disruptions and be more expensive, time-consuming and resource-intensive. All of the above could adversely affect our business, financial condition, results of operations and prospects which could, in turn, affect our ability to fulfil our payment obligations under the Notes.

27
We engage in the installation and maintenance of undersea telecommunications cable networks. During this activity, we may cause damage to existing undersea infrastructure, for which we may ultimately be held responsible.

We supply, install and maintain submarine optical fibre cable networks linking mainland to islands, island to island or several points along a coast. Our activities also include the provision of optical fibre infrastructure to oil and gas platforms and other offshore installations. Expert personnel, specialist equipment and an independently certified management system are integral to our management of risk throughout the entire planning and execution phases of such activities. We perform surveys, follow rigorous permit processes and use third-party cartographic databases maintained by recognised hydrographic institutes. However, there is a risk that previously-laid infrastructure, such as third-party fibre optic cables, electrical power lines or hydrocarbon pipelines, may go undetected despite such precautions, and be damaged during the process of laying or maintaining the telecommunications cables. Such an event could potentially cause temporary business interruption to third parties operating in the same area, environmental incidents, safety accidents, unwanted media or regulatory attention, loss of reputation, litigation, repair costs or compensation payments for the affected parties. All of this could adversely affect our business, financial condition, results of operations and prospects which could, in turn, affect our ability to fulfil our payment obligations under the Notes, including our obligation to pay interest and principal on the Notes. While we have contractual limitations in place and maintain insurance coverage to limit our exposure, these protections may be insufficient to cover such exposure entirely.

We may be unable to retain, motivate, develop and recruit appropriately skilled employees or may fail in workforce balancing. Employees may face change fatigue, reduction in motivation and energy as our efforts to evolve our business and improve efficiency continue. Increase in the share of remote working was sharp and rapid due to COVID-19 pandemic, allowing little time to adapt the respective health and safety practices, processes and policies.

Our success is dependent in part on our ability to retain, motivate, develop and recruit appropriately skilled employees. The market for skilled employees and leaders in our business is extremely competitive. We continuously work on developing a corporate culture that is motivational, based on equal opportunities and encourages creativity and continuous learning to meet the challenges.

We have encountered, and may in the future encounter, shortages of appropriately skilled employees or lose key employees or senior management, which may hamper our ability to implement our strategies and may have a material adverse effect on us. Changes in our strategy in order to respond to our business targets and endeavours and related uncertainty have caused and may in the future cause disruption, dissatisfaction and fatigue among employees, as our efforts to continue to evolve our business, and maximise operational efficiency continue. As a result, employee motivation, energy, focus, morale and productivity may be reduced, causing inefficiencies and other problems across the organisation resulting in the loss of key employees, difficulties in recruiting employees and increased costs in resolving and addressing such matters. The loss of key employees could result in resource gaps, some of which may only be noticed after a certain period of time or which negatively impact our relationship with customers, vendors or other business partners. If the risks set out in this paragraph materialise, our business, financial condition, results of operations and prospects may be adversely affected, which may, in turn, affect our ability to fulfil our payment obligations under the Notes.

We have acquired, and may from time to time, acquire businesses or complete other transactions where retaining key employees may be crucial to obtain the intended benefits of such transactions. There can be no assurances that we will be able to implement measures successfully to retain or hire the required employees. We believe this will require significant time, attention and resources from our senior management and other key employees within our organisation and may result in increased costs.

We may fail in our efforts to rebalance our workforce as planned and may result in larger than expected costs, or we may not be able to complete such efforts, for instance, due to legal restrictions, resulting in a non-optimal workforce that could hinder our ability to reach targeted cost savings. Relationships with employee representatives are generally managed at the site level in accordance with country-specific legislation and most collective bargaining agreements have been in place for several years. Our inability to negotiate successfully with employee representatives or failures in our relationships with such representatives could result in strikes by the employees, increased operating costs as a result of higher wages or benefits paid to employees as the result of such strike or other industrial action or inability to implement changes to our organisation and operational structure in the planned timeframe or expense level, or at all. If our employees were to engage in a strike or other work stoppage, we could experience a significant disruption in our day-to-day operations and higher ongoing labour costs. This
could adversely affect our business, financial condition, results of operations and prospects which could, in turn, affect our ability to fulfil our payment obligations under the Notes.

We continue to have exposure to the health risks of COVID-19 pandemic and to the control and mitigation measures deployed by governments to reduce the spread of the virus. We were able to pivot to remote working very effectively in the early days of the pandemic; however, these changes were required in short timeframes that allowed little time to adapt. We believe that this pandemic will permanently increase share of remote working, and we may be exposed to a larger extent than before to impacts related to remote work and arranging the home office, such as decreased creativity or productivity of employees, supervising working hours, challenges in identifying, assessing and supporting employees in stress or poor mental health, inability to help employees to work safely in their home office environment (e.g. furnishing, equipment, lighting, ventilation) or developing and supervising the execution of related internal policies leading to potential health issues and litigation. If the risks described in this paragraph materialise and/or we are unable to support and motivate our employees during this transition to remote working, our business, financial condition, results of operations and prospects could be adversely affected which could, in turn, affect our ability to fulfil our payment obligations under the Notes, including our obligation to pay interest and principal on the Notes.

We are involved in joint ventures and are exposed to risks inherent to companies under joint management.

We have a number of joint ventures in various parts of the world, including those where Nokia is the minority partner or where Nokia does not have direct management control. The agreements related to our joint ventures may require unanimous consent or the affirmative vote of a qualified majority of the shareholders to take certain actions, thereby possibly slowing down the decision-making process or impairing our ability to implement our key policies and practices, such as our compliance processes and culture in a comprehensive or timely manner. In addition, joint venture companies involve inherent risks such as those associated with having multiple owners and decision makers and a complex corporate governance structure, including lack of transparency and consequent risks of compliance breaches or other similar issues, or issues in dissolving such entities or divesting their shareholdings, assets and liabilities, and also may involve negative public perceptions caused by the joint venture partner that are adverse to us. If any of the foregoing risks related to joint ventures and partnerships materialise, our business, financial condition, results of operations and prospects could be adversely affected which could, in turn, affect our ability to fulfil our payment obligations under the Notes, including our obligation to pay interest and principal on the Notes.

Tax-related uncertainties

We have operations in many countries with different tax laws and rules, which may result in complex tax issues and disputes.

Taxation or other fees collected by governments or governmental agencies may result in unexpected payment obligations, and in response to prevailing difficult economic conditions in the public sector, coupled with already enacted and proposed fundamental changes in international tax regulations, there may be an increased aggressiveness in collecting such fees or taxes. We may be obliged to pay additional taxes for past periods as a result of changes in law, or changes of tax authority practice or interpretation (possibly with retroactive effect in certain cases), or inaccurate interpretations of tax laws by us resulting potentially in a material adverse effect on our cash flow and financial position. The taxes for which we make provisions, such as income taxes, indirect taxes and social taxes, could increase significantly in the future as a result of changes in applicable tax laws or global guidance in the area of transfer pricing in the countries in which we operate. There may also be unforeseen tax expenses that turn out to have an unfavourable impact on us. As a result, and given the inherently unpredictable nature of taxation, our tax rate may change from its current level and our cash flows regarding taxes may not be stable.
Our business, investments and activities cover multiple jurisdictions and are subject to complex tax laws and rules as well as diverse tax authority practices and interpretations, including any changes (possibly unfavourable or unpredictable or with retroactive effect in certain cases) in the aforesaid. Despite our governance and compliance procedures, there might be unintended consequences from changes in interpretation of complex tax regulations or retroactive implications in tax reforms to our business, subsidiaries and joint ventures. As a company with global operations we are subject to tax investigations in various jurisdictions, and such proceedings can be lengthy, involve actions that can hinder local operations and affect unrelated parts of our business, and the outcome of such proceedings is difficult to predict. While we have made provisions for certain tax issues, the provisions we have made may not be adequate to cover such increases.

Changes in tax-related laws or in their interpretation, retroactive effect of such changes, changes in the relevant tax authorities practice, increased tax collection practices or unfavourable outcomes of tax investigations may adversely affect our business, financial condition, results of operations and prospects, which may, in turn, affect our ability to fulfil our obligations under the Notes.

We may face adverse tax consequences due to our past acquisitions and divestments, including, but not limited to, stamp duties, land transfer taxes, franchise taxes and other levies and in connection with any indemnity for tax liabilities we have provided in connection with such divestments. Additionally, there may be other potential tax liabilities of which we are not currently aware but which may result in significant tax consequences now or in the future.

In the context of our sale of Devices & Services business to Microsoft, we are required to indemnify Microsoft for certain tax liabilities, including (i) tax liabilities of the Nokia entities acquired by Microsoft in connection with the closing of the sale of Devices & Services business, (ii) tax liabilities associated with the assets acquired by Microsoft and attributable to tax periods ending on or prior to the closing date of the sale of Devices & Services business, and (iii) tax liabilities relating to the pre-closing portion of any taxable period that includes the closing date of the sale of Devices & Services business.

Adverse tax consequences or unknown tax liabilities derived from past acquisitions and divestments may adversely affect our financial condition or cash flows, which may, in turn, affect our ability to fulfil our obligations under the Notes.

Our actual or anticipated performance, among other factors, could reduce our ability to utilise our tax attributes and deferred tax assets.

Deferred tax assets recognised on tax losses, unused tax credits and tax-deductible temporary differences are dependent on our ability to offset such items against future taxable income within the relevant tax jurisdiction. Such deferred tax assets are also based on our assumptions on future taxable earnings and these may not be realised as expected and could be adversely impacted by the COVID-19 crisis, which may cause the deferred tax assets to be materially reduced. In the fourth quarter of 2020, Nokia derecognised EUR 2.9 billion deferred tax assets related to Finland. There can be no assurances that reductions in deferred tax assets will not occur in the future. Any such reduction could have a material adverse effect on our business, financial condition, results of operations and prospects which could, in turn, affect our ability to fulfil our payment obligations under the Notes. Additionally, our earnings have been unfavourably affected in the past, and may continue to be in the future, in the event that no tax benefits are recognised for certain deferred tax items.

Potential changes in re-allocation of taxing rights and other fundamental international tax principles, in particular related to digital business operations, could adversely impact our business, operating results and overall tax burden. These changes could also lead to overlapping tax systems and re-evaluation of our global tax operating model, which could adversely impact our overall tax burden.

Financial risks

We may not have access to sources of funding on favourable terms, or at all.

Our business requires a significant amount of cash and we continue to invest in our R&D capabilities, particularly in the 5G roll-out. We rely on multiple sources of funding for short-term and long-term capital and aim to minimise the liquidity risk by maintaining a sufficient cash position and having committed credit lines in place. However, there can be no assurances that we will be able to generate sufficient amounts of capital or to maintain an efficient capital structure from time to time.
We also may not be able to have access to additional sources of funds that we may need from time to time with reasonable terms, or at all. If we cannot access capital or sell receivables on a commercially viable basis, our business, financial condition and cash flow could materially suffer which, in turn, could adversely affect our ability to fulfil our payment obligations under the Notes, including our obligation to pay interest and principal on the Notes.

We may not be able to re-establish investment grade rating or maintain our credit ratings.

Moody’s, S&P, Fitch and other credit rating agencies have assigned credit ratings to us and we have set a goal of re-establishing investment grade credit ratings. There can be no assurances that we will be able to achieve investment grade credit ratings.

In the event our credit rating is downgraded, it could have a material adverse effect, for instance, on our cost of funds and related margins, our business and results of operations, financial condition, liquidity, or access to capital markets which, in turn, could affect our ability to refinance the Notes or repay the Notes at maturity. A decrease in our credit rating may also affect the trading price of any Notes we have issued.

Due to our global operations, our net sales, costs and results of operations, as well as the U.S. dollar value of our dividends and market price of our American Depositary Shares ("ADSs"), are affected by exchange rate fluctuations.

We operate globally and are therefore exposed to foreign exchange risks in the form of both transaction risks and translation risks. Our policy is to monitor and hedge exchange rate exposure, and we manage our operations to mitigate, but not to eliminate, the impacts of exchange rate fluctuations. Our hedging activities may prove unsuccessful in mitigating the potentially negative impact of exchange rate fluctuations. Additionally, significant volatility in the relevant exchange rates and interest rates may increase our hedging costs, as well as limit our ability to hedge our exchange rate exposure. In particular, we may not adequately hedge against unfavourable exchange rate movements, including those of certain emerging market currencies. Furthermore, exchange rate fluctuations may have an adverse effect on our net sales, costs and results of operations, as well as our competitive position, through their impact on our customers, suppliers and competitors. This could, in turn, affect our ability to fulfil our obligations under the Notes, whether payment-related or otherwise.

We also experience other financial market-related risks, including changes in interest rates and in prices of marketable securities that we own. We may use derivative financial instruments to reduce certain of these risks. If our strategies to reduce such risks are not successful, our financial condition and results of operation and, consequently, our ability to fulfil our obligations under the Notes, may be harmed.

Additionally, exchange rate fluctuations may materially affect the U.S. dollar value of any dividends or other distributions that are paid in euro, as well as the market price of our ADSs.

We are exposed to pension and post-employment cost-related risks and we may be unsuccessful in our ability to avoid or control costs resulting from a need for increased funding.

We are exposed to various employee cost-related risks, including those related to pension, and post-employment healthcare and life insurance cost-related risks. In the U.S., we maintain significant employee pension benefit plans and a significant retiree welfare benefit plan (providing post-employment healthcare benefits and post-employment life insurance coverage). Outside the U.S., we contribute to pension schemes for large numbers of current and former employees. The U.S. and non-U.S. plans and schemes have funding requirements that depend on, among other things, various legal requirements, how assets set aside to pay for those obligations are invested, the performance of financial markets, interest rates, assumptions regarding the life expectancy of covered employees and retirees, and medical cost inflation and medical care utilisation. To the extent that any of those variables change, the funding required for those plans/schemes may increase, and we may be unsuccessful in our ability to avoid or control costs resulting from such increased funding requirements.

With respect to our pension and post-employment obligations, we face the following risks, among others:

- financial market performance and volatility in asset values and discount rates affect the funded status of our pension obligations and could increase funding requirements, including legally required minimum contributions;
- our pension plan participants and post-employment health plan participants may live longer than has been assumed, which would result in an increase in our benefit obligations. We cannot be certain that the
longevity of the participants in our pension plans or retiree healthcare plan will not exceed that indicated by the mortality tables we currently use or that future updates to those tables will not reflect materially longer life expectancies;

- we currently fund, and expect to be able to continue to fund, our U.S. post-employment healthcare and group life insurance costs for our formerly represented retirees with excess pension assets in our (U.S.) formerly represented pension plan, as permitted under Section 420 of the U.S. Internal Revenue Code. A deterioration in the funded status of that pension plan could negatively affect our ability to continue making Section 420 transfers. Section 420 is currently set to expire in 2025; and

- we currently provide post-employment group life insurance coverage for a closed group of former non-represented employees who meet stated age and service criteria. This benefit obligation is largely insured through an experience-rated group life insurance policy issued by a reputable insurer, the premiums for which are paid from a voluntary employees' beneficiary association (veba) trust. Based on current actuarial and return-on-asset assumptions and the present level and structure of this group life insurance obligation, we believe that we can continue to fund the premiums for this policy from this trust for several more years. Once the trust's assets are depleted, however, Nokia will bear the annual premium cost associated with this benefit. Although we expect to be able, in the future, to fund this cost from excess pension assets in our (U.S.) non-represented pension plan, under Section 420 of the U.S. Internal Revenue Code, the level of excess pension assets in that plan in any given year may be insufficient to cover the annual premium cost. As noted, Section 420 is currently set to expire in 2025.

If the risks described above in connection with pension and post-employment costs materialise, our business, financial condition, results of operations and prospects could be adversely affected which could, in turn, affect our ability to fulfil our obligations under the Notes.

The carrying amount of our goodwill may not be recoverable.

We assess the carrying amount of goodwill annually, or more frequently if events or changes in circumstances indicate that such carrying amount may not be recoverable. We assess the carrying amount of other identifiable assets if events or changes in circumstances indicate that their carrying amounts may not be recoverable. If we do not generate revenues from our businesses as anticipated, our businesses may not generate sufficient positive operating cash flows. This, or other factors, may lead to a decrease in the value of our assets, including intangible assets and the goodwill attributed to our businesses, resulting in impairment charges that may adversely affect our net profit for the year. While we believe the estimated recoverable values are reasonable, actual performance in the short- and long-term and our assumptions on which we base our calculations could materially differ from our forecasts, which could impact future estimates of our businesses' recoverable values, and may result in impairment charges. This could adversely affect our business, financial condition, results of operations and prospects which could, in turn, affect our ability to fulfil our obligations under the Notes.

Factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme

Risks related to the structure of a particular issue of Notes

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of the most common such features:

Notes subject to optional redemption by the Issuer

In accordance with Condition 9, the Issuer will, in certain circumstances set out therein, have the right to redeem the Notes prior to their maturity date. An optional redemption feature of Notes is likely to limit their market value because, during any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate (or through taking on a greater credit risk). As this would shorten the length of investment, potential investors should consider reinvestment risks in light of other investments available at that time.
Fixed/Floating Rate Notes

Fixed/Floating Rate Notes bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Such a feature to convert the interest basis, and any conversion of the interest basis may affect the secondary market and the market value of such Notes as the change of interest basis may result in a lower interest return for Noteholders. Where the Notes convert from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. Where the Notes convert from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on those Notes and could affect the market value of an investment in the relevant Notes. Depending on the Notes issued, a potential investor will need to consider the risk related to investing in a fixed or floating instrument.

Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities. If Notes are issued at a substantial discount or premium, potential investors should consider that the price of their investment may be more volatile.

The regulation and reform of "benchmarks" may adversely affect the value of Notes linked to or referencing such "benchmarks"

Interest rates and indices which are deemed to be "benchmarks", including LIBOR, EURIBOR, STIBOR and NIBOR, are the subject of national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be fully predicted which introduce a number of risks and could have a material adverse effect on any Notes linked to or referencing such a "benchmark". These risks include (i) legal risks arising from potential changes required to documentation for new and existing transactions; (ii) financial risks arising from any changes in the valuation of financial instruments linked to benchmark rates; (iii) pricing risks arising from how changes to benchmark indices could impact pricing mechanisms on some instruments; (iv) operational risks arising from the potential requirement to adapt IT systems, trade reporting infrastructure and operational processes; and (v) conduct risks arising from the potential impact of communication with customers and engagement during the transition period.

The EU Benchmarks Regulation applies, subject to certain transitional provisions, to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the European Union. Among other things, it (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU supervised entities of "benchmarks" of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed).

Regulation (EU) 2016/1011 as it forms part of domestic law by virtue of the EUWA (the "UK Benchmarks Regulation"), among other things, applies to the provision of benchmarks and the use of a benchmark in the UK. Similarly, it prohibits the use in the UK by UK supervised entities of benchmarks of administrators that are not authorised by the FCA or registered on the FCA register (or, if non-UK based, not deemed equivalent or recognised or endorsed).

The EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable, could have a material impact on any Notes linked to or referencing a "benchmark", in particular, if the methodology or other terms of the "benchmark" are changed in order to comply with the requirements of the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the "benchmark". A Benchmark could also be discontinued as a result of the failure by a Benchmark administrator to be authorised or registered (or, if based outside the European Union or United Kingdom, as applicable, to be deemed equivalent or recognised or otherwise endorsed).

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of "benchmarks", could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements.

As an example of such benchmark reforms, on 5 March 2021, the FCA announced the future cessation or loss of representativeness of the 35 LIBOR benchmark settings published by IBA, the administrator of LIBOR.
Publication of these settings will permanently cease immediately after 31 December 2021, other than in the case of certain U.S. dollar LIBOR settings, which will cease immediately after 30 June 2023.

Specifically, the sustainability of LIBOR has been questioned as a result of the absence of relevant active underlyng markets and possible disincentives (including possibly as a result of benchmark reforms) for market participants to continue contributing to such benchmarks. The FCA has indicated through a series of announcements that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021.

On 5 March 2021, ICE Benchmark Administration Limited ("IBA"), the administrator of LIBOR, published a statement confirming its intention to cease publication of all LIBOR settings, together with the dates on which this will occur, subject to the FCA exercising its powers to require IBA to continue publishing such LIBOR settings using a changed methodology (the "IBA announcement"). Concurrently, the FCA published a statement on the future cessation and loss of representativeness of all LIBOR currencies and tenors, following the dates on which IBA has indicated it will cease publication (the "FCA announcement"). Permanent cessation will occur immediately after 31 December 2021 for all Euro and Swiss Franc LIBOR tenors and certain Sterling, Japanese Yen and US Dollar LIBOR settings and immediately after 30 June 2023 for certain other USD LIBOR settings. In relation to the remaining LIBOR settings (1-month, 3-month and 6-month Sterling, US Dollar and Japanese Yen LIBOR settings), the FCA will consult on, or continue to consider the case for, using its powers to require IBA to continue their publication under a changed methodology for a further period after end-2021 (end-June 2023 in the case of US Dollar LIBOR). The FCA announcement states that consequently, these LIBOR settings will no longer be representative of the underlying market that such settings are intended to measure immediately after 31 December 2021, in the case of the Sterling and Japanese Yen LIBOR settings, and immediately after 30 June 2023, in the case of the USD LIBOR settings. Any continued publication of the Japanese Yen LIBOR settings will also cease permanently at the end of 2022.

Separately, the working group on euro risk free-rates for the euro area has published a set of guiding principles and high level recommendations for fallback provisions in, amongst other things, new euro denominated cash products (including bonds) referencing EURIBOR. The guiding principles indicate, amongst other things, that continuing to reference EURIBOR in relevant contracts (without robust fallback provisions) may increase the risk to the euro area financial system. On 11 May 2021, the euro risk-free rate working group published its recommendations on EURIBOR fallback trigger events and fallback rates.

These factors may have (without limitation) the following effects on certain "benchmarks": (i) discouraging market participants from continuing to administer or contribute to the "benchmark"; (ii) triggering changes in the rules or methodologies used in the "benchmark"; and/or (iii) leading to the disappearance of the "benchmark". Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to or referencing (in whole or in part) a "benchmark".

The replacement benchmarks, and the timing of and mechanisms for implementation have not yet been confirmed by Central Banks. Accordingly, it is not currently possible to determine whether, or to what extent, any such changes would affect the Group. However, the implementation of alternative benchmark rates may have a material adverse effect on the Group's business, results of operations, financial condition and prospects.

The Terms and Conditions of the Notes provide for certain fallback arrangements in the event that a Reference Rate and/or any page on which a Reference Rate may be published (or any successor service) becomes unavailable or a Benchmark Event (as defined in the Terms and Conditions of the Notes) otherwise occurs. Such fallback arrangements include the possibility that the Rate of Interest (or any component part thereof) could be set by reference to a Successor Rate or an Alternative Rate (both as defined in the Terms and Conditions of the Notes), with or without the application of an Adjustment Spread and may include amendments to the Terms and Conditions of the Notes to ensure the proper operation of the successor or replacement benchmark, all as determined by an Independent Adviser (acting in good faith and in a commercially reasonable manner). An Adjustment Spread could be positive or negative and would be applied with a view to reducing or eliminating, to the fullest extent reasonably practicable in the circumstances, any economic prejudice or benefit (as applicable) to investors arising out of the replacement of a Reference Rate. However, it may not be possible to determine or apply an Adjustment Spread and even if an Adjustment Spread is applied, such Adjustment Spread may not be effective to reduce or eliminate economic prejudice to investors. If no Adjustment Spread can be determined, a Successor Rate or Alternative Rate may nonetheless be used to determine the Rate of Interest. The use of a Successor Rate or Alternative Rate (including with the application of an Adjustment Spread) will still result in any Notes linked to or referencing a Reference Rate performing differently (which may include payment of a lower Rate of Interest) than they would if the Reference Rate were to continue to apply in its current form.
If, following the occurrence of a Benchmark Event, no Successor Rate or Alternative Rate is determined, the ultimate fallback for the purposes of calculation of the Rate of Interest for a particular Interest Period may result in the Rate of Interest for the last preceding Interest Period being used. This may result in the effective application of a fixed rate for Floating Rate Notes based on the rate which was last observed on the Relevant Screen Page. Due to the uncertainty concerning the availability of Successor Rates and Alternative Rates, the involvement of an Independent Adviser and the potential for further regulatory developments there is a risk that the relevant fallback provisions may not operate as intended at the relevant time.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable, or any national or international reforms and the possible application of the benchmark replacement provisions of the Notes in making any investment decision with respect to any Notes linked to or referencing a "benchmark".

**Risks related to Notes generally**

Set out below is a brief description of certain risks relating to the Notes generally:

*Modification and waivers*

The conditions of the Notes contain provisions for calling meetings (including by way of conference call or by use of a videoconference platform) of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority. As a result, decisions might be taken by the holders of such defined majorities of the Notes that are contrary to the preferences of any particular investor in the Notes or with which some holders of such Notes may not agree.

*Notes where denominations involve integral multiples: definitive Notes*

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in their account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes such that its holding amounts to a Specified Denomination.

If definitive Notes are issued, holders of the Notes should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

*Risks related to the market generally*

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

*The secondary market generally*

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Notes and an investment by holders.

*Exchange rate risks and exchange controls*

The Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "Investor's Currency") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease: (i) the Investor's Currency equivalent yield on the Notes; (ii) the Investor's Currency
Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Issuer to make payments in respect of the Notes. As a result, investors may receive less interest or principal than expected, or no interest or principal.

**Interest rate risks**
Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes. The trading price of an investment in the Notes will vary with the fluctuations of the interest rates. If an investor in the Notes tries to sell such investment, then they might receive an offer that is less than the amount invested.

**Credit ratings may not reflect all risks**
One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised, suspended or withdrawn by the credit rating agency at any time.

In general, European regulated investors are restricted under the EU CRA Regulation from using credit ratings for regulatory purposes in the EEA, unless such ratings are issued by a credit rating agency established in the EEA and registered under the EU CRA Regulation (and such registration has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). Such general restriction will also apply in the case of credit ratings issued by third country non-EEA credit rating agencies, unless the relevant credit ratings are endorsed by an EEA-registered credit rating agency or the relevant third country rating agency is certified in accordance with the EU CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). The list of registered and certified rating agencies published by the European Securities and Markets Authority ("ESMA") on its website (at http://www.esma.europa.eu/page/List-registered-and-certified-CRAs) in accordance with the EU CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list.

Investors regulated in the UK are subject to similar restrictions under the UK CRA Regulation. As such, UK regulated investors are required to use for UK regulatory purposes ratings issued by a credit rating agency established in the UK and registered under the UK CRA Regulation. In the case of ratings issued by third country non-UK credit rating agencies, third country credit ratings can either be: (a) endorsed by a UK-registered credit rating agency; or (b) issued by a third country credit rating agency that is certified in accordance with the UK CRA Regulation. Note this is subject, in each case, to (i) the relevant UK registration, certification or endorsement, as the case may be, not having been withdrawn or suspended, and (ii) transitional provisions that apply in certain circumstances. In the case of third country credit ratings, for a certain limited period of time, transitional relief accommodates continued use for regulatory purposes in the UK, of existing pre-2021 ratings, provided the relevant conditions are satisfied.

If the status of the rating agency rating the Notes changes for the purposes of the EU CRA Regulation or the UK CRA Regulation, relevant regulated investors may no longer be able to use the rating for regulatory purposes in the EEA or the UK, as applicable, and the Notes may have a different regulatory treatment. This may result in relevant regulated investors selling the Notes which may impact the value of the Notes and their liquidity on any secondary market. Certain information with respect to the credit rating agencies and ratings is set out on the cover of this Base Prospectus.

**Legal investment considerations may restrict certain investments**
The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (a) Notes are legal investments for it, (b) Notes can be used as collateral for various types of borrowing and (c) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules. An investor must understand any limitation on its investment activities prior to investing in the Notes.
FINAL TERMS, DRAWDOWN PROSPECTUSES AND SUPPLEMENTS

In this section, the expression "necessary information" means, in relation to any Tranche of Notes, the information which is material to an investor for making an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Issuer, the rights attaching to the Notes and the reasons for the issuance and its impact on the Issuer. In relation to the different types of Notes which may be issued under the Programme from time to time, the Issuer has endeavoured to include in this Base Prospectus all of the necessary information, except for information relating to the Notes which is not known at the date of this Base Prospectus and which can only be determined at the time of an individual issue of a Tranche of Notes.

Any information relating to the Notes which is not included in this Base Prospectus, and which is required in order to complete the necessary information in relation to a Tranche of Notes, will be contained either in the relevant Final Terms or in a Drawdown Prospectus.

For a Tranche of Notes which is the subject of Final Terms, those Final Terms will, for the purposes of that Tranche of Notes only, complete this Base Prospectus and must be read in conjunction with this Base Prospectus. The terms and conditions applicable to any particular Tranche of Notes which is the subject of Final Terms are the Conditions as completed by the relevant Final Terms.

Each Drawdown Prospectus will be constituted by a single document containing the necessary information relating to the Issuer and the relevant Notes. The terms and conditions applicable to any particular Tranche of Notes which is the subject of a Drawdown Prospectus will be the Conditions as supplemented, amended and/or replaced to the extent described in the relevant Drawdown Prospectus. In the case of a Tranche of Notes which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the relevant Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus, unless the context requires otherwise.

In the event of any significant new factor, material mistake or material inaccuracy relating to information included in this Base Prospectus and whose inclusion or removal from this Base Prospectus is necessary for the purpose of allowing an investor to make an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Issuer and/or the rights attaching to the Notes, the Issuer will prepare a supplement to this Base Prospectus or publish a new Base Prospectus for use in connection with such Notes and any subsequent issue of Notes.
The following documents, which have previously been published or are published simultaneously with this Base Prospectus and have been filed with Euronext Dublin or approved by the Central Bank, shall be incorporated in, and form part of, this Base Prospectus:

(a) the audited consolidated annual financial statements and auditor’s report of the Issuer for the financial year ended 31 December 2019, which form part of the Issuer's annual accounts for the financial year ended 31 December 2019 and which can be found at pages 121 to 194 (inclusive) and pages 214 to 218 (inclusive), respectively, of such annual accounts (https://www.nokia.com/system/files/2020-03/Nokia%20in%202019%20annual%20report_1.pdf);

(b) the audited consolidated annual financial statements and auditor’s report of the Issuer for the financial year ended 31 December 2020, which form part of the Issuer's annual accounts for the financial year ended 31 December 2020 and which can be found at pages 120 to 192 (inclusive) and pages 212 to 215 (inclusive), respectively, of such annual accounts (https://www.nokia.com/system/files/2021-03/Nokia_Annual_Report_2020_English.pdf);

(c) the unaudited recast comparative segment results of the Issuer for the financial year ended 31 December 2020, reflecting Nokia's new financial reporting structure and which can be found in the stock exchange release published by Nokia on 11 March 2021;

(d) the unaudited consolidated interim financial statements of the Issuer, which form part of the Issuer's financial report for the three months ended 31 March 2021 and which can be found at pages 17 to 38 (inclusive) of such financial report (https://www.nokia.com/system/files/2021-04/nokia_results_2021_q1.pdf);

(e) the Terms and Conditions of the Notes which can be found at pages 41 to 63 (inclusive) of the Base Prospectus dated 21 February 2017, prepared by the Issuer in connection with the Programme (https://www.nokia.com/sites/default/files/2018-11/Base_Prospectus_dated_21_February_2017.pdf);

(f) the Terms and Conditions of the Notes which can be found at pages 39 to 61 (inclusive) of the Base Prospectus dated 1 March 2019, prepared by the Issuer in connection with the Programme (https://www.nokia.com/sites/default/files/2019-03/Nokia%20-%20Base%20Prospectus%2C%20dated%201%20March%202019.pdf); and

(g) the Terms and Conditions of the Notes which can be found at pages 44 to 68 (inclusive) of the Base Prospectus dated 27 March 2020, prepared by the Issuer in connection with the Programme (https://www.nokia.com/sites/default/files/2020-03/Base%20Prospectus%20dated%2027%20March%202020.pdf).

The financial statements referred to in paragraphs (a) and (b) above are prepared on the basis of International Financial Reporting Standards as issued by the International Accounting Standards Board and in conformity with International Financial Reporting Standards as adopted by the European Union. The same accounting policies and methods of computation are followed in the financial statements referred to in paragraph (b) above as were followed in the financial statements referred to in paragraph (a) above other than as described within the notes to the financial statements and in "Certain Definitions and Presentation of Financial and Other Information—Changes in Accounting Standards" above.

In addition to information on our reported IFRS results, we provide certain information on a non-IFRS, or underlying business performance, basis. Non-IFRS results exclude costs related to the Acquisition of Alcatel-Lucent and related integration, goodwill impairment charges, intangible asset amortisation and other purchase price fair value adjustments, restructuring and associated charges, and certain other items that may not be indicative of Nokia's underlying business performance. We report our segment operating profit on a non-IFRS basis, therefore non-IFRS exclusions are reported only at the Nokia consolidated level. We believe that our non-IFRS results provide meaningful supplemental information to both management and investors regarding Nokia's underlying business performance by excluding the items that may not be indicative of Nokia's business operating results. These non-IFRS financial measures should not be viewed in isolation or as substitutes to the equivalent IFRS measure(s), but should be used in conjunction with the most directly comparable IFRS measure(s) in the
reported results. See "Forward Looking Statements" and "Risk Factors" for a more complete discussion of certain of the factors that could affect our future performance and results of operations.

Any documents themselves incorporated by reference in the documents incorporated by reference in this Base Prospectus shall not form part of this Base Prospectus. Where only certain parts of the documents referred to above are incorporated by reference into this Base Prospectus, those parts of the documents that are not incorporated by reference into this Base Prospectus are either not relevant for investors or are covered elsewhere in this Base Prospectus. Other than information and documents that are deemed to be incorporated by reference herein, the above websites shall not form a part of this Base Prospectus.

Following the publication of this Base Prospectus, a supplement may be prepared by the Issuer and approved by the Central Bank in accordance with Article 23 of the Prospectus Regulation. Statements contained in any such supplement (or contained in any document incorporated by reference therein) shall, to the extent applicable (whether expressly, by implication or otherwise), be deemed to modify or supersede statements contained in this Base Prospectus or in a document which is incorporated by reference in this Base Prospectus. Any statement so modified or superseded shall not, except as so modified or superseded, constitute a part of this Base Prospectus.

Copies of documents incorporated by reference in this Base Prospectus can be obtained from the registered office or website of the Issuer and from the specified office of the Fiscal Agent for the time being in London.

The Issuer will, in the event of any significant new factor, material mistake or material inaccuracy relating to information included in this Base Prospectus which is capable of affecting the assessment of any Notes, prepare a supplement to this Base Prospectus or publish a new Base Prospectus for use in connection with any subsequent issue of Notes.
FORMS OF THE NOTES

Each Tranche of Notes in bearer form ("Bearer Notes") will initially be in the form of either a temporary global note in bearer form (the "Temporary Global Note"), without interest coupons, or a permanent global note in bearer form (the "Permanent Global Note"), without interest coupons, in each case as specified in the relevant Final Terms. Each Temporary Global Note or, as the case may be, Permanent Global Note (each a "Global Note") which is not intended to be issued in new global note ("NGN") form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a depositary or a common depositary for Euroclear Bank SA/NV ("Euroclear") and/or Clearstream Banking S.A., Luxembourg ("Clearstream, Luxembourg") and/or any other relevant clearing system and each Global Note which is intended to be issued in NGN form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a common safekeeper for Euroclear and/or Clearstream, Luxembourg.

In the case of each Tranche of Bearer Notes, the relevant Final Terms will also specify whether United States Treasury Regulation §1.163-5(c)(2)(i)(C) (the "TEFRA C Rules") or United States Treasury Regulation §1.163-5(c)(2)(i)(D) (the "TEFRA D Rules") are applicable in relation to the Notes or, if the Notes do not have a maturity of more than 365 days, that neither the TEFRA C Rules nor the TEFRA D Rules are applicable.

Temporary Global Note exchangeable for Permanent Global Note

If the relevant Final Terms specifies the form of Notes as being "Temporary Global Note exchangeable for a Permanent Global Note", then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for interests in a Permanent Global Note, without interest coupons, not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. No payments will be made under the Temporary Global Note unless exchange for interests in the Permanent Global Note is improperly withheld or refused. In addition, interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever any interest in the Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Issuer shall procure (in the case of first exchange) the prompt delivery (free of charge to the bearer) of such Permanent Global Note to the bearer of the Temporary Global Note or (in the case of any subsequent exchange) an increase in the principal amount of the Permanent Global Note in accordance with its terms against:

(i) presentation and (in the case of final exchange) surrender of the Temporary Global Note to or to the order of the Fiscal Agent; and

(ii) receipt by the Fiscal Agent of a certificate or certificates of non-U.S. beneficial ownership, within seven days of the bearer requesting such exchange.

The principal amount of the Permanent Global Note shall be equal to the aggregate of the principal amounts specified in the certificates of non-U.S. beneficial ownership; provided, however, that in no circumstances shall the principal amount of the Permanent Global Note exceed the initial principal amount of the Temporary Global Note.

The Permanent Global Note will be exchangeable in whole, but not in part, for Notes in definitive form ("Definitive Notes"):

(i) on the expiry of such period of notice as may be specified in the relevant Final Terms; or

(ii) at any time, if so specified in the relevant Final Terms; or

(iii) if the relevant Final Terms specifies "in the limited circumstances described in the Permanent Global Note", then if (a) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) any of the circumstances described in Condition 13 (Events of Default) occurs.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal

40
amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the
Permanent Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such
exchange.

Temporary Global Note exchangeable for Definitive Notes

If the relevant Final Terms specifies the form of Notes as being "Temporary Global Note exchangeable for
Definitive Notes" and also specifies that the TEFRA C Rules are applicable or that neither the TEFRA C Rules
or the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note
which will be exchangeable, in whole but not in part, for Definitive Notes not earlier than 40 days after the issue
date of the relevant Tranche of the Notes.

If the relevant Final Terms specifies the form of Notes as being "Temporary Global Note exchangeable for
Definitive Notes" and also specifies that the TEFRA D Rules are applicable, then the Notes will initially be in
the form of a Temporary Global Note which will be exchangeable, in whole or in part, for Definitive Notes not earlier
than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial
ownership. Interest payments in respect of the Notes cannot be collected without such certification of non-U.S.
beneficial ownership.

Whenever the Temporary Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt
delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons
attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal
amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the
Temporary Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such
exchange.

Permanent Global Note exchangeable for Definitive Notes

If the relevant Final Terms specifies the form of Notes as being "Permanent Global Note exchangeable for
Definitive Notes", then the Notes will initially be in the form of a Permanent Global Note which will be
exchangeable in whole, but not in part, for Definitive Notes:

(i) on the expiry of such period of notice as may be specified in the relevant Final Terms; or

(ii) at any time, if so specified in the relevant Final Terms; or

(iii) if the relevant Final Terms specifies "in the limited circumstances described in the Permanent Global Note",
then if (a) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for
business for a continuous period of 14 days (other than by reason of legal holidays) or announces an
intention permanently to cease business or (b) any of the circumstances described in Condition 13 (Events
of Default) occurs.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt
delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons
attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal
amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the
Permanent Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such
exchange.

Terms and Conditions applicable to the Notes

The terms and conditions applicable to any Definitive Note will be endorsed on that Note and will consist of the
terms and conditions set out under "Terms and Conditions of the Notes" below and the provisions of the relevant
Final Terms.

The terms and conditions applicable to any Note in global form will differ from those terms and conditions which
would apply to the Note were it in definitive form to the extent described under "Summary of Provisions Relating
to the Notes while in Global Form" below.
Legend concerning United States persons

In the case of any Tranche of Bearer Notes having a maturity of more than 365 days, the Bearer Notes in global form, the Notes in definitive form and any Coupons and Talons appertaining thereto will bear a legend to the following effect:

"Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the U.S. Internal Revenue Code".

Registered Notes

Each Tranche of Registered Notes will be in the form of either individual Note Certificates in registered form ("Individual Note Certificates") or a global Note in registered form (a "Global Registered Note"), in each case as specified in the relevant Final Terms. Each Global Registered Note which is not intended to be held under the New Safekeeping Structure, as specified in the relevant Final Terms, will be deposited on or around the relevant issue date with a depositary or a common depositary for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and registered in the name of a nominee for such depositary and will be exchangeable for Individual Note Certificates in accordance with its terms. Each Global Registered Note which is intended to be held under the New Safekeeping Structure, as specified in the relevant Final Terms, will, on or about the relevant issue date, be registered in the name of a common safekeeper (or its nominee) for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system (which is authorised to hold such Notes as eligible collateral for Eurosystem monetary policy and intra-day credit operations) and be deposited with a nominee for such clearing system and will be exchangeable for Individual Note Certificates in accordance with its terms.

If the relevant Final Terms specifies the form of Notes as being "Individual Note Certificates", then the Notes will at all times be in the form of Individual Note Certificates issued to each Noteholder in respect of their respective holdings.

If the relevant Final Terms specifies the form of Notes as being "Global Registered Note exchangeable for Individual Note Certificates", then the Notes will initially be in the form of a Global Registered Note which will be exchangeable in whole, but not in part, for Individual Note Certificates:

(i) on the expiry of such period of notice as may be specified in the relevant Final Terms; or

(ii) at any time, if so specified in the relevant Final Terms; or

(iii) if the relevant Final Terms specifies "in the limited circumstances described in the Global Registered Note", then if (a) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) any of the circumstances described in Condition 13 (Events of Default) occurs.

Whenever the Global Registered Note is to be exchanged for Individual Note Certificates, the Issuer shall procure that Individual Note Certificates will be issued in an aggregate principal amount equal to the principal amount of the Global Registered Note within five business days of the delivery, by or on behalf of the registered holder of the Global Registered Note to the Registrar of such information as is required to complete and deliver such Individual Note Certificates (including, without limitation, the names and addresses of the persons in whose names the Individual Note Certificates are to be registered and the principal amount of each such person's holding) against the surrender of the Global Registered Note at the specified office of the Registrar. Such exchange will be effected in accordance with the provisions of the Agency Agreement and the regulations concerning the transfer and registration of Notes scheduled thereto and, in particular, shall be effected without charge to any holder, but against such indemnity as the Registrar may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

Terms and Conditions applicable to the Notes

The terms and conditions applicable to any Individual Note Certificate will be endorsed on that Individual Note Certificate and will consist of the terms and conditions set out under "Terms and Conditions of the Notes" below and the provisions of the relevant Final Terms relating to the relevant Notes.
The terms and conditions applicable to any Global Registered Note will differ from those terms and conditions which would apply to the Note were it in definitive form to the extent described under "Summary of Provisions Relating to the Notes while in Global Form" below.
1. Introduction

(a) Programme: Nokia Corporation (the "Issuer") has established a Euro Medium Term Note Programme (the "Programme") for the issuance of up to EUR 5,000,000,000 in aggregate principal amount of notes (the "Notes").

(b) Final Terms: Notes issued under the Programme are issued in series (each a "Series") and each Series may comprise one or more tranches (each a "Tranche") of Notes. Each Tranche is the subject of a final terms (each a "Final Terms") which supplements these terms and conditions (the "Conditions"). The terms and conditions applicable to any particular Tranche of Notes are these Conditions as completed by the relevant Final Terms. In the event of any inconsistency between these Conditions and the relevant Final Terms, the relevant Final Terms shall prevail.

(c) Agency Agreement: The Notes are the subject of an amended and restated issue and paying agency agreement dated 6 July 2021 (as amended and/or supplemented and/or restated from time to time, the "Agency Agreement") between the Issuer and Citibank, N.A., London Branch as fiscal agent (the "Fiscal Agent", which expression includes any successor fiscal agent appointed from time to time in connection with the Notes), Citigroup Global Markets Europe AG as registrar (the "Registrar"), and the paying agent named therein (together with the Fiscal Agent, the "Paying Agents", which expression includes any successor or additional paying agents appointed from time to time in connection with the Notes) and the transfer agent named therein (together with the Registrar, the "Transfer Agents", which expression includes any successor or additional transfer agents appointed from time to time in connection with the Notes). In these Conditions references to the "Agents" are to the Paying Agents and the Transfer Agents and any reference to an "Agent" is to any one of them.

(d) Deed of Covenant: The Notes may be issued in bearer form ("Bearer Notes"), or in registered form ("Registered Notes"). Registered Notes are constituted by a deed of covenant dated 27 March 2020 (as amended and/or supplemented and/or restated from time to time, the "Deed of Covenant") entered into by the Issuer.

(e) The Notes: All subsequent references in these Conditions to "Notes" are to the Notes which are the subject of the relevant Final Terms. Copies of the relevant Final Terms are available for viewing at the registered office of the Issuer and of the Fiscal Agent and copies may be obtained from those offices save that, if this Note is neither admitted to trading on a regulated market in the European Economic Area nor offered in the European Economic Area in circumstances where a prospectus is required to be published under Regulation (EU) 2017/1129 the relevant Final Terms will only be obtainable by a Noteholder holding one or more Notes and such Noteholder must produce evidence satisfactory to the Issuer and the relevant Paying Agent as to its holding of such Notes and identity.

(f) Summaries: Certain provisions of these Conditions are summaries of the Agency Agreement and are subject to their detailed provisions. The holders of the Notes (the "Noteholders") and the holders of the related interest coupons, if any (the "Couponholders" and the "Coupons", respectively) are bound by, and are deemed to have notice of, all the provisions of the Agency Agreement applicable to them. Copies of the Agency Agreement are available for inspection by Noteholders during normal business hours at the Specified Offices of each of the Paying Agents, the initial Specified Offices of which are set out below.

2. Interpretation

(a) Definitions: In these Conditions the following expressions have the following meanings:

"Accrual Yield" has the meaning given in the relevant Final Terms;

"Additional Business Centre(s)" means the city or cities specified as such in the relevant Final Terms;
"Additional Financial Centre(s)" means the city or cities specified as such in the relevant Final Terms;

"Business Day" means:

(i) in relation to any sum payable in euro, a TARGET Settlement Day and a day on which commercial banks and foreign exchange markets settle payments generally in each (if any) Additional Business Centre; and

(ii) in relation to any sum payable in a currency other than euro, a day on which commercial banks and foreign exchange markets settle payments generally in London, in the Principal Financial Centre of the relevant currency and in each (if any) Additional Business Centre;

"Business Day Convention", in relation to any particular date, has the meaning given in the relevant Final Terms and, if so specified in the relevant Final Terms, may have different meanings in relation to different dates and, in this context, the following expressions shall have the following meanings:

(i) "Following Business Day Convention" means that the relevant date shall be postponed to the first following day that is a Business Day;

(ii) "Modified Following Business Day Convention" or "Modified Business Day Convention" means that the relevant date shall be postponed to the first following day that is a Business Day unless that day falls in the next calendar month in which case that date will be the first preceding day that is a Business Day;

(iii) "Preceding Business Day Convention" means that the relevant date shall be brought forward to the first preceding day that is a Business Day;

(iv) "FRN Convention", "Floating Rate Convention" or "Eurodollar Convention" means that each relevant date shall be the date which numerically corresponds to the preceding such date in the calendar month which is the number of months specified in the relevant Final Terms as the Specified Period after the calendar month in which the preceding such date occurred, provided, however, that:

A) if there is no such numerically corresponding day in the calendar month in which any such date should occur, then such date will be the last day which is a Business Day in that calendar month;

B) if any such date would otherwise fall on a day which is not a Business Day, then such date will be the first following day which is a Business Day, in which case it will be the first preceding day which is a Business Day; and

C) if the preceding such date occurred on the last day in a calendar month which was a Business Day, then all subsequent such dates will be the last day which is a Business Day in the calendar month which is the specified number of months after the calendar month in which the preceding such date occurred; and

(v) "No Adjustment" means that the relevant date shall not be adjusted in accordance with any Business Day Convention;

"Calculation Agent" means the Fiscal Agent or such other Person specified in the relevant Final Terms as the party responsible for calculating the Rate(s) of Interest and Interest Amount(s) and/or such other amount(s) as may be specified in the relevant Final Terms;

"Calculation Amount" has the meaning given in the relevant Final Terms;

"Calculation Period" means, in respect of any calculation of interest, the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date;

"Coupon Sheet" means, in respect of a Note, a coupon sheet relating to the Note;

"Day Count Fraction" means, in respect of the calculation of an amount for any Calculation Period, such day count fraction as may be specified in these Conditions or the relevant Final Terms and:
(i) if "Actual/Actual (ICMA)" is so specified, means:

(a) where the Calculation Period is equal to or shorter than the Regular Period during which it falls, the actual number of days in the Calculation Period divided by the product of (1) the actual number of days in such Regular Period and (2) the number of Regular Periods in any year; and

(b) where the Calculation Period is longer than one Regular Period, the sum of:

(A) the actual number of days in such Calculation Period falling in the Regular Period in which it begins divided by the product of (1) the actual number of days in such Regular Period and (2) the number of Regular Periods in any year; and

(B) the actual number of days in such Calculation Period falling in the next Regular Period divided by the product of (a) the actual number of days in such Regular Period and (2) the number of Regular Periods in any year;

(ii) if "Actual/365" or "Actual/Actual (ISDA)" is so specified, means the actual number of days in the Calculation Period divided by 365 (or, if any portion of the Calculation Period falls in a leap year, the sum of (A) the actual number of days in that portion of the Calculation Period falling in a leap year divided by 366 and (B) the actual number of days in that portion of the Calculation Period falling in a non-leap year divided by 365);

(iii) if "Actual/365 (Fixed)" is so specified, means the actual number of days in the Calculation Period divided by 365;

(iv) if "Actual/360" is so specified, means the actual number of days in the Calculation Period divided by 360;

(v) if "30/360" is so specified, means (A) in respect of the 2000 ISDA Definitions, the number of days in the Calculation Period divided by 360 (the number of days to be calculated on the basis of a year of 360 days with 12 30-day months (unless (i) the last day of the Calculation Period is the 31st day of a month but the first day of the Calculation Period is a day other than the 30th or 31st day of a month, in which case the month that includes that last day shall not be considered to be shortened to a 30-day month, or (ii) the last day of the Calculation Period is the last day of the month of February, in which case the month of February shall not be considered to be lengthened to a 30-day month)); and (B) in respect of the 2006 ISDA Definitions, the number of days in the Calculation Period divided by 360 calculated on a formula basis as follows:

\[
\text{Day Count Fraction} = \frac{360 \times (Y_2 - Y_1) + 30 \times (M_2 - M_1) + (D_2 - D_1)}{360}
\]

where:

"Y_1" is the year, expressed as a number, in which the first day of the Calculation Period falls;

"Y_2" is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"M_1" is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

"M_2" is the calendar month, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"D_1" is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case D_1 will be 30; and

"D_2" is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31 and D_1 is greater than 29, in which case D_2 will be 30;
(vi) if "30E/360" or "Eurobond Basis" is so specified means (A) in respect of the 2000 ISDA Definitions, the number of days in the Calculation Period divided by 360 (the number of days to be calculated on the basis of a year of 360 days with 12 30-day months, without regard to the date of the first day or last day of the Calculation Period unless, in the case of the final Calculation Period, the date of final maturity is the last day of the month of February, in which case the month of February shall not be considered to be lengthened to a 30-day month); and (B) in respect of the 2006 ISDA Definitions, the number of days in the Calculation Period divided by 360 calculated on a formula basis as follows:

\[
\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}
\]

where:

"Y_1" is the year, expressed as a number, in which the first day of the Calculation Period falls;

"Y_2" is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"M_1" is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

"M_2" is the calendar month, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"D_1" is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case D_1 will be 30; and

"D_2" is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31, in which case D_2 will be 30; and

(vii) if "30E/360 (ISDA)" is specified in the relevant Final Terms, means the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

\[
\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}
\]

where:

"Y_1" is the year, expressed as a number, in which the first day of the Calculation Period falls;

"Y_2" is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"M_1" is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

"M_2" is the calendar month, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"D_1" is the first calendar day, expressed as a number, of the Calculation Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D_1 will be 30; and

"D_2" is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31 and in which case D_2 will be 30;

"Designated Maturity" means, in relation to Screen Rate Determination, the period of time designated in the Reference Rate;
"Early Redemption Amount (Tax)" means, in respect of any Note, its principal amount or such other amount as may be specified in the relevant Final Terms;

"Early Termination Amount" means, in respect of any Note, its principal amount or such other amount as may be specified in, or determined in accordance with, these Conditions or the relevant Final Terms;

"EURIBOR" means the Euro inter-bank offered rate;

"Extraordinary Resolution" has the meaning given in the Agency Agreement;

"Final Redemption Amount" means, in respect of any Note, its principal amount or such other amount as may be specified in, or determined in accordance with, the relevant Final Terms;

"First Interest Payment Date" means the date specified in the relevant Final Terms;

"Fixed Coupon Amount" has the meaning given in the relevant Final Terms;

"Group" means the Issuer and its Subsidiaries from time to time;

"IFRS" means the international financial reporting standards formulated by the International Accounting Standards Board;

"Indebtedness" means (without double counting) any indebtedness in respect of:

(i) moneys borrowed or raised;

(ii) any debenture, bond, note, loan stock, commercial paper or similar instrument;

(iii) any acceptance credit, bill discounting, note purchase or documentary credit facility;

(iv) any payment obligations under any leases which would in accordance with IFRS be treated as finance or capital leases;

(v) any receivables purchase, factoring or discounting arrangement under which there is recourse in whole or in part to any member of the Group;

(vi) any other transaction having the commercial effect of a borrowing and which would, in accordance with IFRS, be treated as a borrowing; or

(vii) any guarantees or other legally binding assurance against financial loss in respect of the indebtedness of any person arising under an obligation falling within paragraphs (i) to (vi) above;

"Interest Amount" means, in relation to a Note and an Interest Period, the amount of interest payable in respect of that Note for that Interest Period;

"Interest Commencement Date" means the Issue Date of the Notes or such other date as may be specified as the Interest Commencement Date in the relevant Final Terms;

"Interest Determination Date" has the meaning given in the relevant Final Terms;

"Interest Payment Date" means the First Interest Payment Date and any other date or dates specified as such in, or determined in accordance with the provisions of, the relevant Final Terms and, if a Business Day Convention is specified in the relevant Final Terms:

(i) as the same may be adjusted in accordance with the relevant Business Day Convention; or

(ii) if the Business Day Convention is the FRN Convention, Floating Rate Convention or Eurodollar Convention and an interval of a number of calendar months is specified in the relevant Final Terms as being the Specified Period, each of such dates as may occur in accordance with the FRN Convention, Floating Rate Convention or Eurodollar Convention at such Specified Period of calendar months following the Interest Commencement Date (in the case of the first Interest Payment Date) or the previous Interest Payment Date (in any other case);
"Interest Period" means each period beginning on (and including) the Interest Commencement Date or any Interest Payment Date and ending on (but excluding) the next Interest Payment Date;

"Intra-Group Debt" means any indebtedness owed by a member of the Group to another member of the Group;

"ISDA Definitions" means the 2000 ISDA Definitions (as amended and updated as at the date of issue of the first Tranche of the Notes of the relevant Series (as specified in the relevant Final Terms) as published by the International Swaps and Derivatives Association, Inc.) or, if so specified in the relevant Final Terms, the 2006 ISDA Definitions (as amended and updated as at the date of issue of the first Tranche of the Notes of the relevant Series (as specified in the relevant Final Terms) as published by the International Swaps and Derivatives Association, Inc.);

"Issue Date" has the meaning given in the relevant Final Terms;

"LIBOR" means the London inter-bank offered rate;

"Margin" has the meaning given in the relevant Final Terms;

"Maturity Date" has the meaning given in the relevant Final Terms;

"Maximum Redemption Amount" has the meaning given in the relevant Final Terms;

"Meeting" means a meeting of Noteholders (whether originally convened or resumed following an adjournment);

"Minimum Redemption Amount" has the meaning given in the relevant Final Terms;

"NIBOR" means the Norwegian inter-bank offered rate;

"Non-recourse Securitisation" means any securitisation, asset backed financing or similar transaction under which a Securitisation Entity on commercially reasonable terms:

(i) acquires receivables or other assets for principally cash consideration or uses existing receivables or other assets;

(ii) issues any notes, bonds, commercial paper, loans or other securities (whether or not listed on a recognised stock exchange) to fund the purchase of or otherwise backed by those receivables or other assets and/or any shares or other interests referred to in paragraph (ii) of the definition of "Permitted Security Interest" and the payment obligations in respect of such notes, bonds, commercial paper, loans or other securities:

(a) are secured directly on those receivables or other assets; and

(b) are not guaranteed by any member of the Group (other than as a result of any Permitted Security Interest);

"Non-recourse Securitisation Debt" means any Indebtedness incurred by a Securitisation Entity pursuant to a securitisation of receivables or other assets where the recourse in respect of that Indebtedness to any member of the Group (other than the Securitisation Entity) is limited to:

(i) those receivables and/or other assets; and

(ii) if those receivables or other assets comprise all or substantially all of the business of such Securitisation Entity, the shares or other interests of any member(s) of the Group in such Securitisation Entity;

"Noteholder", in the case of Bearer Notes, has the meaning given in Condition 3(b) (Form, Denomination and Title — Title to Bearer Notes) and, in the case of Registered Notes, has the meaning given in Condition 3(d) (Form, Denomination and Title — Title to Registered Notes);

"Optional Redemption Amount (Call)" means, in respect of any Note, its principal amount or such other amount as may be specified in, or determined in accordance with, the relevant Final Terms;
“Optional Redemption Amount (Put)” means, in respect of any Note, its principal amount or such other amount as may be specified in, or determined in accordance with, the relevant Final Terms;

“Optional Redemption Date (Call)” has the meaning given in the relevant Final Terms;

“Optional Redemption Date (Put)” has the meaning given in the relevant Final Terms;

“Participating Member State” means a Member State of the European Communities which adopts the euro as its lawful currency in accordance with the Treaty;

“Payment Business Day” means:

(i)  if the currency of payment is euro, any day which is:

(A)  a day on which banks in the relevant place of presentation are open for presentation and payment of bearer debt securities and for dealings in foreign currencies; and

(B)  in the case of payment by transfer to an account, a TARGET Settlement Day and a day on which dealings in foreign currencies may be carried on in each (if any) Additional Financial Centre; or

(ii) if the currency of payment is not euro, any day which is:

(A)  a day on which banks in the relevant place of presentation are open for presentation and payment of bearer debt securities and for dealings in foreign currencies; and

(B)  in the case of payment by transfer to an account, a day on which dealings in foreign currencies may be carried on in the Principal Financial Centre of the currency of payment and in each (if any) Additional Financial Centre;

“Permitted Security Interest” means any Security Interest over:

(i)  the assets or revenues of a Securitisation Entity which are subject to a Non-recourse Securitisation as security for Non-recourse Securitisation Debt raised by such Securitisation Entity in respect of such assets and revenues; and/or

(ii) the shares or other interests owned by any member of the Group in any Securitisation Entity as security for Non-recourse Securitisation Debt raised by such Securitisation Entity provided that the assets or revenues which are the subject of the relevant Non-recourse Securitisation comprise all or substantially all of the business of such Securitisation Entity;

“Person” means any individual, company, corporation, firm, partnership, joint venture, association, organisation, state or agency of a state or other entity, whether or not having separate legal personality;

“Principal Financial Centre” means, in relation to any currency, the principal financial centre for that currency provided, however, that:

(i)  in relation to euro, it means the principal financial centre of such Member State of the European Communities as is selected (in the case of a payment) by the payee or (in the case of a calculation) by the Calculation Agent; and

(ii) in relation to Australian dollars, it means either Sydney or Melbourne and, in relation to New Zealand dollars, it means either Wellington or Auckland; in each case as is selected (in the case of a payment) by the payee or (in the case of a calculation) by the Calculation Agent;

“Principal Subsidiary” means a Subsidiary of the Issuer whose net sales (consolidated in the case of a Subsidiary which itself has Subsidiaries) or whose total assets (consolidated in the case of a Subsidiary which itself has Subsidiaries) represent not less than ten per cent. of the consolidated net sales of the Group or the consolidated total assets of the Group, as the case may be, in each case:

(i)  as shown in the latest published audited or unaudited consolidated financial statements of the Issuer and its Subsidiaries; and
(ii) adjusted to take account of any significant changes in circumstances resulting from any transfers between members of the Group or any acquisitions made by members of the Group since the date as at which such financial statements were prepared;

"Put Option Notice" means a notice which must be delivered to a Paying Agent by any Noteholder wanting to exercise a right to redeem a Note at the option of the Noteholder;

"Put Option Receipt" means a receipt issued by a Paying Agent to a depositing Noteholder upon deposit of a Note with such Paying Agent by any Noteholder wanting to exercise a right to redeem a Note at the option of the Noteholder;

"Rate of Interest" means the rate or rates (expressed as a percentage per annum) of interest payable in respect of the Notes specified in the relevant Final Terms or calculated or determined in accordance with the provisions of these Conditions and/or the relevant Final Terms;

"Redemption Amount" means, as appropriate, the Final Redemption Amount, the Early Redemption Amount (Tax), the Optional Redemption Amount (Call), the Optional Redemption Amount (Put), the Make-Whole Redemption Amount, the Early Termination Amount or such other amount in the nature of a redemption amount as may be specified in the relevant Final Terms;

"Reference Banks" has the meaning given in the relevant Final Terms or, if none, four major banks selected by the Issuer in the market that is most closely connected with the Reference Rate;

"Reference Price" has the meaning given in the relevant Final Terms;

"Reference Rate" means LIBOR, EURIBOR, NIBOR or STIBOR, as specified in the relevant Final Terms;

"Regular Period" means:

(i) in the case of Notes where interest is scheduled to be paid only by means of regular payments, each period from and including the Interest Commencement Date to but excluding the first Interest Payment Date and each successive period from and including one Interest Payment Date to but excluding the next Interest Payment Date;

(ii) in the case of Notes where, apart from the first Interest Period, interest is scheduled to be paid only by means of regular payments, each period from and including a Regular Date falling in any year to but excluding the next Regular Date, where "Regular Date" means the day and month (but not the year) on which any Interest Payment Date falls; and

(iii) in the case of Notes where, apart from one Interest Period other than the first Interest Period, interest is scheduled to be paid only by means of regular payments, each period from and including a Regular Date falling in any year to but excluding the next Regular Date, where "Regular Date" means the day and month (but not the year) on which any Interest Payment Date falls other than the Interest Payment Date falling at the end of the irregular Interest Period;

"Relevant Date" means, in relation to any payment, whichever is the later of (i) the date on which the payment in question first becomes due and (ii) if the full amount payable has not been received in the Principal Financial Centre of the currency of payment by the Fiscal Agent on or prior to such due date, the date on which (the full amount having been so received) notice to that effect has been given to the Noteholders;

"Relevant Financial Centre" has the meaning given in the relevant Final Terms;

"Relevant Indebtedness" means any Indebtedness (other than Non-Recourse Securitisation Debt) which is in the form of or represented by any bond, note, debenture, debenture stock, loan stock, certificate or other instrument which is listed, quoted or traded on any stock exchange or in any securities market (including, without limitation, any over-the-counter market) or held in a securities clearance system;

"Relevant Screen Page" means the page, section or other part of a particular information service (including, without limitation, Reuters) specified as the Relevant Screen Page in the relevant Final Terms, or such other page, section or other part as may replace it on that information service or such other
information service, in each case, as may be nominated by the Person providing or sponsoring the
information appearing there for the purpose of displaying rates or prices comparable to the Reference Rate;

"Relevant Time" has the meaning given in the relevant Final Terms;

"Reserved Matter" means any proposal:

(i) to change any date fixed for payment of principal or interest in respect of the Notes, to reduce the
amount of principal or interest payable on any date in respect of the Notes or to alter the method of
calculating the amount of any payment in respect of the Notes on redemption or maturity or the date
for any such payment;

(ii) to effect the exchange or substitution of the Notes for, or the conversion of the Notes into, shares,
bonds or other obligations or securities of the Issuer or any other person or body corporate formed
or to be formed;

(iii) to change the currency in which amounts due in respect of the Notes are payable;

(iv) to change the quorum required at any Meeting or the majority required to pass an Extraordinary
Resolution; or

(v) to amend this definition;

"Securitisation Entity" means any special purpose vehicle created for the sole purpose of carrying out, or
otherwise used for the purpose of carrying out, a Non-recourse Securitisation or any other member of the
Group which is effecting Non-recourse Securitisations;

"Security Interest" means any mortgage, charge, assignment by way of security, pledge, lien or other
security interest securing any obligation of any person or any other agreement or arrangement having a
similar effect;

"Specified Currency" has the meaning given in the relevant Final Terms;

"Specified Denomination(s)" has the meaning given in the relevant Final Terms;

"Specified Office" has the meaning given in the Agency Agreement;

"Specified Period" has the meaning given in the relevant Final Terms;

"STIBOR" means the Stockholm inter-bank offered rate;

"Subsidiary" means, in relation to any Person (the "first Person") at any particular time, any other Person
(the "second Person"): (i) which is controlled, directly or indirectly, by the first Person;

(ii) more than half the issued share capital of which is beneficially owned, directly or indirectly, by the
first Person; or

(iii) which is a subsidiary of another subsidiary of the first Person;

and, for these purposes, the second Person shall be treated as being controlled by the first Person if the first
Person is able to direct its affairs and/or to control the composition of its board of directors or equivalent
body;

"Talon" means a talon for further Coupons;

"TARGET Settlement Day" means any day on which TARGET2 is open for the settlement of payments
in euro;

"TARGET2" means the Trans-European Automated Real-Time Gross Settlement Express Transfer
payment system which utilises a single shared platform and which was launched on 19 November 2007;
"Treaty" means the Treaty establishing the European Communities, as amended; and

"Zero Coupon Note" means a Note specified as such in the relevant Final Terms.

(b) Interpretation: In these Conditions:

(i) if the Notes are Zero Coupon Notes, references to Coupons and Couponholders are not applicable;

(ii) if Talons are specified in the relevant Final Terms as being attached to the Notes at the time of issue, references to Coupons shall be deemed to include references to Talons;

(iii) if Talons are not specified in the relevant Final Terms as being attached to the Notes at the time of issue, references to Talons are not applicable;

(iv) any reference to principal shall be deemed to include the Redemption Amount, any additional amounts in respect of principal which may be payable under Condition 12 (Taxation), any premium payable in respect of a Note and any other amount in the nature of principal payable pursuant to these Conditions;

(v) any reference to interest shall be deemed to include any additional amounts in respect of interest which may be payable under Condition 12 (Taxation) and any other amount in the nature of interest payable pursuant to these Conditions;

(vi) references to Notes being "outstanding" shall be construed in accordance with the Agency Agreement;

(vii) if an expression is stated in Condition 2(a) (Interpretation — Definitions) to have the meaning given in the relevant Final Terms, but the relevant Final Terms gives no such meaning or specifies that such expression is "not applicable" then such expression is not applicable to the Notes; and

(viii) any reference to the Agency Agreement shall be construed as a reference to the Agency Agreement as amended and/or supplemented up to and including the Issue Date of the Notes.

3. Form, Denomination and Title

(a) Bearer Notes: Bearer Notes are in the Specified Denomination(s) with Coupons and, if specified in the relevant Final Terms, Talons attached at the time of issue. In the case of a Series of Bearer Notes with more than one Specified Denomination, Bearer Notes of one Specified Denomination will not be exchangeable for Bearer Notes of another Specified Denomination.

(b) Title to Bearer Notes: Title to Bearer Notes and the Coupons will pass by delivery. In the case of Bearer Notes, "Holder" means the holder of such Bearer Note and "Noteholder" and "Couponholder" shall be construed accordingly.

(c) Registered Notes: Registered Notes are in the Specified Denomination(s), which may include a minimum denomination specified in the relevant Final Terms and higher integral multiples of a smaller amount specified in the relevant Final Terms.

(d) Title to Registered Notes: The Registrar will maintain the register in accordance with the provisions of the Agency Agreement. A certificate (each a "Note Certificate") will be issued to each Holder of Registered Notes in respect of its registered holding. Each Note Certificate will be numbered serially with an identifying number which will be recorded in the Register. In the case of Registered Notes, "Holder" means the person in whose name such Registered Note is for the time being registered in the Register (or, in the case of a joint holding, the first named thereof) and "Noteholder" shall be construed accordingly.

(e) Ownership: The Holder of any Note or Coupon shall (except as otherwise required by law) be treated as its absolute owner for all purposes (whether or not it is overdue and regardless of any notice of ownership, trust or any other interest therein, any writing thereon or, in the case of Registered Notes, on the Note Certificate relating thereto (other than the endorsed form of transfer) or any notice of any previous loss or theft thereof) and no Person shall be liable for so treating such Holder. No person shall have any right to enforce any term or condition of any Note under the Contracts (Rights of Third Parties) Act 1999.
(f) **Transfers of Registered Notes**: Subject to Conditions 3(i) (Form, Denomination and Title — Closed periods) and 3(j) (Form, Denomination and Title — Regulations concerning transfers and registration) below, a Registered Note may be transferred upon surrender of the relevant Note Certificate, with the endorsed form of transfer duly completed, at the Specified Office of the Registrar or any Transfer Agent, together with such evidence as the Registrar or (as the case may be) such Transfer Agent may reasonably require to prove the title of the transferor and the authority of the individuals who have executed the form of transfer; *provided, however, that* a Registered Note may not be transferred unless the principal amount of Registered Notes transferred and (where not all of the Registered Notes held by a Holder are being transferred) the principal amount of the balance of Registered Notes not transferred are Specified Denominations. Where not all the Registered Notes represented by the surrendered Note Certificate are the subject of the transfer, a new Note Certificate in respect of the balance of the Registered Notes will be issued to the transferor.

(g) **Registration and delivery of Note Certificates**: Within five business days of the surrender of a Note Certificate in accordance with Condition 3(f) (Form, Denomination and Title — Transfers of Registered Notes), the Registrar will register the transfer in question and deliver a new Note Certificate of a like principal amount to the Registered Notes transferred to each relevant Holder at its Specified Office or (as the case may be) the Specified Office of any Transfer Agent or (at the request and risk of any such relevant Holder) by uninsured first class mail (airmail if overseas) to the address specified for the purpose by such relevant Holder. In this Condition 3(g), "business day" means a day on which commercial banks are open for general business (including dealings in foreign currencies) in the city where the Registrar or (as the case may be) the relevant Transfer Agent has its Specified Office.

(h) **No charge**: The transfer of a Registered Note will be effected without charge by or on behalf of the Issuer or the Registrar or any Transfer Agent but against such indemnity as the Registrar or (as the case may be) such Transfer Agent may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such transfer.

(i) **Closed periods**: Noteholders may not require transfers to be registered during the period of 15 days ending on the due date for any payment of principal or interest in respect of the Registered Notes.

(j) **Regulations concerning transfers and registration**: All transfers of Registered Notes and entries on the Register are subject to the detailed regulations concerning the transfer of Registered Notes scheduled to the Agency Agreement. The regulations may be changed by the Issuer with the prior written approval of the Registrar. A copy of the current regulations will be mailed (free of charge) by the Registrar to any Noteholder who requests in writing a copy of such regulations.

4. **Status of the Notes**

The Notes constitute direct, general and unconditional obligations of the Issuer which will at all times rank *pari passu* among themselves and at least *pari passu* with all other present and future unsecured obligations of the Issuer, save for such obligations as may be preferred by provisions of law that are both mandatory and of general application.

5. **Negative Pledge**

So long as any Note remains outstanding, the Issuer shall not, and the Issuer shall procure that none of its Principal Subsidiaries will, create or permit to subsist any Security Interest upon the whole or any part of its present or future undertaking, assets or revenues (including uncalled capital) to secure any Relevant Indebtedness without (a) at the same time or prior thereto securing the Notes equally and rateably therewith or (b) providing such other security for the Notes as may be approved by an Extraordinary Resolution of Noteholders.

6. **Fixed Rate Note Provisions**

(a) **Application**: This Condition 6 is applicable to the Notes only if the Fixed Rate Note Provisions are specified in the relevant Final Terms as being applicable.

(b) **Accrual of interest**: The Notes bear interest from the Interest Commencement Date at the Rate of Interest payable in arrear on each Interest Payment Date, subject as provided in Condition 10 (Payments — Bearer Notes) or Condition 11 (Payments — Registered Notes). Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 6 (as
well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

(c) **Fixed Coupon Amount:** The amount of interest payable in respect of each Note for any Interest Period shall be the relevant Fixed Coupon Amount and, if the Notes are in more than one Specified Denomination, shall be the relevant Fixed Coupon Amount in respect of the relevant Specified Denomination.

(d) **Calculation of interest amount:** The amount of interest payable in respect of each Note for any period for which a Fixed Coupon Amount is not specified shall be calculated by applying the Rate of Interest to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of such Note divided by the Calculation Amount. For this purpose a "sub-unit" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

7. **Floating Rate Note Provisions**

(a) **Application:** This Condition 7 is applicable to the Notes only if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable.

(b) **Accrual of interest:** The Notes bear interest from the Interest Commencement Date at the Rate of Interest payable in arrear on each Interest Payment Date, subject as provided in Condition 10 (Payments — Bearer Notes) or Condition 11 (Payments — Registered Notes). Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 7(b) (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is five days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such fifth day (except to the extent that there is any subsequent default in payment).

(c) **Screen Rate Determination:** If Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be determined by the Calculation Agent on the following basis:

(i) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as at the Relevant Time on the relevant Interest Determination Date;

(ii) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as at the Relevant Time on the relevant Interest Determination Date;

(iii) if, in the case of Condition 7(c)(i), such rate does not appear on that page or, in the case of Condition 7(c)(ii), fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Calculation Agent will:

(A) request the principal Relevant Financial Centre office of each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time; and

(B) determine the arithmetic mean of such quotations; and

(iv) if fewer than two such quotations are provided as requested, the Calculation Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Calculation Agent) quoted by major banks in the Principal Financial Centre of the Specified Currency, selected by the Issuer, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant Interest Period for loans in the
Specified Currency to leading European banks for a period equal to the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate of Interest for such Interest Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined; provided, however, that if the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to the Notes during such Interest Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the Notes in respect of a preceding Interest Period.

(d) ISDA Determination: If ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be the sum of the Margin and the relevant ISDA Rate where “ISDA Rate” in relation to any Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

(i) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the relevant Final Terms;

(ii) the Designated Maturity (as defined in the ISDA Definitions) is a period specified in the relevant Final Terms; and

(iii) the relevant Reset Date (as defined in the ISDA Definitions) is either (A) if the relevant Floating Rate Option is based on the London inter-bank offered rate (LIBOR) for a currency, the first day of that Interest Period or (B) in any other case, as specified in the relevant Final Terms.

(e) Linear Interpolation: If Linear Interpolation is specified as applicable in respect of an Interest Period in the relevant Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the relevant Final Terms) or the relevant Floating Rate Option (where ISDA Determination is specified as applicable in the relevant Final Terms), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period provided however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

(f) Maximum or Minimum Rate of Interest: If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the relevant Final Terms, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified.

(g) Calculation of Interest Amount: The Calculation Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each Interest Period, calculate the Interest Amount payable in respect of each Note for such Interest Period. The Interest Amount will be calculated by applying the Rate of Interest for such Interest Period to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of the relevant Note divided by the Calculation Amount. For this purpose a “sub-unit” means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

(h) Calculation of other amounts: If the relevant Final Terms specifies that any other amount is to be calculated by the Calculation Agent, the Calculation Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Calculation Agent in the manner specified in the relevant Final Terms.

(i) Publication: The Calculation Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant Interest Payment Date, and any other amount(s) required to be determined by
it together with any relevant payment date(s) to be notified to the Paying Agents and each competent authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation as soon as practicable after such determination but (in the case of each Rate of Interest, Interest Amount and Interest Payment Date) in any event not later than the first day of the relevant Interest Period. Notice thereof shall also promptly be given to the Noteholders. The Calculation Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Interest Period. If the Calculation Amount is less than the minimum Specified Denomination the Calculation Agent shall publish the Interest Amount in relation to the Calculation Amount and the Interest Amount in respect of a Note having the minimum Specified Denomination.

(j) **Notifications etc.:** All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition 7 by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer, the Paying Agents and, in the case of Registered Notes, the Registrar and the Transfer Agents, the Noteholders and the Couponholders and (subject as aforesaid) no liability to any such Person will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

(k) **Benchmark Replacement:** In addition, notwithstanding the provisions above in this Condition 7, if the Issuer, in consultation with the party responsible for determining the Rate of Interest (being the Fiscal Agent, the Calculation Agent or such other party specified in the applicable Final Terms, as applicable), determines that a Benchmark Event has occurred in relation to the Reference Rate when any Rate of Interest (or the relevant component part thereof) remains to be determined by such Reference Rate, then the following provisions shall apply:

(i) the Issuer shall use reasonable endeavours to appoint, as soon as reasonably practicable, an Independent Adviser to determine (acting in good faith and in a commercially reasonable manner), no later than 5 Business Days prior to the relevant Interest Determination Date relating to the next succeeding Interest Period (the "IA Determination Cut-off Date"), a Successor Rate or, alternatively, if there is no Successor Rate, an Alternative Reference Rate for purposes of determining the Rate of Interest (or the relevant component part thereof) applicable to the Notes;

(ii) if the Issuer is unable to appoint an Independent Adviser, or the Independent Adviser appointed by it fails to determine a Successor Rate or an Alternative Reference Rate prior to the IA Determination Cut-off Date, the Issuer (acting in good faith and in a commercially reasonable manner) may determine a Successor Rate or, if there is no Successor Rate, an Alternative Reference Rate;

(iii) if a Successor Rate or, failing which, an Alternative Reference Rate (as applicable) is determined in accordance with the preceding provisions, such Successor Rate or, failing which, an Alternative Reference Rate (as applicable) shall be the Reference Rate for each of the future Interest Periods (subject to the subsequent operation of, and to adjustment as provided in, this Condition 7(k); provided, however, that if subparagraph (ii) applies and the Issuer is unable to or does not determine a Successor Rate or an Alternative Reference Rate prior to the relevant Interest Determination Date, then the Rate of Interest for the next succeeding Interest Period shall be determined by reference to the fallback provisions of Condition 7(c); for the avoidance of doubt, the proviso in this subparagraph (iii) shall apply to the relevant Interest Period only and any subsequent Interest Periods (as applicable) are subject to the subsequent operation of, and to adjustment as provided in, this Condition 7(k);

(iv) if the Independent Adviser or the Issuer determines a Successor Rate or, failing which, an Alternative Reference Rate (as applicable) in accordance with the above provisions, the Independent Adviser or the Issuer (as applicable), may also specify changes to these Conditions, including but not limited to the Day Count Fraction, Relevant Screen Page, Business Day Convention, Business Day, Additional Business Centres, Interest Determination Date and/or the definition of Reference Rate applicable to the Notes, and the method for determining the fallback rate in relation to the Notes, in order to follow market practice in relation to the Successor Rate or the Alternative Reference Rate (as applicable). If the Independent Adviser (in consultation with the Issuer) or the Issuer (as applicable), determines that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Reference Rate (as applicable) and determines the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall be applied to the Successor Rate or the Alternative Reference Rate (as applicable). If
the Independent Adviser or the Issuer (as applicable) is unable to determine the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Successor Rate or Alternative Reference Rate (as applicable) will apply without an Adjustment Spread. For the avoidance of doubt, the Fiscal Agent shall, at the direction and expense of the Issuer, effect such consequential amendments to the Agency Agreement and these Conditions as may be required in order to give effect to this Condition 7(k). Noteholder consent shall not be required in connection with effecting the Successor Rate or Alternative Reference Rate (as applicable) or such other changes, including for the execution of any documents or other steps by the Fiscal Agent (if required); and

(v) the Issuer shall promptly, following the determination of any Successor Rate or Alternative Reference Rate (as applicable), give notice thereof to the Fiscal Agent and the Noteholders, which shall specify the effective date(s) for such Successor Rate or Alternative Reference Rate (as applicable) and any consequential changes made to these Conditions.

For the purposes of this Condition 7(k):

"Adjustment Spread" means a spread (which may be positive or negative) or formula or methodology for calculating a spread, which the Independent Adviser (in consultation with the Issuer) or the Issuer (as applicable), determines is required to be applied to the Successor Rate or the Alternative Reference Rate (as applicable) in order to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as applicable) to Noteholders and Couponholders as a result of the replacement of the Reference Rate with the Successor Rate or the Alternative Reference Rate (as applicable) and is the spread, formula or methodology which:

(a) in the case of a Successor Rate, is formally recommended in relation to the replacement of the Reference Rate with the Successor Rate by any Relevant Nominating Body; or

(b) in the case of a Successor Rate for which no such recommendation has been made or in the case of an Alternative Reference Rate, the Independent Adviser (in consultation with the Issuer) or the Issuer (as applicable) determines is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Reference Rate (as applicable); or

(c) if no such industry standard is recognised or acknowledged, the Independent Adviser (in consultation with the Issuer) or the Issuer in its discretion (as applicable), determines (acting in good faith and in a commercially reasonable manner) to be appropriate;

"Alternative Reference Rate" means the rate that the Independent Adviser or the Issuer (as applicable) determines has replaced the relevant Reference Rate in customary market usage in the international debt capital markets for the purposes of determining rates of interest in respect of bonds denominated in the Specified Currency and of a comparable duration to the relevant Interest Period, or, if the Independent Adviser or the Issuer (as applicable) determines that there is no such rate, such other rate as the Independent Adviser or the Issuer (as applicable) determines in its discretion (acting in good faith and in a commercially reasonable manner) is most comparable to the relevant Reference Rate;

"Benchmark Event" means:

(a) the Reference Rate ceasing to be published for a period of at least five Business Days or ceasing to exist; or

(b) the later of (i) the making of a public statement by the administrator of the Reference Rate that it will, on or before a specified date, cease publishing the Reference Rate permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of the Reference Rate) and (ii) the date falling six months prior to the date specified in (b)(i) above; or

(c) the making of a public statement by the supervisor of the administrator of the Reference Rate that the Reference Rate has been permanently or indefinitely discontinued; or

(d) the later of (i) the making of a public statement by the supervisor of the administrator of the Reference Rate that the Reference Rate will, on or before a specified date, be permanently or indefinitely discontinued and (ii) the date falling six months prior to the date specified in (d)(i) above;
(e) the later of (i) the making of a public statement by the supervisor of the administrator of the Reference Rate that means the Reference Rate will be prohibited from being used or that its use will be subject to restrictions or adverse consequences, in each case on or before a specified date and (ii) the date falling six months prior to the specified date referred to in (e)(i) above; or

(f) it has or will prior to the next Interest Determination Date become unlawful for any Paying Agent, the Fiscal Agent, the Calculation Agent, the Issuer or other party to calculate any payments due to be made to any Noteholder or Couponholder using the Reference Rate (including, without limitation, under the Benchmarks Regulation (EU) 2016/1011, if applicable); or

(g) the later of (i) the making of a public statement by the supervisor of the administrator of the Reference Rate announcing that such Reference Rate is or will, on or before a specified date, be no longer representative or may no longer be used and (ii) the date falling six months prior to the specified date referred to in (g)(i) above;

"Independent Adviser" means an independent financial institution of international repute or other independent financial adviser experienced in the international debt capital markets, in each case appointed by the Issuer at its own expense;

"Relevant Nominating Body" means, in respect of a reference rate:

(A) the central bank for the currency to which the reference rate relates, or any central bank or other supervisory authority which is responsible for supervising the administrator of the reference rate; or

(B) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of (a) the central bank for the currency to which the reference rate relates, (b) any central bank or other supervisory authority which is responsible for supervising the administrator of the reference rate, (c) a group of the aforementioned central banks or other supervisory authorities, or (d) the Financial Stability Board or any part thereof; and

"Successor Rate" means the rate that the Independent Adviser or the Issuer (as applicable) determines is a successor to or replacement of the Reference Rate which is formally recommended by any Relevant Nominating Body.

(a) Application: This Condition 8 is applicable to the Notes only if the Zero Coupon Note Provisions are specified in the relevant Final Terms as being applicable.

(b) Late payment on Zero Coupon Notes: If the Redemption Amount payable in respect of any Zero Coupon Note is improperly withheld or refused, the Redemption Amount shall thereafter be an amount equal to the sum of:

(i) the Reference Price; and

(ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price on the basis of the relevant Day Count Fraction from (and including) the Issue Date to (but excluding) whichever is the earlier of (A) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (B) the day which is five days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such fifth day (except to the extent that there is any subsequent default in payment).

9. Redemption and Purchase

(a) Scheduled redemption: Unless previously redeemed, or purchased and cancelled, the Notes will be redeemed at their Final Redemption Amount on the Maturity Date, subject as provided in Condition 10 (Payments — Bearer Notes) or Condition 11 (Payments — Registered Notes).

(b) Redemption for tax reasons: The Notes may be redeemed at the option of the Issuer in whole, but not in part:
(i) at any time (if the Floating Rate Note Provisions are not specified in the relevant Final Terms as being applicable); or

(ii) on any Interest Payment Date (if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable),

on giving not less than 10 nor more than 60 days' notice to the Noteholders (which notice shall be irrevocable), at their Early Redemption Amount (Tax), together with interest accrued (if any) to the date fixed for redemption, if:

(A) the Issuer has or will become obliged to pay additional amounts as provided or referred to in Condition 12 (Taxation) as a result of any change in, or amendment to, the laws or regulations of the Republic of Finland or any political subdivision or any authority thereof or therein having power to tax, or any change in the application or official interpretation of such laws or regulations (including a holding by a court of competent jurisdiction), which change or amendment becomes effective on or after the date of issue of the first Tranche of the Notes; and

(B) such obligation cannot be avoided by the Issuer taking reasonable measures available to it,

provided, however, that no such notice of redemption shall be given earlier than:

(1) where the Notes may be redeemed at any time, 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts if a payment in respect of the Notes were then due; or

(2) where the Notes may be redeemed only on an Interest Payment Date, 60 days prior to the Interest Payment Date occurring immediately before the earliest date on which the Issuer would be obliged to pay such additional amounts if a payment in respect of the Notes were then due.

Prior to the publication of any notice of redemption pursuant to this Condition 9(b), the Issuer shall deliver to the Fiscal Agent (A) a certificate signed by two directors of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer to redeem have occurred and (B) an opinion of independent legal advisers of recognised standing to the effect that the Issuer has or will become obliged to pay such additional amounts as a result of such change or amendment. Upon the expiry of any such notice as is referred to in this Condition 9(b), the Issuer shall be bound to redeem the Notes in accordance with this Condition 9(b).

(c) Redemption at the option of the Issuer (Call Option): If the Issuer Call is specified in the relevant Final Terms as being applicable, the Notes may be redeemed at the option of the Issuer in whole or, if so specified in the relevant Final Terms, in part on any Optional Redemption Date (Call) at the relevant Optional Redemption Amount (Call) on the Issuer's giving not less than 10 nor more than 60 days' notice to the Noteholders (which notice shall be irrevocable) and shall oblige the Issuer to redeem the Notes or, as the case may be, the Notes specified in such notice on the relevant Optional Redemption Date (Call) at the Optional Redemption Amount (Call) plus accrued interest (if any) to such date.

(d) Redemption at the option of the Issuer (Make-Whole): If the Issuer Make-Whole is specified in the relevant Final Terms, the Issuer may, having given:

(i) not less than 10 nor more than 30 days' notice to the Noteholders in accordance with Condition 19 (Notices); and

(ii) not less than seven days before the giving of notice referred to in (i) above, notice to the Fiscal Agent, the Quotation Agent and such other parties as may be specified in the Final Terms,

(which notices shall be irrevocable (other than in the circumstances set out in the next sentence) and shall specify the date fixed for redemption (each such date, a "Make-Whole Redemption Date")).

In whole or, if so specified in the relevant Final Terms, in part, the Notes then outstanding at any time prior to their Maturity Date at their Make-Whole Redemption Amount. Any such notice of redemption may, at the Issuer's discretion, be subject to one or more conditions precedent, in which case such notice shall state that, in the Issuer's discretion, the Make-Whole Redemption Date may be delayed until such time as any or all such conditions shall be satisfied (or waived by the Issuer in its sole discretion), or such redemption may not occur and such notice may be rescinded in the event that any or all such conditions shall not have
been satisfied (or waived by the Issuer in its sole discretion) by the Make-Whole Redemption Date, or by the Make-Whole Redemption Date so delayed.

For the purposes of this Condition 9(d), the following expressions shall have the following meanings:

"Calculation Date" means the third Business Day prior to the Make-Whole Redemption Date.

"Make-Whole Redemption Amount" means the sum of:

(i) the greater of (x) the Final Redemption Amount of the Notes so redeemed and (y) the sum of the then present values of the remaining scheduled payments of principal and interest on such Notes to maturity (or, if Par Call Period is specified in the applicable Final Terms, to the Par Call Commencement Date) (excluding any interest accruing on the Notes to, but excluding, the relevant Make-Whole Redemption Date) each such remaining scheduled payment of principal and interest being discounted to the relevant Make-Whole Redemption Date on either an annual or a semi-annual basis (as specified in the relevant Final Terms) at the Make-Whole Redemption Rate plus a Make-Whole Redemption Margin; and

(ii) any interest accrued but not paid on the Notes to, but excluding, the Make-Whole Redemption Date, as determined by the Quotation Agent and as notified on the Calculation Date by the Quotation Agent to the Issuer, the Fiscal Agent and such other parties as may be specified in the Final Terms.

"Make-Whole Redemption Margin" means the margin specified as such in the relevant Final Terms.

"Make-Whole Redemption Rate" means the average of the two quotations given by the Reference Dealers of the mid-market yield to maturity of the Reference Security on the third Business Day preceding the Make-Whole Redemption Date at 11:00 a.m. (Central European Time ("CET")) ("Reference Dealer Quotation").

"Quotation Agent" means any Dealer or any other international credit institution or financial services institution appointed by the Issuer for the purpose of determining the Make-Whole Redemption Amount, in each case as such Quotation Agent is identified in the relevant Final Terms.

"Reference Dealers" means each of the two banks, as specified in the relevant Final Terms or, if the two reference dealers are not so specified, the two banks as selected by the Quotation Agent, which are primary European government security dealers, and their respective successors, or market makers in pricing corporate bond issues.

"Reference Security" means the security specified as such in the relevant Final Terms. If a Reference Security is no longer outstanding, a Similar Security will be chosen by the Quotation Agent at 11:00 a.m. (CET) on the third Business Day preceding the Make-Whole Redemption Date, quoted in writing by the Quotation Agent to the Issuer and published in accordance with Condition 19 (Notices).

"Similar Security" means a reference bond or reference bonds issued by the same issuer as the Reference Security having actual or interpolated maturity comparable with the remaining term of the Notes that would be utilised, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the Notes.

The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Quotation Agent shall (in the absence of manifest error) be final and binding upon all parties.

(e) Partial redemption: If the Notes are to be redeemed in part only on any date in accordance with Condition 9(c) (Redemption and Purchase — Redemption at the option of the Issuer (Call Option)) or Condition 9(d) (Redemption and Purchase — Redemption at the option of the Issuer (Make-Whole)), as applicable, the Notes to be redeemed shall be selected by the drawing of lots in such place as the Fiscal Agent approves and in such manner as the Fiscal Agent considers appropriate, subject to compliance with applicable law, the rules of each competent authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation and the notice to Noteholders referred to in Condition 9(c) (Redemption and Purchase — Redemption at the option of the Issuer (Call Option)) or Condition 9(d) (Redemption and Purchase — Redemption at the option of the Issuer (Make-Whole)).
Whole), as applicable, shall specify the serial numbers of the Notes so to be redeemed. If any Maximum Redemption Amount or Minimum Redemption Amount is specified in the relevant Final Terms, then the Optional Redemption Amount (Call) or Make-Whole Redemption Amount, as applicable, shall in no event be greater than the maximum or be less than the minimum so specified.

(f) **Clean-up Call Option**: If the Clean-up Call is specified in the relevant Final Terms as being applicable, in the event that Notes representing an aggregate amount equal to or exceeding 75 per cent. of the principal amount of the Notes have been purchased and cancelled or redeemed by the Issuer (other than as a result of the exercise by the Issuer of its redemption right under Condition 9(c) (Redemption at the Option of the Issuer (Call Option)) the Issuer may, on giving not less than 10 nor more than 60 days' irrevocable notice to the Noteholders (or such other notice period as may be specified in the applicable Final Terms), redeem on the date specified in such notice all, but not some only, of the remaining Notes in that Series at the Optional Redemption Amount specified in the applicable Final Terms together (if appropriate) with interest accrued but unpaid to (but excluding) the date fixed for redemption.

(g) **Redemption at the option of Noteholders**: If the Investor Put is specified in the relevant Final Terms as being applicable, the Issuer shall, at the option of the holder of any Note redeem such Note on the Optional Redemption Date (Put) specified in the relevant Put Option Notice at the relevant Optional Redemption Amount (Put) together with interest (if any) accrued to such date. Any conditions and/or circumstances that must be satisfied before an Investor Put can be exercised will be set out in the relevant Final Terms. In order to exercise the option contained in this Condition 9(g), the holder of a Note must, not less than 30 nor more than 60 days before the relevant Optional Redemption Date (Put), deposit with any Paying Agent such Note together with all unmatured Coupons relating thereto and a duly completed Put Option Notice in the form obtainable from any Paying Agent. The Paying Agent with which a Note is so deposited shall deliver a duly completed Put Option Receipt to the depositing Noteholder. No Note, once deposited with a duly completed Put Option Notice in accordance with this Condition 9(g), may be withdrawn; provided, however, that if, prior to the relevant Optional Redemption Date (Put), any such Note becomes immediately due and payable or, upon due presentation of any such Note on the relevant Optional Redemption Date (Put), payment of the redemption moneys is improperly withheld or refused, the relevant Paying Agent shall mail notification thereof to the depositing Noteholder at such address as may have been given by such Noteholder in the relevant Put Option Notice and shall hold such Note at its Specified Office for collection by the depositing Noteholder against surrender of the relevant Put Option Receipt. For so long as any outstanding Note is held by a Paying Agent in accordance with this Condition 9(g), the depositor of such Note and not such Paying Agent shall be deemed to be the holder of such Note for all purposes.

(h) **No other redemption**: The Issuer shall not be entitled to redeem the Notes otherwise than as provided in Conditions 9(a) (Redemption and Purchase — Scheduled redemption) to 9(g) (Redemption and Purchase — Redemption at the option of Noteholders).

(i) **Early redemption of Zero Coupon Notes**: Unless otherwise specified in the relevant Final Terms, the Redemption Amount payable on redemption of a Zero Coupon Note at any time before the Maturity Date shall be an amount equal to the sum of:

(i) the Reference Price; and

(ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date to (but excluding) the date fixed for redemption or (as the case may be) the date upon which the Note becomes due and payable.

Where such calculation is to be made for a period which is not a whole number of years, the calculation in respect of the period of less than a full year shall be made on the basis of such Day Count Fraction as may be specified in the Final Terms for the purposes of this Condition 9(i) or, if none is so specified, a Day Count Fraction of 30E/360.

(j) **Purchase**: The Issuer or any of its respective Subsidiaries may at any time purchase Notes in the open market or otherwise and at any price, provided that all unmatured Coupons are purchased therewith. Such Notes may be held, reissued, resold or, at the option of the Issuer, surrendered to any Paying Agent for cancellation.

(k) **Cancellation**: All Notes must be cancelled if they are redeemed by the Issuer pursuant to Condition 9(c) (Redemption and Purchase — Redemption at the option of the Issuer (Call Option)), Condition 9(d)
Redemption and Purchase — Redemption at the option of the Issuer (Make-Whole)) or purchased and
cancelled pursuant to Condition 9(j) (Redemption and Purchase — Purchase) and, in each case, any
unmatured Coupons attached to or surrendered with them shall be cancelled and may not be reissued or
resold.

10. Payments — Bearer Notes

This Condition 10 is only applicable to Bearer Notes.

(a) Principal: Payments of principal shall be made only against presentation and (provided that payment is
made in full) surrender of Bearer Notes at the Specified Office of any Paying Agent outside the United
States by cheque drawn in the currency in which the payment is due on, or by transfer to an account
denominated in that currency (or, if that currency is euro, any other account to which euro may be credited
or transferred) and maintained by the payee with, a bank in the Principal Financial Centre of that currency
(in the case of a sterling cheque, a town clearing branch of a bank in the City of London).

(b) Interest: Payments of interest shall, subject to Condition 10(h) (Payments — Bearer Notes — Payments
other than in respect of matured Coupons), be made only against presentation and (provided that payment
is made in full) surrender of the appropriate Coupons at the Specified Office of any Paying Agent outside
the United States in the manner described in Condition 10(a) (Payments — Bearer Notes — Principal).

(c) Payments in New York City: Payments of principal or interest may be made at the Specified Office of a
Paying Agent in New York City if (i) the Issuer has appointed Paying Agents outside the United States
with the reasonable expectation that such Paying Agents will be able to make payment of the full amount
of the interest on the Notes in the currency in which the payment is due when due, (ii) payment of the full
amount of such interest at the offices of all such Paying Agents is illegal or effectively precluded by
exchange controls or other similar restrictions and (iii) payment is permitted by applicable United States
law.

(d) Payments subject to fiscal laws: All payments in respect of the Bearer Notes are subject in all cases to any
applicable fiscal or other laws and regulations in the place of payment, but without prejudice to the
provisions of Condition 12 (Taxation). No commissions or expenses shall be charged to the Noteholders
or Couponholders in respect of such payments.

(e) Deductions for unmatured Coupons: If the relevant Final Terms specifies that the Fixed Rate Note
Provisions are applicable and a Bearer Note is presented without all unmatured Coupons relating thereto:

(i) if the aggregate amount of the missing Coupons is less than or equal to the amount of principal due
for payment, a sum equal to the aggregate amount of the missing Coupons will be deducted from
the amount of principal due for payment, provided, however, that if the gross amount available for
payment is less than the amount of principal due for payment, the sum deducted will be that
proportion of the aggregate amount of such missing Coupons which the gross amount actually
available for payment bears to the amount of principal due for payment;

(ii) if the aggregate amount of the missing Coupons is greater than the amount of principal due for
payment:

(A) so many of such missing Coupons shall become void (in inverse order of maturity) as will
result in the aggregate amount of the remainder of such missing Coupons (the “Relevant
Coupons”) being equal to the amount of principal due for payment; provided, however, that
where this Condition 10(e)(ii)(A) would otherwise require a fraction of a missing Coupon to
become void, such missing Coupon shall become void in its entirety; and

(B) a sum equal to the aggregate amount of the Relevant Coupons (or, if less, the amount of
principal due for payment) will be deducted from the amount of principal due for payment;
provided, however, that, if the gross amount available for payment is less than the amount of
principal due for payment, the sum deducted will be that proportion of the aggregate amount
of the Relevant Coupons (or, as the case may be, the amount of principal due for payment)
which the gross amount actually available for payment bears to the amount of principal due
for payment.
Each sum of principal so deducted shall be paid in the manner provided in Condition 10(a) (Payments — Bearer Notes — Principal) against presentation and (provided that payment is made in full) surrender of the relevant missing Coupons.

(f) **Unmatured Coupons void**: If the relevant Final Terms specifies that this Condition 10(f) is applicable or that the Floating Rate Note Provisions are applicable, on the due date for final redemption of any Note or early redemption in whole of such Note pursuant to Conditions 9(b) (Redemption and Purchase — Redemption for tax reasons), 9(c) (Redemption and Purchase — Redemption at the option of the Issuer (Call Option)), 9(d) (Redemption and Purchase — Redemption at the option of the Issuer (Make-Whole)), 9(g) (Redemption and Purchase — Redemption at the option of Noteholders) or Condition 13 (Events of Default), all unmatured Coupons relating thereto (whether or not still attached) shall become void and no payment will be made in respect thereof.

(g) **Payments on business days**: If the due date for payment of any amount in respect of any Bearer Note or Coupon is not a Payment Business Day in the place of presentation, the Holder shall not be entitled to payment in such place of the amount due until the next succeeding Payment Business Day in such place and shall not be entitled to any further interest or other payment in respect of any such delay.

(h) **Payments other than in respect of matured Coupons**: Payments of interest other than in respect of matured Coupons shall be made only against presentation of the relevant Bearer Notes at the Specified Office of any Paying Agent outside the United States (or in New York City if permitted by Condition 10(c) (Payments — Bearer Notes — Payments in New York City)).

(i) **Partial payments**: If a Paying Agent makes a partial payment in respect of any Bearer Note or Coupon presented to it for payment, such Paying Agent will endorse thereon a statement indicating the amount and date of such payment.

(j) **Exchange of Talons**: On or after the maturity date of the final Coupon which is (or was at the time of issue) part of a Coupon Sheet relating to the Bearer Notes, the Talon forming part of such Coupon Sheet may be exchanged at the Specified Office of the Fiscal Agent for a further Coupon Sheet (including, if appropriate, a further Talon but excluding any Coupons in respect of which claims have already become void pursuant to Condition 14 (Prescription)). Upon the due date for redemption of any Bearer Note, any unexchanged Talon relating to such Note shall become void and no Coupon will be delivered in respect of such Talon.

11. Payments — Registered Notes

This Condition 11 is only applicable to Registered Notes.

(a) **Principal**: Payments of principal shall be made by cheque drawn in the currency in which the payment is due drawn on, or, upon application by a Holder of a Registered Note to the Specified Office of the Fiscal Agent not later than the fifteenth day before the due date for any such payment, by transfer to an account denominated in that currency (or, if that currency is euro, any other account to which euro may be credited or transferred) and maintained by the payee with, a bank in the Principal Financial Centre of that currency (in the case of a sterling cheque, a town clearing branch of a bank in the City of London) and (in the case of redemption) upon surrender (or, in the case of part payment only, endorsement) of the relevant Note Certificates at the Specified Office of any Paying Agent.

(b) **Interest**: Payments of interest shall be made by cheque drawn in the currency in which the payment is due drawn on, or, upon application by a Holder of a Registered Note to the Specified Office of the Fiscal Agent not later than the fifteenth day before the due date for any such payment, by transfer to an account denominated in that currency (or, if that currency is euro, any other account to which euro may be credited or transferred) and maintained by the payee with, a bank in the Principal Financial Centre of that currency (in the case of a sterling cheque, a town clearing branch of a bank in the City of London) and (in the case of interest payable on redemption) upon surrender (or, in the case of part payment only, endorsement) of the relevant Note Certificates at the Specified Office of any Paying Agent.

(c) **Payments subject to fiscal laws**: All payments in respect of the Registered Notes are subject in all cases to any applicable fiscal or other laws and regulations in the place of payment, but without prejudice to the provisions of Condition 12 (Taxation). No commissions or expenses shall be charged to the Noteholders in respect of such payments.
(d) Payments on business days: Where payment is to be made by transfer to an account, payment instructions (for value the due date, or, if the due date is not Payment Business Day, for value the next succeeding Payment Business Day) will be initiated and, where payment is to be made by cheque, the cheque will be mailed (i) (in the case of payments of principal and interest payable on redemption) on the later of the due date for payment and the day on which the relevant Note Certificate is surrendered (or, in the case of part payment only, endorsed) at the Specified Office of a Paying Agent and (ii) (in the case of payments of interest payable other than on redemption) on the due date for payment. A Holder of a Registered Note shall not be entitled to any interest or other payment in respect of any delay in payment resulting from (A) the due date for a payment not being a Payment Business Day or (B) a cheque mailed in accordance with this Condition 11 arriving after the due date for payment or being lost in the mail.

(e) Partial payments: If a Paying Agent makes a partial payment in respect of any Registered Note, the Registrar will annotate the Register with a record of the amount and date of such payment and, in the case of partial payment upon presentation of a Note Certificate, endorse on the relevant Note Certificate a statement indicating the amount and the date of such payment.

(f) Record date: Each payment in respect of a Registered Note will be made to the person shown as the Holder in the Register at the close of business on the Clearing System Business Day before the due date for such payment (the "Record Date") where "Clearing System Business Day" means a day on which each of Clearstream Banking S.A., Luxembourg and Euroclear Bank SA/NV is open for business. Where payment in respect of a Registered Note is to be made by cheque, the cheque will be mailed to the address shown as the address of the Holder in the Register at the opening of business on the relevant Record Date.

12. Taxation

(a) Gross up: All payments of principal and interest in respect of the Notes and the Coupons by or on behalf of the Issuer shall be made free and clear of, and without withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of the Republic of Finland or any political subdivision therein or any authority therein or thereof having power to tax, unless the withholding or deduction of such taxes, duties, assessments, or governmental charges is required by law. In that event, the Issuer shall pay such additional amounts as will result in receipt by the Noteholders and the Couponholders after such withholding or deduction of such amounts as would have been received by them had no such withholding or deduction been required, except that no such additional amounts shall be payable in respect of any Note or Coupon:

(i) held by or on behalf of a holder which is liable to such taxes, duties, assessments or governmental charges in respect of such Note or Coupon by reason of its having some connection with the jurisdiction by which such taxes, duties, assessments or charges have been imposed, levied, collected, withheld or assessed other than the mere holding of the Note or Coupon; or

(ii) presented for payment more than 30 days after the Relevant Date except to the extent that the holder of such Note or Coupon would have been entitled to such additional amounts on presenting such Note or Coupon for payment on the last day of such period of 30 days assuming that day to have been a Payment Day.

(b) Taxing jurisdiction: If the Issuer becomes subject at any time to any taxing jurisdiction other than the Republic of Finland, references in these Conditions to the Republic of Finland shall be construed as references to the Republic of Finland and/or such other jurisdiction.

13. Events of Default

If any of the following events occur:

(a) Non-payment: the Issuer fails to pay any amount of principal in respect of the Notes within seven days of the due date for payment thereof or fails to pay any amount of interest in respect of the Notes within fourteen days of the due date for payment thereof;

(b) Breach of other obligations: the Issuer defaults in the performance or observance of any of its other obligations under or in respect of the Notes and such default remains unremedied for 30 days after written notice thereof, addressed to the Issuer by any Noteholder, has been delivered to the Issuer or to the Specified Office of the Fiscal Agent;
(c) **Cross-acceleration:**

(i) any Indebtedness of the Issuer or any Principal Subsidiary (other than Non-recourse Securitisation Debt or Intra-Group Debt) is not paid when due (taking into account grace periods and extensions, if any) or any Indebtedness of the Issuer or any Principal Subsidiary (other than Non-recourse Securitisation Debt or Intra-Group Debt) is declared to be or otherwise becomes due and payable prior to its specified maturity by reason of the occurrence of an event of default (howsoever described); and

(ii) the aggregate of all Indebtedness referred to in Condition 13(c)(i) exceeds EUR 125,000,000 or its equivalent in other currencies;

(d) **Security enforced:** a secured party takes possession, or a receiver, manager or other similar officer is appointed, of the whole or a significant part of the undertaking, assets and revenues of the Issuer or any of its Principal Subsidiaries;

(e) **Insolvency etc.:** (i) the Issuer or any of its Principal Subsidiaries becomes insolvent or is unable to pay its debts as they fall due, (ii) an administrator or liquidator of the Issuer or any of its Principal Subsidiaries or the whole or a significant part of the undertaking, assets and revenues of the Issuer or any of its Principal Subsidiaries is appointed (or application for any such appointment is made), (iii) the Issuer or any of its Principal Subsidiaries takes any action for a readjustment or deferment of any of its obligations or makes a general assignment or an arrangement or composition with or for the benefit of its creditors or declares a moratorium in respect of any of its Indebtedness;

(f) **Winding up etc.:** an order is made or an effective resolution is passed for the winding up, liquidation or dissolution of the Issuer or any of its Principal Subsidiaries; or

(g) **Analogous event:** any event occurs which under the laws of the Republic of Finland has an analogous effect to any of the events referred to in Conditions 13(d) (**Events of Default — Security enforced**) to 13(f) (**Events of Default — Winding up etc.**),

then any Note may, by written notice addressed by the holder thereof to the Issuer and delivered to the Issuer or to the Specified Office of the Fiscal Agent, be declared immediately due and payable, whereupon it shall become immediately due and payable at its Early Termination Amount together with accrued interest (if any) without further action or formality.

14. **Prescription**

Claims for principal in respect of Bearer Notes shall become void unless the relevant Bearer Notes are presented for payment within ten years of the appropriate Relevant Date. Claims for interest in respect of Bearer Notes shall become void unless the relevant Coupons are presented for payment within five years of the appropriate Relevant Date. Claims for principal and interest on redemption in respect of Registered Notes shall become void unless the relevant Note Certificates are surrendered for payment within ten years of the appropriate Relevant Date.

15. **Replacement of Notes and Coupons**

If any Note, Note Certificate or Coupon is lost, stolen, mutilated, defaced or destroyed, it may be replaced at the Specified Office of the Fiscal Agent, in the case of Bearer Notes, or the Registrar, in the case of Registered Notes (and, if the Notes are then admitted to listing, trading and/or quotation by any competent authority, stock exchange and/or quotation system which requires the appointment of a Paying Agent or Transfer Agent in any particular place, the Paying Agent or Transfer Agent having its Specified Office in the place required by such competent authority, stock exchange and/or quotation system), subject to all applicable laws and competent authority, stock exchange and/or quotation system requirements, upon payment by the claimant of the expenses incurred in connection with such replacement and on such terms as to evidence, security, indemnity and otherwise as the Issuer may reasonably require. Mutilated or defaced Notes, Note Certificates or Coupons must be surrendered before replacements will be issued.

16. **Agents**

In acting under the Agency Agreement and in connection with the Notes and the Coupons, the Paying Agents act solely as agents of the Issuer and do not assume any obligations towards or relationship of agency or trust for or with any of the Noteholders or Couponholders.
The initial Paying Agents and their initial Specified Offices are listed below. The initial Calculation Agent (if any) is specified in the relevant Final Terms. The Issuer reserves the right at any time to vary or terminate the appointment of any Paying Agent and to appoint a successor fiscal agent or registrar or Calculation Agent and additional or successor paying agents; provided, however, that:

(a) the Issuer shall at all times maintain a Fiscal Agent and a registrar;
(b) if a Calculation Agent is specified in the relevant Final Terms, the Issuer shall at all times maintain a Calculation Agent; and
(c) if and for so long as the Notes are admitted to listing, trading and/or quotation by any competent authority, stock exchange and/or quotation system which requires the appointment of a Paying Agent in any particular place, the Issuer shall maintain a Paying Agent having its Specified Office in the place required by such competent authority, stock exchange and/or quotation system.

Notice of any change in any of the Paying Agents or in their Specified Offices shall promptly be given to the Noteholders.

17. Meetings of Noteholders; Modification and Waiver

(a) Meetings of Noteholders: The Agency Agreement contains provisions for convening meetings (including by way of conference call or by use of a video conference platform) of Noteholders to consider matters relating to the Notes, including the modification of any provision of these Conditions. Any such modification may be made if sanctioned by an Extraordinary Resolution. Such a meeting may be convened by the Issuer and shall be convened by them upon the request in writing of Noteholders holding not less than one-tenth of the aggregate principal amount of the outstanding Notes. The quorum at any meeting convened to vote on an Extraordinary Resolution will be two or more Persons holding or representing one more than half of the aggregate principal amount of the outstanding Notes or, at any adjourned meeting, two or more Persons being or representing Noteholders whatever the principal amount of the Notes held or represented; provided, however, that Reserved Matters may only be sanctioned by an Extraordinary Resolution passed at a meeting of Noteholders at which two or more Persons holding or representing not less than three-quarters or, at any adjourned meeting, one quarter of the aggregate principal amount of the outstanding Notes form a quorum. Any Extraordinary Resolution duly passed at any such meeting shall be binding on all the Noteholders and Couponholders, whether present or not.

(b) Modification: The Notes and these Conditions may be amended without the consent of the Noteholders or the Couponholders to correct a manifest error. In addition, the parties to the Agency Agreement may agree to modify any provision thereof, but the Issuer shall not agree, without the consent of the Noteholders, to any such modification unless it is of a formal, minor or technical nature, it is made to correct a manifest error or it is not materially prejudicial to the interests of the Noteholders.

18. Further Issues

The Issuer may from time to time, without the consent of the Noteholders or the Couponholders, create and issue further notes having the same terms and conditions as the Notes in all respects (or in all respects except for the first payment of interest) so as to form a single series with the Notes.

19. Notices

(a) Bearer Notes: Notices to the Holders of Bearer Notes shall be valid if published in a leading English language daily newspaper published in London (which is expected to be the Financial Times), if such publication is not practicable, in a leading English language daily newspaper having general circulation in Europe. Any such notice shall be deemed to have been given on the date of first publication (or if required to be published in more than one newspaper, on the first date on which publication shall have been made in all the required newspapers). Couponholders shall be deemed for all purposes to have notice of the contents of any notice given to the Holders of Bearer Notes.

(b) Registered Notes: Notices to the Holders of Registered Notes shall be sent to them by first class mail (or its equivalent) or (if posted to an overseas address) by airmail at their respective addresses on the Register. Any such notice shall be deemed to have been given on the fourth day after the date of mailing.

20. Currency Indemnity
If any sum due from the Issuer in respect of the Notes or the Coupons or any order or judgment given or made in relation thereto has to be converted from the currency (the "first currency") in which the same is payable under these Conditions or such order or judgment into another currency (the "second currency") for the purpose of (a) making or filing a claim or proof against the Issuer, (b) obtaining an order or judgment in any court or other tribunal or (c) enforcing any order or judgment given or made in relation to the Notes, the Issuer shall indemnify each Noteholder, on the written demand of such Noteholder addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Fiscal Agent, against any loss suffered as a result of any discrepancy between (i) the rate of exchange used for such purpose to convert the sum in question from the first currency into the second currency and (ii) the rate or rates of exchange at which such Noteholder may in the ordinary course of business purchase the first currency with the second currency upon receipt of a sum paid to it in satisfaction, in whole or in part, of any such order, judgment, claim or proof.

This indemnity constitutes a separate and independent obligation of the Issuer and shall give rise to a separate and independent cause of action.

21. Rounding

(a) For the purposes of any calculations referred to in these Conditions (unless otherwise specified in these Conditions or the relevant Final Terms), (i) all percentages resulting from such calculations will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with 0.000005 per cent. being rounded up to 0.00001 per cent.), (ii) all U.S. dollar amounts used in or resulting from such calculations will be rounded to the nearest cent (with one half cent being rounded up), (iii) all Japanese Yen amounts used in or resulting from such calculations will be rounded downwards to the next lower whole Japanese Yen amount, and (iv) all amounts denominated in any other currency used in or resulting from such calculations will be rounded to the nearest two decimal places in such currency, with 0.005 being rounded upwards.

22. Governing Law and Jurisdiction

(a) Governing law: The Notes and all non-contractual obligations arising out of or in connection with the Notes shall be governed by and construed in accordance with English law.

(b) English courts: The courts of England have exclusive jurisdiction to settle any dispute (a "Dispute") arising out of or in connection with the Notes (including any non-contractual obligation arising out of or in connection with the Notes).

(c) Appropriate forum: The Issuer agrees that the courts of England are the most appropriate and convenient courts to settle any Dispute and, accordingly, that it will not argue to the contrary.

(d) Rights of the Noteholders to take proceedings outside England: Condition 22(b) (English courts) is for the benefit of the Noteholders only. As a result, nothing in this Condition 22 prevents any Noteholder from taking proceedings relating to a Dispute ("Proceedings") in any other courts with jurisdiction. To the extent allowed by law, Noteholders may take concurrent Proceedings in any number of jurisdictions.

(e) Process agent: Without prejudice to any other mode of service allowed under any relevant law, the Issuer irrevocably agrees that the documents which start any Proceedings and any other documents required to be served in relation to those Proceedings may be served on it by being delivered to Nokia UK Limited as its agent at 740, Waterside Drive, Aztec West Business Park, Almondsbury, Bristol, BS32 4UF, United Kingdom or, if different, its registered office for the time being or at any address of the Issuer in the United Kingdom at which process may be served on it. The Issuer agrees that failure by an agent for service of process to notify it will not invalidate the proceedings concerned. If such person is not or ceases to be effectively appointed to accept service of process on behalf of the Issuer, the Issuer shall, on the written demand of any Noteholder addressed and delivered to the Issuer or to the Specified Office of the Fiscal Agent appoint a further person in England to accept service of process on its behalf and, failing such appointment within 15 days, any Noteholder shall be entitled to appoint such a person by written notice addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Fiscal Agent. Nothing in this Condition 22(e) shall affect the right of any Noteholder to serve process in any other manner permitted by law. This Condition applies to Proceedings in England and to Proceedings elsewhere.
FORM OF FINAL TERMS

PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "MiFID II"); or (ii) a customer within the meaning of Directive (EU) 2016/97, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the "Prospectus Regulation"). Consequently, no key information document required by Regulation (EU) No 1286/2014 (as amended, the "PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("UK"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("EUWA"); (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (the "FSMA") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, as amended, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "UK PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MiFID II product governance / Professional investors and ECPs only target market – Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in [Directive 2014/65/EU (as amended, "MiFID II")]; and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

UK MiFIR product governance / Professional investors and ECPs only target market – Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook ("COBS"), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("UK MiFIR"); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturer's target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "UK MiFIR Product Governance Rules") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

NOTIFICATION UNDER SECTION 309B(1)(c) OF THE SECURITIES AND FUTURES ACT (CHAPTER 289) OF SINGAPORE (as amended, the "SFA") - [Insert notice if classification of the Notes is not "prescribed capital markets products", pursuant to Section 309B of the SFA or Excluded Investment Products (as
defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products)]\(^1\)

    Duly authorised
1. LISTING
   (i) Admission to trading and listing: [[Application has been made/Application is expected to be made by the Issuer] (or on its behalf) for the Notes to be admitted to trading on Euronext Dublin's regulated market with effect from [            ].]
      [[Application has been made/Application is expected to be made by the Issuer] (or on its behalf) for the Notes to be admitted to listing on the Official List of Euronext Dublin with effect from [            ].]
   (ii) Estimate of total expenses related to admission to trading: [            ]

2. RATINGS
   Ratings: [[The Notes to be issued [have been/are expected to be] rated][The following ratings reflect ratings assigned to Notes of this type issued under the Programme generally]]:
      [Fitch Ratings Limited: [•]]
      [Moody's Italia S.r.l.: [•]]
      [S&P Global Ratings Europe Limited: [•]]
      [Need to include a brief explanation of the meaning of the ratings if this has previously been published by the rating provider.]

3. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE/OFFER
   [Save for any fees payable to the [Dealers/Managers], so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer. The [Dealers/Managers] and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business.][Not Applicable.]

4. [USE OF PROCEEDS/REASONS FOR THE OFFER
   [An amount equal to the net proceeds from the issue of the Notes will be applied by the Issuer for its general corporate purposes]
   [Other (set out use of proceeds here)]

5. [YIELD (Fixed Rate Notes only)
   Indication of yield: [           ]
   [The yield is calculated at the Issue Date on the basis of the Issue Price. It is not an indication of future yield.]

6. OPERATIONAL INFORMATION
   (i) ISIN: [           ]
   (ii) Common Code: [           ]
   (iii) CFI: [See[[include code], as updated, as set out on] the website of the Association of National Numbering Agencies (ANNA) or alternatively sourced from the responsible National Numbering Agency that assigned the ISIN/Not Applicable/Not Available]
   (iv) FISN: [See[[include code], as updated, as set out on] the website of the Association of National Numbering Agencies (ANNA) or alternatively sourced from the responsible National Numbering Agency that assigned the ISIN/Not Applicable/Not Available]
Numbering Agencies (ANNA) or alternatively sourced from the responsible National Numbering Agency that assigned the ISIN/Not Applicable/Not Available

Any clearing system(s) other than Euroclear Bank SA/NV and Clearstream Banking S.A. and the relevant identification number(s):

[ ]

Names and addresses of additional Paying Agent(s) (if any):

[ ]

Intended to be held in a manner which would allow Eurosystem eligibility:

[Yes] Note that the designation "yes" simply means that the Notes are intended upon issue to be deposited with one of the ICSDs as common safekeeper [(and registered in the name of a nominee of one of the ICSDs acting as common safekeeper)] [include this text for registered notes] and does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.

[No] Whilst the designation is specified as "no" at the date of these Final Terms, should the Eurosystem eligibility criteria be amended in the future such that the Notes are capable of meeting them the Notes may then be deposited with one of the ICSDs as common safekeeper [(and registered in the name of a nominee of one of the ICSDs acting as common safekeeper),] [include this text for registered notes]. Note that this does not necessarily mean that the Notes will then be recognised as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem at any time during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.

7. DISTRIBUTION

(i) Method of distribution: [Syndicated/Non-syndicated]

(ii) If syndicated, names of Dealers: [Not applicable/give names]

(iii) If non-syndicated, name of relevant Dealer: [Not applicable/give names]

(iv) U.S. Selling Restrictions: [Reg. S Category 2] (In the case of Bearer Notes) [TEFRA C/TEFRA D/TEFRA not applicable] (In the case of Registered Notes) [Not Applicable]

(v) Prohibition of Sales to EEA Retail Investors: [Applicable/Not Applicable]

[Where the Notes clearly do not constitute "packaged" products in the EEA, "Not Applicable" should be specified. If the Notes may constitute "packaged" products and no key information document will be prepared, "Applicable" should be specified.]
(vi) Prohibition of Sales to UK Retail Investors: [Applicable/Not Applicable]

[Where the Notes clearly do not constitute "packaged" products in the UK, "Not Applicable" should be specified. If the Notes may constitute "packaged" products and no key information document will be prepared, "Applicable" should be specified.]
SUMMARY OF PROVISIONS RELATING TO THE NOTES WHILE IN GLOBAL FORM

Clearing System Accountholders

In relation to any Tranche of Notes represented by a Global Note in bearer form, references in the Terms and Conditions of the Notes to "Noteholder" are references to the bearer of the relevant Global Note which, for so long as the Global Note is held by a depositary or a common depository, in the case of a CGN, or a common safekeeper, in the case of a NGN for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, will be that depositary or common depositary or, as the case may be, common safekeeper.

In relation to any Tranche of Notes represented by a Global Registered Note, references in the Terms and Conditions of the Notes to "Noteholder" are references to the person in whose name such Global Registered Note is for the time being registered in the Register which, for so long as the Global Registered Note is held by or on behalf of a depositary or a common depository or a common safekeeper (or its nominee) for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, will be that depositary or common depositary or a common safekeeper (or its nominee) for that depositary or common depository or common safekeeper (or its nominee).

Each of the persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Global Note or a Global Registered Note (each an "Accountholder") must look solely to Euroclear and/or Clearstream, Luxembourg and/or such other relevant clearing system (as the case may be) for such Accountholder's share of each payment made by the Issuer to the holder of such Global Note or Global Registered Note and in relation to all other rights arising under such Global Note or Global Registered Note. The extent to which, and the manner in which, Accountholders may exercise any rights arising under the Global Note or Global Registered Note will be determined by the respective rules and procedures of Euroclear and Clearstream, Luxembourg and any other relevant clearing system from time to time.

For so long as the relevant Notes are represented by a Global Note or Global Registered Note, Accountholders shall have no claim directly against the Issuer in respect of payments due under the Notes and such obligations of the Issuer will be discharged by payment to the holder of such Global Note or Global Registered Note.

Exchange of Temporary Global Notes

Whenever any interest in a Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Issuer shall procure:

(a) in the case of first exchange, the prompt delivery (free of charge to the bearer) of such Permanent Global Note, duly authenticated and, in the case of a NGN, effectuated, to the bearer of the Temporary Global Note; or

(b) in the case of any subsequent exchange, an increase in the principal amount of such Permanent Global Note in accordance with its terms,

in each case in an aggregate principal amount equal to the aggregate of the principal amounts specified in the certificates issued by Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and received by the Fiscal Agent against presentation and (in the case of final exchange) surrender of the Temporary Global Note to or to the order of the Fiscal Agent within seven days of the bearer requesting such exchange.

Whenever a Temporary Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange.

If:

(a) a Permanent Global Note has not been delivered or the principal amount thereof increased by 5.00 p.m. (London time) on the seventh day after the bearer of a Temporary Global Note has requested exchange of an interest in the Temporary Global Note for an interest in a Permanent Global Note; or
Definitive Notes have not been delivered by 5.00 p.m. (London time) on the thirtieth day after the bearer of a Temporary Global Note has requested exchange of the Temporary Global Note for Definitive Notes; or

(a) a Temporary Global Note (or any part thereof) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of a Temporary Global Note has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer of the Temporary Global Note in accordance with the terms of the Temporary Global Note on the due date for payment,

then the Temporary Global Note (including the obligation to deliver a Permanent Global Note or increase the principal amount thereof or deliver Definitive Notes, as the case may be) will become void at 5.00 p.m. (London time) on such seventh day (in the case of (a) above) or at 5.00 p.m. (London time) on such thirtieth day (in the case of (b) above) or at 5.00 p.m. (London time) on such due date (in the case of (c) above), and the bearer of the Temporary Global Note will have no further rights thereunder (but without prejudice to the rights which the bearer of the Temporary Global Note or others may have under the Deed of Covenant). Under the Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Temporary Global Note will acquire directly against the Issuer all those rights to which they would have been entitled if, immediately before the Temporary Global Note became void, they had been the holders of Definitive Notes in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system. In relation to any issue of Notes which are represented by a “Global Note exchangeable to Definitive Notes” in circumstances other than in the limited circumstances specified in the Global Note, such Notes may only be issued in principal amounts of at least the Specified Denomination (or if more than one Specified Denomination, the lowest Specified Denomination).

Exchange of Permanent Global Notes

Whenever a Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange.

If:

(a) Definitive Notes have not been delivered by 5.00 p.m. (London time) on the thirtieth day after the bearer of a Permanent Global Note has duly requested exchange of the Permanent Global Note for Definitive Notes; or

(b) a Permanent Global Note (or any part of it) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of the Notes has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer of the Permanent Global Note in accordance with the terms of the Permanent Global Note on the due date for payment,

then the Permanent Global Note (including the obligation to deliver Definitive Notes) will become void at 5.00 p.m. (London time) on such thirtieth day (in the case of (a) above) or at 5.00 p.m. (London time) on such due date (in the case of (b) above), and the bearer of the Permanent Global Note will have no further rights thereunder (but without prejudice to the rights which the bearer of the Permanent Global Note or others may have under the Deed of Covenant). Under the Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Permanent Global Note will acquire directly against the Issuer all those rights to which they would have been entitled if, immediately before the Permanent Global Note became void, they had been the holders of Definitive Notes in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.
Exchange of Global Registered Notes

Whenever a Global Registered Note is to be exchanged for Individual Note Certificates, the Issuer shall procure that Individual Note Certificates will be issued in an aggregate principal amount equal to the principal amount of the Global Registered Note within five business days of the delivery, by or on behalf of the holder of the Global Registered Note to the Registrar of such information as is required to complete and deliver such Individual Note Certificates (including, without limitation, the names and addresses of the persons in whose names the Individual Note Certificates are to be registered and the principal amount of each such person's holding) against the surrender of the Global Registered Note at the specified office of the Registrar. Such exchange will be effected in accordance with the provisions of the Agency Agreement and the regulations concerning the transfer and registration of Notes scheduled thereto and, in particular, shall be effected without charge to any holder, but against such indemnity as the Registrar may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

If:

(a) Individual Note Certificates have not been delivered by 5.00 p.m. (London time) on the thirtieth day after they are due to be issued and delivered in accordance with the terms of the Global Registered Note; or

(b) any of the Notes represented by a Global Registered Note (or any part of it) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of the Notes has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the holder of the Global Registered Note in accordance with the terms of the Global Registered Note on the due date for payment.

then the Global Registered Note (including the obligation to deliver Individual Note Certificates) will become void at 5.00 p.m. (London time) on such thirtieth day (in the case of (a) above) or at 5.00 p.m. (London time) on such due date (in the case of (b) above), and the holder of the Global Registered Note will have no further rights thereunder (but without prejudice to the rights which the holder of the Global Registered Note or others may have under the Deed of Covenant). Under the Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Global Registered Note will acquire directly against the Issuer all those rights to which they would have been entitled if, immediately before the Global Registered Note became void, they had been the holders of Individual Note Certificates in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.

Conditions applicable to Global Notes

Each Global Note and Global Registered Note will contain provisions which modify the Terms and Conditions of the Notes as they apply to the Global Note or Global Registered Note. The following is a summary of certain of those provisions:

**Payments:** All payments in respect of the Global Note or Global Registered Note which, according to the Terms and Conditions of the Notes, require presentation and/or surrender of a Note, Note Certificate or Coupon will be made against presentation and (in the case of payment of principal in full with all interest accrued thereon) surrender of the Global Note or Global Registered Note to or to the order of any Paying Agent and will be effective to satisfy and discharge the corresponding liabilities of the Issuer in respect of the Notes. On each occasion on which a payment of principal or interest is made in respect of the Global Note, the Issuer shall procure that in respect of a CGN the payment is noted in a schedule thereto and in respect of a NGN the payment is entered pro rata in the records of Euroclear and Clearstream, Luxembourg.

**Exercise of investor put:** In order to exercise the option contained in Condition 9(f) (Redemption and Purchase — Redemption at the option of Noteholders) the bearer of the Permanent Global Note or the holder of a Global Registered Note must, within the period specified in the Conditions for the deposit of the relevant Note and put notice, give written notice of such exercise to the Fiscal Agent specifying the principal amount of Notes in respect of which such option is being exercised. Any such notice will be irrevocable and may not be withdrawn.

**Partial exercise of Issuer call or Issuer make-whole:** In connection with an exercise of the option contained in Condition 9(c) (Redemption and Purchase — Redemption at the option of the Issuer (Call Option)) or Condition 9(d) (Redemption and Purchase — Redemption at the option of the Issuer (Make-Whole)) in relation to some only of the Notes, the Permanent Global Note or Global Registered Note may be redeemed in part in the principal...
amount specified by the Issuer in accordance with the Conditions and the Notes to be redeemed will not be selected as provided in the Conditions but in accordance with the rules and procedures of Euroclear and Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in principal amount, at their discretion).

**Notices:** Notwithstanding Condition 19 (Notices), while all the Notes are represented by a Permanent Global Note (or by a Permanent Global Note and/or a Temporary Global Note) or a Global Registered Note and the Permanent Global Note is (or the Permanent Global Note and/or the Temporary Global Note are), or the Global Registered Note is, deposited with a depositary or a common depositary for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system or a common safekeeper, notices to Noteholders may be given by delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and, in any case, such notices shall be deemed to have been given to the Noteholders in accordance with Condition 19 (Notices) on the date of delivery to Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.
DESCRIPTION OF NOKIA

Company Overview

Nokia creates technology that helps the world act together. As a trusted partner for critical networks, we are committed to innovation and technology leadership across mobile, fixed and cloud networks. Nokia's customers include communications service providers whose combined networks support approximately 6.6 billion subscriptions, as well as enterprises in the private and public sector that use our network portfolio to increase productivity and enrich lives.

Through Nokia's research teams, including the world-renowned Nokia Bell Labs, Nokia aims to lead in adopting networks that are faster, more secure and capable of revolutionising lives, economies and societies. Nokia adheres to the highest ethical business standards as Nokia creates technology with social purpose, quality and integrity.

We maintain listings on three major securities exchanges. The listing venues for our shares are Nasdaq Helsinki and Euronext Paris, in the form of shares, and the New York Stock Exchange, in the form of American Depositary Shares.

We are a public limited liability company, which is incorporated under the laws of Finland with registration number 0112038-9. We were incorporated on 19 December 1896. Our principal executive office is located at Karakaari 7, FI-02610 Espoo, Finland and our telephone number is +358 (0) 10 44 88 000.

Business Overview

In 2020, Nokia had three reportable segments: (1) Networks, (2) Nokia Software and (3) Nokia Technologies. Nokia provided net sales disclosure for the following businesses within Networks reportable segment: (i) Mobile Access, (ii) Fixed Access, (iii) IP Routing and (iv) Optical Networks.

On 29 October 2020, Nokia announced the first phase of its new strategy, outlining a new operating model designed to better position Nokia for changing markets and align with customer needs. On 1 January 2021, Nokia adopted the new operating model, which includes four reportable segments: (1) Mobile Networks, (2) Network Infrastructure, (3) Cloud and Network Services and (4) Nokia Technologies. The new operating model is optimised for better accountability and transparency, increased simplicity and improved cost-efficiency. In addition, Nokia will continue to disclose segment level information for Group Common and Other.

Within the new Network Infrastructure reportable segment, Nokia intends to provide net sales disclosure for the following businesses: (i) Fixed Networks, (ii) IP Networks, (iii) Optical Networks and (iv) Submarine Networks.

Nokia also intends to continue providing separate net sales disclosure for its different customer types: (1) Communication Service Providers, (2) Enterprises and (3) Licensees. Net sales by region are provided at the Nokia level.

Acquisition of Alcatel-Lucent

Combining Nokia with Alcatel-Lucent brings together the complementary capabilities of both companies with an end-to-end portfolio of software, services and products, which will be weighted towards next-generation technologies enabling Nokia to provide better solutions to customers and access new opportunities in an expanded, addressable market. Alcatel-Lucent provided us with the opportunity to cross-sell and upsell our expanded portfolio, and better leverage our global sales channel. From a geographic perspective, we gained a stronger position in many regions. In North America we have significantly increased our market share; in China we are one of the largest vendors headquartered outside the country; and in Europe, Latin America and the Middle East and Africa we have roughly doubled our size.

The acquisition has given us a total of more than 40,000 research scientists and engineers focused on inventing and deploying technologies that are shaping the future of the connected world: 5G, Cloud-based networks, IP routing, optical fibre transport and data analytics. Our combined R&D spend supports near and longer term scientific research at Nokia Bell Labs — building a strong platform for putting us ahead of the competition.
Sale of the HERE Business

The HERE digital mapping and location services business, an arena we entered in 2006, was a pillar of our operational performance. But in 2015, the Nokia Board of Directors (the "Board") held a strategic review of the business in light of plans to purchase Alcatel-Lucent. The result of that meeting led us to selling the HERE business in a deal agreed with the Consortium valued at EUR 2.8 billion.

The deal was announced on 3 August 2015 and closed on 4 December 2015.

Recent developments

On the Capital Markets Day on 18 March 2021, Nokia provided deep insights into long-term key market trends, including detailed plans for each of its business segments and its financial outlook, as set out below in "Nokia's strategy".

On 8 April 2021, Nokia’s Annual General Meeting ("AGM") took place at Nokia's headquarters in Espoo under special arrangements due to the COVID-19 pandemic. The AGM resolved, among other things, (i) that no dividend is paid for the financial year 2020, (ii) to re-elect Deloitte Oy as the auditor for Nokia for the financial year 2022, (iii) to authorise the Board to issue a maximum of 550 million shares through issuance of shares or special rights entitling to shares in one or more issues, (iv) to authorise the Board to resolve to repurchase a maximum of 550 million Nokia shares, and (v) to elect eight members to the Board. The following members of the Board were re-elected for the term ending at the close of the next Annual General Meeting: Sari Baldauf, Bruce Brown, Thomas Dannenfeldt, Jeanette Horan, Edward Kozel, Søren Skou, Carla Smits-Nusteling and Kari Stadigh.

On 8 April 2021, in an assembly meeting that took place after the AGM, the Board elected Sari Baldauf as Chair of the Board, and Kari Stadigh as Vice Chair of the Board. The Board also elected the members of the four Board committees. Carla Smits-Nusteling was elected as Chair and Thomas Dannenfeldt, Jeanette Horan and Edward Kozel as members of the Audit Committee. Bruce Brown was elected as Chair and Sari Baldauf, Søren Skou and Kari Stadigh as members of the Personnel Committee. Kari Stadigh was elected as Chair and Sari Baldauf, Bruce Brown and Carla Smits-Nusteling as members of the Corporate Governance and Nomination Committee. Edward Kozel was elected as Chair and Bruce Brown, Thomas Dannenfeldt and Jeanette Horan as members of the Technology Committee.

Nokia's strategy

2020 was the year businesses realised that the old adage of "things must change to remain the same" has never been more true. Companies that had done the most to modernise their operations were those best equipped to deal with the disruption. The pandemic accelerated the need for widespread digitalisation and automation, leading to the increasing importance of critical networks – networks that combine flexibility with carrier-grade performance. We launched a strategic analysis into these industry trends, which found that value would increasingly move away from monolithic systems towards software, silicon and services with the importance of virtualisation, cloud-native architecture, and open interfaces becoming ever greater. It was clear to us that to support our customers through these changes and to better position Nokia for new opportunities we would also need to change.

On 29 October 2020, Nokia announced it was embarking on a strategic review, aimed at renewing our strategy, announced on Capital Markets Day on 18 March 2021. On 16 December 2020, we shared further information about Nokia's strategic priorities and the market trends at the heart of our strategic beliefs going forward.

Phase 1 of strategy review: high-level strategic principles and new operating model

On 29 October 2020, Nokia announced the first phase of its new strategy, outlining high-level strategic observations alongside a new operating model designed to better position Nokia for changing markets and align with customer needs effective from 1 January 2021. Our industry is undergoing profound changes. Industrial automation and digitalisation are increasing customer demand for critical networks, with a trend towards open interfaces, virtualisation, and cloud native software. This will revolutionise how we design, deploy, manage and sell our products and solutions. Our strategy renewal will ensure we are well positioned to leverage these trends, improve our performance and position Nokia for long-term value creation. We announced that our strategy review had yielded four observations to further build on:

- first, that technology leadership will be the top priority;
second, that Nokia's current customer base, consisting of telco operators and enterprises (including webscale companies), provides a solid platform for value creation;

third, that there is a longer-term opportunity to move into higher-value "network-as-a-service" business models; and

fourth, that end-to-end as a core strategic idea will be replaced with a more focused approach, with each of Nokia's new business groups having a distinct role in the overall strategy.

We also announced that from 1 January 2021 Nokia will have four business groups: (i) Mobile Networks; (ii) Network Infrastructure (previously IP and Fixed Networks); (iii) Cloud and Network Services; and (iv) Nokia Technologies (each, as further described in "Nokia's Business Groups") structured around unique customer offerings, with ownership for becoming one of the technology and market leaders in their respective sector. They will also need to demonstrate a clear route for delivering shareholder value with return on capital employed as a key metric.

Our goal is to better align with the needs of our customers, and through that increase accountability, reduce complexity and improve cost-efficiency. Going forward, we will have a more rigorous approach to capital allocation and will invest to win in those segments where we choose to compete.

Phase 2 of strategy review: mid-point update on strategy and operating model

On 16 December 2020, Nokia provided a mid-point update on its strategy and operating model. We announced that Nokia was aligning itself to deliver critical networks to Communication Service Providers ("CSPs"), enterprises and webscales.

We synthesised our strategy analysis into six strategic beliefs:

1. Networks are playing an increasingly important role in society. This is allowing us to extend our focus to serving critical networks beyond CSPs.

2. Critical networks are built based on a best-of-breed approach with network elements selected on a best performance per Total Cost of Ownership basis.

3. Technology leadership underpins momentum and financial returns in critical networks.

4. Establishing technology leadership in some segments requires us to anticipate, shape and invest in the next technology window – where there is no path, we will reassess segment participation.

5. Gradually, value in critical networks is migrating away from monolithic systems towards silicon, software and service, and will be captured through different business models.

6. Sustained investment in long-term innovation provides us with a platform to take the long view.

We are positioning Nokia to lead in a world facing big challenges: environmental issues, resource scarcity, inequality and stalling productivity. Technology will be an essential part of the solution, with an increase in critical networks, which will extend to all corners of society.

Critical networks are advanced networks that run mission-critical services for companies and societies. They are becoming increasingly important and extending to all corners of society. This means that Nokia's addressable market for critical networks with CSPs, webscales and enterprises is also extending. To position ourselves for long-term success, we have defined three focus areas:

1. Secure technology leadership

Customers will take a best-of-breed approach selecting network elements from multiple individual vendors who are able to offer the best performance per total cost of ownership. Nokia is aiming to be the technology leader in the areas it chooses to play in. We have a strong position in technologies that are important for critical networks, such as open and virtualised radio access networks and we are on course for a 100 per cent. cloud-native software portfolio.
2. Build cloud software and network services future

We see value in critical networks gradually shifting from monolithic systems to silicon, software and services. This will increase the importance of cloud-native and open solutions and lead to more revenue being captured through different business models. We are well-positioned to be a trusted partner in the industry transition to software-led solutions and as-a-service delivery models, as demand for critical networks accelerates. Based on our leading Common Software Foundation, Nokia is a leader in cloud-native software including 5G Core, Digital Operations, Monetisation, Security, and Analytics/AI. We are the first to deploy a software portfolio this broad on any cloud, leveraging our modular technology framework. We are experienced in creating both carrier-grade performance networks and working with the world's most demanding webscales. We will continue building our capabilities in this area to ensure technology and market leadership.

3. Strengthen our long-term research and patent portfolio

Continuing to strengthen Nokia's long-term research and global patent portfolio is a key element in securing technology leadership. We are aiming for leadership in all domains: innovation, product, patents, and standardisation. Committing to long-term investment in research and innovation will allow us to anticipate and capitalise on industry changes and position us at the front of the pack when new technology windows open.

With these as focus areas we will invest in a best-of-breed portfolio. Our renewed operating model is designed to enable the delivery of our strategic ambitions, with a lean corporate center enabling fully accountable business groups.

Phase 3 of strategy review – detailed business group strategies

First, an ongoing reset, with focus on securing technology leadership; implementing the new operating model to reduce complexity and increase accountability; securing full portfolio competitiveness in Mobile Networks; resetting its cost base; and renewing its ways of working. From 2022 onwards, Nokia will accelerate competitiveness and aim to grow margins through enhanced technology leadership, digitalisation of its own operations, automation and capturing emerging opportunities. Nokia then plans to scale up to drive growth in new use cases and business models including in enterprise and private wireless in order to grow faster than the market.

A description of the group strategies is set out below in "Nokia's Business Groups".

Nokia strongly believes that connectivity and technology will play a key role in helping to solve many future challenges. Its sustainability strategy is focused on areas it believes will have the greatest impact on sustainable development and on its business. Nokia is focusing on climate, integrity and culture to improve people's lives:

- **Climate**: Nokia has announced that it is targeting to reduce emissions by 50 per cent. across both its own operations and products in use between 2019 and 2030. Its new recalibrated Science Based Targets fulfil its commitment to align with a 1.5°C global warming scenario.

- **Integrity**: Nokia has been recognised as one of the world's most ethical companies by the Ethisphere institute and intends to continue to strengthen its position.

- **Culture**: Nokia wants to prioritise greater inclusion and diversity. As an example, it is targeting an increase of female hires in global external recruits.

Debt Financing

Nokia's debt financing strategy includes a focus on extending short maturities and maintaining smooth maturity breakdowns. Nokia aims to maintain access to both the European and U.S. debt markets. Nokia intends for Nokia Corporation to be the issuer for new bond issues.

Operational Governance and Leadership

We have a strong and experienced leadership team that brings together leaders with many years of experience in telecommunications and technology, finance, sales and operations and various other business disciplines.
The diversity of business backgrounds of the Nokia Group Leadership Team (the "Group Leadership Team") members has been integral to the transformation of Nokia into an industry and innovation leader in next-generation technology and services in recent years.

The Group Leadership Team is responsible for the operative management of Nokia, including decisions concerning our strategy and the overall business portfolio. The Chair and members of the Group Leadership Team are appointed by the Board. The Group Leadership Team is chaired by the President and Chief Executive Officer.

At present, our Group Leadership Team consists of 11 members, including the President and CEO, representing seven different nationalities and 27 per cent. of the members are female.

The members of the Group Leadership Team as at the date of this Prospectus are set forth below.

Pekka Lundmark, b. 1963

President and Chief Executive Officer of Nokia as of 1 August 2020.

Master of Science, Department of Technical Physics, Helsinki University of Technology, Finland.

Commissioner, Broadband Commission for Sustainable Development. Member of the Board, Climate Leadership Council. Member of the Board, Research Institute of the Finnish Economy (ETLA) and Finnish Business and Policy Forum (EVA). International Member of the Academy, Royal Swedish Academy of Engineering Sciences (IVA). Member of the Board, Finnish Athletics Federation.

Nassib Abou-Khalil, b. 1972

Bachelor's Degree in Political Sciences and Civil Law (LL.L.) and Common Law (LL.B.) and Master of Law (LL.M) degrees from the University of Ottawa.

Nishant Batra, b. 1978

Master's degree in Business Administration from INSEAD, France, master's degree in Telecommunications and a master's degree in Computer Science from Southern Methodist University, United States, and a bachelor's degree in Computer Applications from Devi Ahilya University, India.

Ricky Corker, b. 1967

Bachelor's degree in Communications and Electronic Engineering from the Royal Melbourne Institute of Technology in Australia.

Federico Guillén, b. 1963

Degree in Telecommunications Engineering, ETSIT at Universidad Politécnica de Madrid, Spain. Master's degree in Switching & Communication Architectures, ETSIT at Universidad Politécnica de Madrid, Spain. Master's Degree in International Management, ESC Lyon and Alcatel, France.

**Jenni Lukander, b. 1974**

Master of Laws, University of Helsinki, Finland.

**Raghav Sahgal b. 1962**

Master of Science in Computer Systems Management, University of Maryland, United States. Bachelor of Science in Computer Engineering, Tulane University, New Orleans, United States. Executive Business Certificate in General Management, Harvard University, United States.

**Melissa Schoeb, b. 1968**

*Chief Corporate Affairs Officer and member of the Group Leadership Team, since 2021. Joined Nokia in 2021.*

Bachelor of Arts in International Relations and Spanish, 1990.

Tommi Utto, b. 1969

Master's degrees from the Helsinki University of Technology, Finland, and Michigan Technological University, U.S.

Stephanie Werner-Dietz, b. 1972

Diploma in Applied business languages (Chinese) and International business studies from University of Applied Sciences, Bremen.

Marco Wirén, b. 1966

Master's degree in Business Administration, University of Uppsala. Studies in management and strategic leadership, including at Duke Business School, IMD, and Stockholm School of Economics.

Vice Chair of the Board of Directors and Chair of the Audit Committee, Neste Corporation.

The business address of the persons mentioned above is Karakaari 7, FI-02610 Espoo, Finland. There are no conflicts of interest between any duties to Nokia of the members of the current Leadership Team and their private interests or duties.

Nokia believes it has a strong culture and commitment to disciplined execution. As of 31 December 2020, Nokia employed approximately 95,000 employees globally, representing over 160 nationalities in approximately 120 countries. More than a third of the employees worked within our research and development department.

**Nokia's Business Groups**

We announced that from 1 January 2021 Nokia will have four business groups structured around unique customer offerings, with ownership for becoming one of the technology and market leaders in their respective sector. They will also need to demonstrate a clear route for delivering shareholder value with return on capital employed as a key metric.

Our goal is to better align with the needs of our customers, and through that increase accountability, reduce complexity and improve cost-efficiency. Going forward, we will have a more rigorous approach to capital allocation and will invest to win in those segments where we choose to compete.

The new business groups are:

**Mobile Networks**

Mobile Networks is a technology leader in 5G/NR, Single RAN (2G/3G/4G/5G) and MWR (Microwave Radio) and our goal is to provide the best value to our customers as they evolve their networks. We continue to develop our 5G/NR portfolio according to the latest 3GPP specifications and have declared more than 3,500 patent families as essential for 5G. We are proud of the number of industry firsts that we have achieved, for example, the world's first automated 4G/5G network spanning RAN, transport and core domains. We are also actively driving adoption of open and virtualised radio access networks (O-RAN and vRAN).

We anticipate a strong appetite for 5G across mobile markets and we are working with all of the major operators in the world's most advanced markets, including the US, South Korea and Japan. We are also providing 5G technology in China.

We have a large global installed base in 2G/3G/4G that is providing us with the platform for success in 5G. We have more than 360 customers in 4G/LTE and a robust AirScale platform for Single RAN, which can be upgraded from 4G/LTE to 5G/NR. We built our AirScale portfolio and small cells, software and microwave transport solutions to work across all generations of technology and all relevant spectrum bands for efficient, simplified and optimised sites for our customers. In addition to RAN and MWR products, the Mobile Networks group provides associated network management solutions as well as network planning, network optimisation, network deployment and technical support services.

**Network Infrastructure**

Network Infrastructure's focus is on the building blocks and essential solutions of critical networks, driving digitalisation across all industries. The networks we support serve consumers, enterprises and webscales, and also provide applications and services to established telecoms operators and new players. Over 1,500 enterprises rely on us for their network infrastructure.

Combining four divisions, Network Infrastructure intends to deliver technology leadership in every part of Nokia's business: Fixed Networks, which provides fibre, fixed wireless access, and copper technologies; IP Networks, which provides IP networks and services for residential, mobile, enterprise and cloud applications; Optical
Networks, which provides optical transport networks for metro, regional, longhaul and ultra-longhaul applications; and Alcatel Submarine Networks, which offers undersea cable transmission.

Fixed Networks is a global leader in the fast-growing fibre access and the established copper segments, with over a hundred million passive optical network access connections shipped to date. The team is also an emerging leader in the fixed wireless access segment.

IP Networks is a global leader in IP routing networks and services and has shipped more than a million routers. Nokia's IP routing portfolio offers solutions to meet the latest requirements for access, aggregation, edge, and IP core network applications.

Optical Networks is a leader in optical transport networks for metro, regional, longhaul and ultra-longhaul applications. Our optical network portfolio helps network operators build smarter, more automated transport networks for streamlined service delivery and lower network total cost of ownership.

Alcatel Submarine Networks provides undersea cable transmission for service providers and the largest cloud providers. Its business includes optical dry and wet equipment, power feeding, cables and installation services (including marine operations). Nokia is a leader in submarine networks, which is seeing strong demand driven by webscale customers.

**Cloud and Network Services**

The Cloud and Network Services operating segment is built around software and the cloud. It is focused on driving leadership in cloud-native software and as-a-service delivery models as demand for critical networks accelerates. In addition, it has strong market positions in communications software, private wireless networks, and cognitive services.

The Cloud and Network Services portfolio encompasses Business Applications covering areas such as security and digital operations; Core Network Solutions, including both voice and packet core; Cloud and Cognitive Services including managed services; and Enterprise Solutions covering private wireless and industrial automation.

The Business Applications unit enables CSPs to unlock value from their network investments through multi-vendor, multi-cloud and SaaS deployment models. It helps CSPs to automate their operations, protect networks, devices and data, and monetise new, dynamic and personalised services.

The Core Networks unit's mission is to be the market leader in providing mobile and fixed Core solutions for data, voice and subscriber management across all technology generations, with a focus on 5G and 5G Standalone Core. This unit supplies highly-automated cloud-native solutions and also pioneers Software as-a-Service, and Network as-a-Service delivery and business models, which will create new value for CSP and enterprise customers.

The Cloud and Cognitive Services unit delivers transition to multi-cloud, O-RAN network operations by injecting automation, cognitive, security and cloud capabilities. This enables the telecom industry to transform to consumption-based models, it allows customers to launch new services quickly and we believe it helps to build the capabilities needed for a more sustainable, productive and inclusive world.

The Enterprise Solutions unit provides private wireless networks to customers in key vertical segments including public sector, transportation, energy, manufacturing, supply chain and logistics. Championing their digitalisation needs, it offers industrial automation solutions with mission-critical industrial edge computing, Nokia Industrial user equipment and plug-and-play applications in an as-a-service deployment model.

**Nokia Technologies**

Nokia Technologies is responsible for managing and monetising Nokia's intellectual property, including patents, technologies, and the Nokia brand, building on Nokia's continued innovation and decades of R&D leadership. We have three focus areas: Patent Licensing which monetises our patent portfolio; Technology Licensing which helps device manufacturers integrate Nokia's technologies into their products; and Brand Partnerships, which licenses the Nokia brand.
Nokia Technologies manages the Nokia patent portfolio, working with all other Nokia businesses, and continues to grow Nokia's patent licensing and monetisation activities, which drive most of Nokia Technologies' net sales. This includes the successful mobile devices licensing program, where we currently have licensing agreements with most of the major smartphone vendors.

Nokia owns one of the broadest and strongest patent portfolios in the mobile communications sector. At the end of 2020, Nokia's patent portfolio included around 20,000 patent families (each family being composed of several individual patents), of which the vast majority will still be in force through 2030.

We also have patent licensing programs for other markets which use our standardised technologies, including consumer electronics, connected cars, smart meters, payment terminals, asset tracking and other IoT devices and related industries.

Nokia Technologies enables the commercialisation of selected fundamental innovations from Nokia Bell Labs and other Nokia business groups in new areas via close collaboration with other companies.

We continue to license our innovative multimedia technologies, such as OZO spatial audio and video technologies, to smartphone and camera manufacturers through our Technology Licensing business, and drive advanced audio and video research and standardisation through our Media Technologies Research unit.

Nokia is a global brand that is recognisable worldwide. We continue to work with HMD global Oy (HMD Global) – our exclusive licensee for Nokia-branded phones and tablets – along with new brand partners in other product categories, to increase the reach and strength of the Nokia brand.

**Group Common and Other**

Until 1 January 2021, Group Common and Other included Alcatel Submarine Networks and Radio Frequency Systems, both of which are being managed as separate entities. As of 1 January 2021, Alcatel Submarine Networks is part of Network Infrastructure. In addition, Group Common and Other includes Nokia Bell Labs’ operating expenses, as well as certain corporate-level and centrally managed operating expenses.

**Innovation**

**Research and Development**

Our R&D efforts are led by our business groups and by Nokia Bell Labs, the world-renowned industrial research arm of Nokia. As one of the industry's leading investors in communication technology R&D, we drive innovation across a comprehensive portfolio of network equipment, software, services and licensing opportunities across the globe. Our continuous product development in 5G, private wireless, intelligent analytics and automation, IoT, and next-generation software-defined networks enables our customers to address the needs of a digitally connected world.

We have a global network of R&D centers, each with individual technology and competence specialties. The main R&D centers are located in Belgium, Canada, China, Finland, France, Germany, Greece, Hungary, India, Italy, Japan, Poland, Portugal, Romania, Slovakia, the UK and the US. The ecosystems around each R&D center helps us to connect with experts on a global scale, and our R&D network is further complemented by cooperation with universities and other research facilities. In Belgium, China, Finland, France, Germany and the US, we have significant Nokia Bell Labs research activities where we are conducting disruptive research for the next phase of human existence.

**Nokia Bell Labs**

Nokia Bell Labs is the world-renowned industrial research and innovation arm of Nokia, and has invented many foundational technologies that underpin information and communications networks and all digital devices and systems. The Nokia Bell Labs innovation engine accelerates technology development for Nokia's core communication service provider and enterprise businesses while also researching the fundamental technologies that will shape future society. Over its more than 90-year history, Nokia Bell Labs research breakthroughs have produced nine Nobel Prizes, four Turing Awards and numerous other international awards.
With Nokia Bell Labs, we search for the fundamental limits of what is possible, rather than being constrained by the current state of the art.

We look to the future to understand essential human needs and the potential barriers to enabling this new human existence. We then use our unique diversity of research intellects, disciplines and perspectives to solve key problems through disruptive innovations with the power to enable new economic capabilities, societal behaviors, business models and types of services - in other words, we drive human and technological revolutions.

Nokia Bell Labs focuses on three core areas of innovation:

- **Patents & standards leadership**: Nokia Bell Labs funnels a continuous stream of innovation into Nokia's intellectual property portfolio. In addition to using these innovations to create building blocks for Nokia products, they are also a significant source of patent licensing revenue. Equally significant is Nokia Bell Labs' active leadership in establishing communication technology standards through global standards-setting bodies. Our work in this area accelerates innovation and drives interoperability, expanding the possibilities for communication service providers, industrials and consumers in the 5G era.

- **Disruptive Research leadership**: Fundamental research underpins Nokia Bell Labs' mission to innovate the technologies and make the discoveries that improve human existence. Our research has laid the foundations for the digital world we live in through the software that powers it and the communications networks that connect it. Today, Nokia Bell Labs research follows many diverse trajectories but with a common goal: devise the technologies that will have the most sustained impact on the service providers, enterprises and the industries Nokia serves.

- **Technology Architecture Leadership**: Nokia Bell Labs is creating the next technological architecture for the industry. This includes building and demonstrating the power of seamless network and service orchestration across Nokia's comprehensive product portfolio, which will be critical for the massively scalable networks of the future. Bell Labs Consulting leads customer engagement around future technology architecture, providing independent advice to service providers, enterprises and industries, while our Future X Labs showcase the possibilities of the evolving architectures.

**Sales and Marketing**

During 2020, customers of Networks fell mainly into two broad categories. The primary customer group consisted of communication service providers ("CSP"), while enterprise customers represented another, relatively fast-growing, area.

Enterprise customers were in focus for Nokia and continue to grow in importance. Throughout 2020, enterprise customers were served by a dedicated sales force with a global presence, selling to enterprise customer groups – including transportation, energy, manufacturing and logistics, governments and webscale businesses – both directly and through channel partners (including system integrators, consulting companies, distributors and value-added resellers).

In addition to Nokia's four business groups, there is also a Customer Experience organisation that provides a common interface with customers and acts as the voice of the customer across all business groups. This unit includes Nokia's customer teams, region and country management, as well as marketing. The Customer Experience organisation is designed to build on our deep customer relationships.

**Discontinued Operations**

**HERE business**

We sold our HERE digital mapping and location services business to a German automotive industry consortium comprised of AUDI AG, BMW Group and Daimler AG, that was completed on 4 December 2015 (the "Sale of HERE Business").

The transaction, originally announced on 3 August 2015, valued HERE at an enterprise value of EUR 2.8 billion, subject to certain purchase price adjustments. We received net proceeds from the transaction of EUR 2.55 billion at the closing of the transaction. We recorded a gain on the Sale of the HERE Business, including a related release of cumulative foreign exchange translation differences of EUR 1.2 billion, in the year ended 31 December 2015.
**Devices & Services Business**

We sold substantially all of our Devices & Services business to Microsoft in a transaction that was completed on 25 April 2014 (the "Sale of the D&S Business"). We granted Microsoft a ten-year non-exclusive license to our patents and patent applications. The announced purchase price of the transaction was EUR 5.44 billion, of which EUR 3.79 billion related to the purchase of substantially all of the Devices & Services business, and EUR 1.65 billion to the ten-year mutual patent license agreement and the option to extend this agreement into perpetuity. Of the Devices & Services-related assets, our former CTO organisation and our patent portfolio remained within the Nokia Group, and are now part of the Nokia Technologies business group.

**Dividend**

The dividend to shareholders is Nokia's principal method of distributing earnings to shareholders. Beginning with the distribution for the financial year 2018, Nokia started paying dividends in quarterly instalments. The Board did not propose a dividend or dividend authorisation for the financial year 2020. Nokia's current dividend policy is to target recurring, stable and over time growing ordinary dividend payments, taking into account the previous year's earnings as well as Nokia's financial position and business outlook.

**Significant subsidiaries**

The following is a list of Nokia's significant subsidiaries at 31 December 2020.

(1) Nokia Shanghai Bell Co., Ltd is the parent company of the Nokia Shanghai Bell Group of which the Group owns 50% plus one share with China Huaxin, an entity controlled by the Chinese government, holding the remaining ownership interests. Refer to Note 33.
“Significant partly-owned subsidiaries” in Nokia's audited consolidated financial statements as at and for the twelve months ended 31 December 2020 which are incorporated by reference. See "Information Incorporated by Reference".

Shareholders

To our knowledge, Nokia is not directly or indirectly owned or controlled by any other corporation or any government, and there are no arrangements that may result in a change of control of Nokia.

Directors, Senior Management and Employees

Pursuant to the provisions of the Finnish Limited Liability Companies Act and Nokia's Articles of Association, the control and management of Nokia are divided among the shareholders at a general meeting, the Board, the President and Chief Executive Officer (CEO).

Board of Directors

The operations of Nokia are managed under the direction of the Board, within the framework set by the Finnish Companies Act and Nokia's Articles of Association as well as any complementary rules of procedure as defined by the Board, such as the Corporate Governance Guidelines and the charters of the Board's Committees.

Pursuant to the Articles of Association of Nokia Corporation, we have a Board that is composed of a minimum of seven and a maximum of 12 members. The Board is elected at least annually at each Annual General Meeting with a simple majority of the shareholders' votes cast at the Annual General Meeting. The term of a Board member begins at the close of the general meeting at which he or she was elected, or later as resolved by the general meeting, and expires at the close of the following Annual General Meeting. The Annual General Meeting convenes by 30 June annually.

Our Board's leadership structure consists of a Chair and Vice Chair elected annually by the Board, and confirmed by the independent directors of the Board from among the Board members upon the recommendation of the Corporate Governance and Nomination Committee. The Chair of the Board has certain specific duties as stipulated by Finnish law and our Corporate Governance Guidelines. The Vice Chair of the Board assumes the duties of the Chair of the Board in the event he or she is prevented from performing his or her duties.

The independent directors of the new Board also confirm the election of the members and chairs for the Board's Committees from among the Board's independent directors upon the recommendation of the Corporate Governance and Nomination Committee and based on each Committee's member qualification standards. These elections take place at the Board's assembly meeting following the general meeting.

Proposals of the Board of Directors to the Annual General Meeting 2021 were published on 4 February 2021. Elizabeth Nelson informed Nokia that she would no longer be available to serve on the Nokia Board of Directors after the 2021 Annual General Meeting. Consequently, at the Annual General Meeting on 8 April 2021 the Board proposed, on the recommendation of the Board's Corporate Governance and Nomination Committee, that the following eight current Board members be re-elected as members of the Nokia Board of Directors for a term ending at the close of the next Annual General Meeting: Sari Baldauf, Bruce Brown, Thomas Dannenfeldt, Jeanette Horan, Edward Kozel, Søren Skou, Carla Smits-Nusteling, and Kari Stadigh. Shareholders approved the re-election of these Directors at the AGM. In an assembly meeting that took place after the AGM, the Board elected Sari Baldauf as Chair of the Board and Kari Stadigh as Vice Chair of the Board.

The current members of the Board and its committees are set forth below.

Chair - Sari Baldauf, b. 1955

Chair of the Board. Board member since 2018. Chair since 2020.
Chair of the Corporate Governance and Nomination Committee.
Member of the Technology Committee.

Master of Business Administration, Helsinki School of Economics and Business Administration. Bachelor of Science, Helsinki School of Economics and Business Administration. Honorary doctorates in Technology (Helsinki University of Technology) and Business
Administration (Turku School of Economics and Business Administration and Aalto University School of Business).

Member of the Supervisory Board and Member of the Nomination Committee of Daimler AG. Member of the Board of Directors of Aalto University. Chair of the Board of Directors of Vexve Armatury Oy. Senior Advisor of DevCo Partners Oy. Member of the Board of Directors of Demos Helsinki. Member of the Supervisory Board of Deutsche Telekom AG 2012 until 17 May 2018. Chair of the Board of Directors of Fortum Oyj 2011-2018. Member of the Board of Directors of Akzo Nobel 2012–2017. Member of the Board of Directors of F-Secure Oyj 2005-2014. Member of the Board of Directors of Hewlett-Packard Corporation 2006-2012.

Vice Chair - Kari Stadigh, b. 1955

Vice Chair of the Board. Board Member since 2011. Vice Chair since 2020. Member of the Personnel Committee and the Corporate Governance and Nomination Committee.

Master of Science (Eng.), Helsinki University of Technology, Finland. Bachelor of Business Administration, Hanken School of Economics, Helsinki, Finland.

Member of the Board of Directors of Metso Outotec Corporation.

Bruce Brown, b. 1958

Member of the Board since 2012. Chair of the Personnel Committee. Member of the Corporate Governance and Nomination Committee and the Technology Committee.

M.B.A. (Marketing and Finance), Xavier University, the United States. B.S. (Chemical Engineering), Polytechnic Institute of New York University, the United States.

Member of the Board of Directors of Agency for Science, Technology & Research (A*STAR) in Singapore 2011-2018. Member of the Board of Directors, the Audit Committee and the Nominating and Corporate Governance Committee of P.H.
Thomas Dannenfeldt, b. 1966

Glatfelter Company. Member of the Board of Directors, the Audit Committee and the Compensation Committee of Medpace, Inc.

Member of the Board since 2020. Member of the Audit Committee and Technology Committee.

Degree in Mathematics, University of Trier, Germany.

Chair of the Supervisory Board of CECONOMY AG and member of the Board of Advisors at axxessio GmbH.

Jeanette Horan, b. 1955

Member of the Board since 2017. Member of the Audit Committee and Technology Committee.

MBA, Business Administration and Management, Boston University, the United States. BSc, Mathematics, University of London, United Kingdom.

Member of the Supervisory Board at Wolters Kluwer, and the Chair of the Remuneration Committee. Member of the Board of Advisors at Jane Doe No More, a non-profit organisation.

Member of the Board of Advisors of Cyberreason 2017-2018. Member of the Board of Directors of West Corporation 2016-2017. Member of the Board of Directors of Microvision 2006-2017.

Søren Skou, b. 1964

Member of the Board since 2019. Member of the Personnel Committee.

CEO of A.P. Møller Mærsk A/S.

MBA (honours), IMD, Switzerland, Business Administration, Copenhagen Business School, Denmark. Maersk International Shipping Education (M.I.S.E.).

Member of International Council of Containership Operators (ICCO).
Edward Kozel, b. 1955

Member of the Board since 2017. Chair of the Technology Committee. Member of the Audit Committee.

Degree in Electrical Engineering and Computer Science, University of California, the United States.

Carla Smits-Nusteling, b. 1966

Member of the Board since 2016. Chair of the Audit Committee and member of the Corporate Governance and Nomination Committee.

Master's Degree in Business Economics, Erasmus University Rotterdam, the Netherlands. Executive Master of Finance and Control, Vrije University Amsterdam, the Netherlands.

Member of the Supervisory Board since 2013 and Chair of the Audit Committee of ASML. Member of the Board of Directors since 2013 and Chair of the Audit Committee and member of the Remuneration Committee of TELE2 AB. Lay Judge in the Enterprise Court of the Amsterdam Court of Appeal since 2015.

The business address of the persons mentioned above is Karakaari 7, FI-02610 Espoo, Finland.

The current members of the Board are all non-executive. For the term that began at the Annual General Meeting 2021, all Board member candidates were determined to be independent from Nokia and significant shareholders under the Finnish corporate governance rules and the rules of the NYSE, as applicable. Any possible changes impacting the independence assessment would be assessed as of the date of the next Annual General Meeting.

We do not have a policy concerning the combination or separation of the roles of the Chair of the Board and the President and CEO. Our leadership structure is dependent on our needs, shareholder value and other relevant factors applicable from time to time, while respecting the highest corporate governance standards. In 2020, the roles of the Chair of the Board and the President and CEO were separate.

COVID-19

The COVID-19 pandemic changed the world in ways we did not anticipate or expect. Together, we faced a once-in-a-generation struggle that called governments, regulators, businesses, NGOs, groups and individuals to do everything they could to keep themselves and communities safe, and economies resilient and connected.

As a global business, many aspects of our operations have been impacted by the ongoing COVID-19 pandemic. Telecommunications is an essential service and one that became even more so as countries progressively locked down in 2020 to reduce the spread of the virus. We have had to adapt our ways of working to ensure that our people remain safe while our operations continue. This has been led centrally by a global crisis and continuity management team with regional and country crisis management teams ensuring local implementation.
Health and safety

Naturally, Nokia's first focus during the COVID-19 crisis is to our employees. In the very early phases of the pandemic we transferred all our employees to a temporary work from home policy regardless of whether they were able to conduct their work remotely or not. Other actions included restricting travel, imposing self-quarantine requirements on return for employees who have been traveling, prohibiting visitors from accessing Nokia sites, eventually closing virtually all Nokia sites, and only allowing access to Nokia sites to a small number of people involved in critical work that could not be conducted offsite.

In order to facilitate operations where remote work is not possible, including field teams and factory operations, guidelines and mitigating controls were implemented. As countries have eased restrictions, we have made changes both to the physical working environments and our procedures for their use, ensuring that physical distancing is maintained and hygiene levels remain high, and that processes are in place for both infection management and contact tracing. We continually update our guidance as the situation develops.

We recognise that the pandemic impacts our employees' work and personal lives in diverse ways. We offer flexible working hours so people can also fulfil their personal responsibilities during these challenging times. We conducted our 2020 annual salary review cycle and continued to pay incentives to our employees where applicable. We have continued to pay salary and benefits for employees who cannot work from home and whose work site is closed and ensured additional paid leave and sick leave for employees who are in self-quarantine and cannot work remotely. We have also kept frequent contact with our colleagues who were on an international assignment and supported them with accommodation, medical coverage and registration to local embassies.

As most of our employees continue working remotely, we are providing guidance on how staff can maintain a healthy work-life balance and look after their physical and mental well-being. For example, our Personal Support Service provides our employees with the opportunity of attending virtual learning events on a broad range of health and well-being related topics, as well as professional, confidential support. We introduced separate people management guidelines during the crisis, and we ensure our employees, line managers and senior leaders are updated on the pandemic guidelines via multiple channels: webcasts, newsletters, line manager and human resources calls, and a dedicated COVID-19 information hub. We also ran several employee surveys to track how our employees were coping with the pandemic, share experiences and provide an additional channel for feedback and to request guidance and support.

Supporting the essential services our customers provide

The unwavering commitment of Nokia team members and the extraordinary efforts of all our customers – service providers, webscales and large digital enterprises – were key for keeping networks running and people online.

Almost all business decisions in 2020 were affected by the pandemic to some degree, but some deployments were more directly COVID-19 influenced. In the earliest days of 2020, our team assisted in opening the first 5G base station at one of the key epidemic hospitals in Wuhan in just two days. In rural California, we met a customer's goal of providing a wireless solution that can deliver high-speed broadband to people who did not have access previously and address traffic needs driven by COVID-19. In Pennsylvania, we enabled a large medical center to connect ventilators and inpatient beds for real-time patient monitoring. In India, we completed the world's largest dynamic spectrum refarming deployment to improve network coverage and enhance connectivity to meet growing data demand driven by COVID-19. In Algeria, we implemented ultra-high network capacity technology to meet growing mobile traffic demand. In Sri Lanka and the Philippines, we deployed next generation fiber networks to bring ultra-fast broadband access to homes during the unprecedented events of 2020. In Chile, the pandemic has increased the value of our IMPACT Connected Device Platform, which enables remote management of networks and IoT devices.

Beyond our existing portfolio, we applied our technical expertise to create new ways of connecting and working to ease the strain of the pandemic. We created a camera that takes the temperature of 20 people every 30 milliseconds and incorporated it into a solution that allows real-time health monitoring and tracking, providing organisations with an automated, simple and scalable approach to identify COVID-19 symptoms and monitor mask compliance for facilities with thousands of people.

We introduced artificial intelligence technology to optimise our supply chain. This enabled our customers to receive their orders in the shortest amount of time and keep local households online and connected.
By September, traffic levels settled down to 20 to 30 per cent. above the pre-pandemic level, albeit with expected seasonal growth. We believe that these elevated traffic levels could be the "new normal" for the near future. Many believe that the level of usage seen in 2020 was an acceleration of trends already underway before the pandemic.

**Doing our part to fight the pandemic**

We also feel another sense of duty – to the societies where Nokia operates. As a global company, we have a duty to be part of the global fight against this pandemic. Nokia team members came together in myriad ways to provide support to those directly affected by the pandemic:

- we launched our COVID-19 donation fund in March 2020 and engaged with local organisations such as hospitals, community groups and non-governmental organisations in 48 countries, helping them fight the pandemic and mitigate its impacts.
- In Finland, we participated in the "lunch for children" campaign and donated goods to local organisations to ensure quality food was available to underprivileged families.
- Across India, we worked to provide food to those most in need in local communities.
- In Belgium and Greece, we 3-D printed special touch-free door handles for the office doors to help fight the virus' spread.
- In Hungary, we donated laptops to foundations and developed a help-desk to support local schools and remote education. We also organised training for parents working from home with children.
- In Ireland, we 3-D printed and donated mask strips.
- In Romania, we 3-D printed and donated face shields.
- In Singapore, we helped improve internet connectivity for dormitories and community care facilities to ensure that they stay connected with robust and stable internet access.

These actions demonstrate our strong commitment to supporting global efforts to end the pandemic and overcoming the disruption and challenges we currently face.

**Environment, Social and Corporate Governance**

At the core of our sustainability approach is the belief that the purpose of technology is to improve people's lives. During 2020, we launched our new sustainability strategic approach, which is focused on the areas we believe will have the greatest impact on sustainable development and our business. Although we need to be agile with our sustainability approach, we have identified three main cornerstones through which we can truly improve people's lives with technology and on which we need to focus to maintain our leading position in industry sustainability: climate, integrity and culture. Climate will have an impact on business due to impacts on society and communities, mitigation and adaptation solution development and market reactions. Integrity reflects the level of respect we have on security and ethics. High performance culture includes talent attraction and high performing teams to enable things to happen. We aim to ensure we continuously develop our existing sustainability-related housekeeping practices as these are important necessities in order to comply with stakeholder requests and increased demand for efficiency and transparency.

In terms of the fundamental necessities of responsible business, we also need to ensure we continuously develop our existing sustainability-related housekeeping practices to create value and comply with stakeholder requests, legal requirements, customer expectations and increased demand for efficiency and transparency. The housekeeping practices provide a solid foundation to our sustainable development as a company, including areas such as: operational environmental management and circularity; health and safety; labor practices in our own operations; responsible sourcing; and preventing the misuse of technology.

In 2020, we had 20 short- and long-term sustainability targets. The key sustainability targets are listed in the table below:
Focus area | Target | Target status
--- | --- | ---
Improving lives with technology | Helping our customers connect the next billion subscriptions between 2016 and 2022 | Achieved
Climate | Science Based Target (Scope 1 and 2): Reduce GHG emissions from our own operations by 50% between 2019 and 2030* | On track
| Science Based Target (Scope 3): Reduce GHG emissions from our products by 50% between 2019 and 2030* | On track
Integrity | Achieve 95% completion rate for Ethical Business Training in 2020 | Achieved
Culture | Increase the share of women in leadership by 25% between 2016 and 2020 | Not achieved

* New recalibrated Science Based Targets announced on 4 March 2021 to fulfil Nokia's commitment to align with a 1.5°C global warming scenario.

**Improving Lives with technology**

Our technology connects people to the services, places, opportunities and other people that matter to them. One of our key targets includes helping our customers to connect the next billion subscribers by 2022, compared to approximately 5.5 billion at the end of 2016. The target is measured by number of subscriptions in Nokia radio customers’ networks. In 2020, the radio networks we supplied to our customers served around 6.6 billion subscriptions worldwide, meaning we reached the target ahead of the targeted timeline. In addition, our approach has been validated in the market with 1,545 mission-critical customers and our private wireless solutions are used by 260 customers globally.

During 2020, we announced several new deals that will bring connectivity to the most rural and underserved areas, making sure small businesses, farms and schools are connected. We also continued our shared value project with UNICEF in Kenya. The aim of the project is to bring together all relevant parties in collaboration to demonstrate the best solutions to connect the unconnected schools to digital learning in Kenya, and to enable accessible, quality and inclusive education through digital connectivity particularly for girls and disabled children. The project started in 2018 and the first schools were connected in September using our Fixed Wireless Access solution.

**Combating Climate Change**

Climate change remains a significant risk to society. We recognise that we provide products and services globally that may affect the environment as manufacturing, distributing, and operating these products require energy and other resources. The most material climate-related opportunities and risks are related to our ability to help other industries to reduce their emissions and the energy efficiency of our products. We believe that the opportunities our technology provides to our customers, industry and society, and the measures we have taken in our operations can positively contribute to the fight against climate change. Our own operations are not very sensitive to the changes in energy pricing or natural catastrophes. However, climate change can impact our customers and supply chain, as well as the global economy, political and social stability.

We have utilised climate-related scenarios to support the review of our climate-related risks, opportunities, and related implications to our business. In our analysis, we applied global warming scenarios of 1.5°C and 2.0°C, based on 2DS scenario by the International Energy Association's and RCP2.6 (Representative Concentration Pathway) scenario by the Intergovernmental Panel on Climate Change. The results of this analysis have provided information for our risks and opportunity analysis, stressed the need for greater and more urgent greenhouse gas (GHG) emission reduction activities and served as a basis for our Science Based Target setting. We have also aligned our climate-related disclosures in our CDP report according to the guidance of the Task Force on Climate-related Financial Disclosures. CDP is a global organisation that runs a bespoke global disclosure system for investors, companies, cities, states, and regions to manage their environmental impacts. We publish our detailed GHG emissions also in our People & Planet report.

We constantly strive to drive down the energy required by our products in use in our customers' communications networks, helping them to reduce their carbon footprint as this is by far the greater part of our own carbon footprint. We have delivered zero emission products to over 150 customers around the world. Modernisation of legacy networks drives improved energy efficiency. The customer base station sites we modernised in 2020 used on
average 54 per cent less energy than those where our customers did not modernise. Not only does this reduce environmental impacts, it also provides an improved financial upside for our customers.

During 2020, we worked hard to recalibrate our existing long-term science-based targets in line with the goal to limit rises in global average temperatures to 1.5°C. This is a commitment we made in 2019, and on 4 March 2021 we announced our updated targets to reduce emissions by 50 per cent, across both our own operations and products in use by 2030. At the end of 2020, we were on track to reach the targets by 2030. The progress of these targets is linked to the pricing mechanism of our Revolving Credit Facility loan announced in 2019.

We have in place a robust environmental management system and environmental policy, supported by documented processes and procedures globally to ensure implementation. The system helps us to monitor our progress and identify needed improvements. Our own operational footprint is certified under the ISO 14001 environmental management system standard and in 2020 the coverage of employees within the scope of that certification was 90 per cent. Circular economy and waste reduction are also key in our work and we offer refurbishment, reuse, and recycling of older equipment as an integral component of the product lifecycle management. In 2020, we sent around 4,700 metric tons of old telecommunications equipment for materials recovery and we refurbished or reused approximately 79,400 units with a combined total weight of 570 metric tons.

**Conducting our business with integrity**

Our long-standing reputation for integrity is our most important asset. At Nokia, every employee is responsible and accountable for upholding our high ethical values. Trust has never been more important, and we strive every day to earn and to keep the trust of our customers, governments, employees and other stakeholders with whom we interact. In these challenging times, our unwavering commitment to integrity remains steadfast.

Our Code of Conduct is the foundation upon which this commitment rests. Our Code sets out four straightforward defining principles: we follow the laws where we do business; we set an example for one another by being honest and fair; we promote a culture of integrity through mutual respect and trust; and we hold each other accountable to adhere to the Code and report potential violations.

These guiding principles are supplemented by 14 key business policy statements covering critical issues and risks we face: Improper Payments/Anti-Corruption, Conflicts of Interests, Fair Competition, Privacy, Dealing with Government Officials, Intellectual Property & Confidential Information, Working with Third Parties, Trade Compliance, Insider Trading, Health, Safety & Labor Conditions, Controllership, Fair Employment Practices, Human Rights, and Environment. An additional Code of Ethics sets out further expectations of our CEO and senior executive financial officers. Our Third-Party Code of Conduct applies to the various third parties with whom we work and clearly states our expectations of them on ethical conduct. Our codes are further supplemented by policies, procedures and guidance documents covering a range of topics such as third-party screening procedures, corporate hospitality, and more.

In 2020, we continued our longstanding practice of providing annual training to our employees on ethical business practices, as well as other important topics such as quality, health, safety, and well-being. Our Ethical Business Training was completed by 96.2 per cent. of our employees, surpassing the target of 95 per cent. In response to COVID-19, we redoubled our efforts to stay connected with employees worldwide, leveraged the use of internal social media channels, increased our communications on our global Ombuds programme, and conducted various other virtual activities. Throughout 2020, we closely monitored and responded to the impact of the pandemic on our compliance programme, shifting our resources and priorities as circumstances dictated, and planning for continued monitoring and action as required.

**Our Culture – respecting people**

We believe our people are our greatest asset and we aim to enable a culture that encourages high-performance, integrity, and inclusion. The market for skilled employees in our business is extremely competitive. Our workforce has fluctuated over recent years as we have introduced changes in our strategy to respond to our business targets and our activities. These changes may in the future cause disruption and fatigue among employees. It is imperative that we work to create and sustain a corporate culture that is motivational, inclusive, and encourages creativity and continuous learning to meet challenges.
In 2020, the average number of employees was 92,039 (98,322 in 2019 and 103,083 in 2018). The table below shows the average number of employees in 2020 by geographical location:

With a change in our leadership in 2020, we took the opportunity to refresh our view on the employee experience. For Day 1 of Pekka Lundmark’s tenure, we launched a global survey that asked whether employees felt pride in working for Nokia, and whether they felt the working atmosphere enabled them to give their best. The survey garnered over 50,000 responses in July. 88.7 per cent. of employees responded that they feel pride in working for Nokia, while 75.1 per cent. agreed that the working atmosphere enabled them to give their best.

We are committed to employee development and career growth. In 2020, many of our instructor-led programmes were impacted by COVID-19 and repurposed to be delivered virtually. We delivered our corporate leadership programmes targeting new line managers to senior leaders virtually for over 1,100 participants. We also continued to train our senior managers on coaching skills by delivering virtual Coaching for Success programmes. In 2020, over 7,000 employees studied leadership related online solutions and videos. We have nearly 300 internal coaches who are made available to all employees. We also focused on supporting line managers and employees during the pandemic with five quick guides, including topics such as resilience and well-being, leading virtual teams and working from home.

Our systematic work to address sustainability has been recognised to be in leader-level by several stakeholders, including investors, customers and peers. In January 2020, we were once again ranked at leadership level by CDP for our work on and disclosure of climate change data in 2019. In February 2020, we were named for the third consecutive year (2018-2020), and the fourth time overall as one of the World's Most Ethical Companies by Ethisphere and one of only six honourees in the telecommunications industry. We have again been recognised as a global leader for engaging with our suppliers on climate change, being awarded a position on the Supplier Engagement Leaderboard by CDP for supply chain. In 2019, we received a rating of AA (on a scale of AAA-CCC) in the MSCI ESG Ratings assessment. Bloomberg has given Nokia a strong score in its Gender Equality Index for 2020 – the second time in a row that we are included in this index. In January 2020, FTSE Russell (the trading name of FTSE International Limited and Frank Russell Company) confirmed that Nokia has been independently assessed according to the FTSE4Good criteria, and has satisfied the requirements to become a constituent of the FTSE4Good Index Series. In October 2019, we were reconfirmed as a constituent of both the Ethibel Sustainability Indices (ESI) for Excellence Europe and Excellence Global for our corporate sustainability efforts. In September 2019, we were again in the top 1 per cent. of suppliers assessed by EcoVadis, achieving particularly high scores in environment and sustainable procurement.

ESG ratings may vary amongst ESG ratings agencies as the methodologies used to determine ESG ratings may differ. The Issuer's ESG ratings are not indicative of its current or future operating or financial performance, or any future ability to service the Notes and are only current as of the dates on which they were initially issued. Prospective investors must determine for themselves the relevance of any such ESG ratings information contained in this Base Prospectus or elsewhere in making an investment decision. Furthermore, ESG ratings shall not be deemed to be a recommendation by the Issuer or any other person to buy, sell or hold the Notes. Currently, the providers of such ESG ratings are not subject to any regulatory or other similar oversight in respect of their determination and award of ESG ratings. For more information regarding the valuation methodologies used to determine ESG ratings, please refer to the relevant ratings agency's website (which website does not form a part of, nor is incorporated by reference in, this Base Prospectus).
USE OF PROCEEDS

An amount equal to the net proceeds from each issue of Notes will be applied by the Issuer for its general corporate purposes. If in respect of any particular issue of Notes there is a particular identified use of proceeds, this will be stated in the relevant Final Terms or Drawdown Prospectus.
TAXATION

The following is a general description addressing only the Finnish and Irish withholding tax treatment of income arising from the Notes and Coupons. This description does not deal with any other matters and in particular does not describe the taxation consequences for Irish resident or ordinarily resident holders of Notes and Coupons in respect of the purchase, holding, redemption or sale of the Notes and the receipt of interest thereon. This description is (i) based on the laws, regulations and published case law in full force and effect in Finland and Ireland and the interpretation thereof as at the date of this Base Prospectus, which may be subject to change in the future, potentially with retroactive effect, and (ii) prepared on the assumption that the Issuer is resident in Finland for tax purposes and does not carry on a trade in Ireland through a branch or agency. Investors should be aware that the comments below are of a general nature and do not constitute legal or tax advice and should not be understood as such. The following description is based on an interpretation of general provisions of tax law. Prospective investors are therefore advised to consult their own qualified advisors so as to determine, in the light of their individual situation, the tax consequences of the acquisition, holding, exercise, redemption, sale or other disposition of the Notes and Coupons.

Certain Finnish Tax Considerations

Non-Resident Holders of Notes and Coupons

Payments made by or on behalf of the Issuer to persons not resident in Finland for tax purposes and who do not engage in trade or business through a Finnish branch, permanent establishment or other fixed place of business in Finland may be made without withholding or deduction for, or on account of, any present taxes, duties, assessments or governmental charges of whatever nature imposed or levied by or on behalf of the Republic of Finland or by any municipality or other political subdivision or taxing authority thereof or therein.

When the Issuer effects payments through a paying agent or intermediary, the Issuer should not have an obligation to ensure whether the recipient of the payment is non-resident for Finnish tax purposes provided that the paying agent or intermediary is a Reporting Financial Institution under Common Reporting Standard ("CRS"), Foreign Account Tax Compliance Act ("FATCA") or Council Directive 2014/107/EU of 9 December 2014 ("DAC2"). When the paying agent or other intermediary (such as a financial institution) effecting the payment to the holder of Notes and Coupons is resident in Finland for tax purposes or the payment is made through a Finnish permanent establishment of a non-resident paying agent or intermediary, the entity effecting the payment should ensure whether the recipient of the payment is non-resident for Finnish tax purposes. When payments are effected through a non-Finnish tax resident paying agent or intermediary, no Finnish withholding or related liabilities should relate to the payments.

Resident Holders of Notes and Coupons

Corporates

Payments made by or on behalf of the Issuer to corporates resident in Finland for tax purposes may be made without withholding or deduction for, or on account of, any present taxes, duties, assessments or governmental charges of whatever nature imposed or levied by or on behalf of the Republic of Finland or by any municipality or other political subdivision or taxing authority thereof or therein.

Individuals and Estates

Interest and any similar payments (e.g. interest compensation FI: "jälkimarkkinahyvitys" and index compensation FI: "indeksihyvitys") made to individuals or estates resident in Finland are generally subject to advance withholding of income tax. Payments classified as capital gain for Finnish income tax purposes are not subject to advance withholding of income tax.

The withholding liability should primarily lie with a possible paying agent or other intermediary (such as a financial institution) effecting the payment to the holder of Notes and Coupons, if the paying agent or intermediary is resident in Finland for tax purposes or the payment is made through a Finnish permanent establishment of a non-resident paying agent or intermediary. When payments are effected through a non-Finnish tax resident paying agent or intermediary, no withholding or related liabilities should relate to the payments.
Certain Irish Tax Considerations

Irish Withholding Tax

Under Irish tax law there is no obligation on the Issuer to operate any withholding tax on payments of interest on the Notes except where the interest has an Irish source and is annual in nature. The interest could be considered to have an Irish source, where, for example, interest is paid out of funds maintained in Ireland or where the Notes are secured on Irish situate assets. The mere offering of the Notes to Irish investors or the listing of the Notes on Euronext Dublin will not cause the interest to have an Irish source.

In certain circumstances, collection agents and other persons receiving interest on the Notes in Ireland on behalf of a Noteholder will be obliged to operate a withholding tax.

Provision of Information

Noteholders should be aware that where any interest or other payment on Notes is paid to them by or through an Irish paying agent or collection agent then the relevant person may be required to supply the Irish Revenue Commissioners with details of the payment and certain details relating to the Noteholder. Where the Noteholder is not Irish resident, the details provided to the Irish Revenue Commissioners may, in certain cases, be passed by them to the tax authorities of the jurisdiction in which the Noteholder is resident for taxation purposes.
SUBSCRIPTION AND SALE

Notes may be sold from time to time by the Issuer to any one or more of Citigroup Global Markets Limited, Deutsche Bank Aktiengesellschaft, Goldman Sachs International and J.P. Morgan AG (the "Dealers"). The arrangements under which Notes may from time to time be agreed to be sold by the Issuer to, and purchased by, Dealers are set out in an Amended and Restated Dealer Agreement dated 6 July 2021 (as amended and/or supplemented and/or restated from time to time, the "Dealer Agreement") and made between the Issuer and the Dealers. Any such agreement will, inter alia, make provision for the form and terms and conditions of the relevant Notes, the price at which such Notes will be purchased by the Dealers and the commissions or other agreed deductibles (if any) payable or allowable by the Issuer in respect of such purchase. The Dealer Agreement makes provision for the resignation or termination of appointment of existing Dealers and for the appointment of additional or other Dealers either generally in respect of the Programme or in relation to a particular Tranche of Notes.

United States of America

Regulation S Category 2: TEFRA D or TEFRA C as specified in the relevant Final Terms or neither if TEFRA is specified as not applicable in the relevant Final Terms.

The Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the United States Internal Revenue Code and regulations thereunder.

Each Dealer has agreed that, except as permitted by the Dealer Agreement, it will not offer, sell or deliver Notes, (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution of the Notes comprising the relevant Tranche, as certified to the Fiscal Agent or the Issuer by such Dealer (or, in the case of a sale of a Tranche of Notes to or through more than one Dealer, by each of such Dealers as to the Notes of such Tranche purchased by or through it, in which case the Fiscal Agent or the Issuer shall notify each such Dealer when all such Dealers have so certified) within the United States or to, or for the account or benefit of, U.S. persons, and such Dealer will have sent to each dealer to which it sells Notes during the distribution compliance period (as defined in Regulation S) relating thereto a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons.

In addition, until 40 days after the commencement of the offering of Notes comprising any Tranche, any offer or sale of Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

European Economic Area

Prohibition of Sales to EEA Retail Investors

Unless the Final Terms in respect of any Notes specifies the "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the EEA. For the purposes of this provision:

(a) the expression "retail investor" means a person who is one (or more) of the following:

(i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "MiFID II"); or
(ii) a customer within the meaning of Directive (EU) 2016/97 (the "Insurance Distribution Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or

(iii) not a qualified investor as defined under Article 2 of the Prospectus Regulation; and

(b) the expression an "offer" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes.

If the Final Terms in respect of the Notes specifies "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", in relation to each Member State of the EEA, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms (or are the subject of the offering contemplated by a Drawdown Prospectus) in relation thereto to the public in that Member State, except that it may make an offer of such Notes to the public in that Member State:

(a) at any time to any legal entity which is a qualified investor as defined under Article 2 of the Prospectus Regulation;

(b) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation), subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or

(c) at any time in any other circumstances falling within Article 1(4) of the Prospectus Regulation,

provided that no such offer of Notes referred to in (a) to (c) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision, the expression an "offer of Notes to the public" in relation to any Notes in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes; and the expression "Prospectus Regulation" means Regulation (EU) 2017/1129.

United Kingdom

Prohibition of Sales to UK Retail Investors

Unless the Final Terms in respect of any Notes specifies "Prohibition of Sales to UK Retail Investors" as "Not Applicable", each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the UK. For the purposes of this provision:

(a) the expression "retail investor" means a person who is one (or more) of the following:

(i) a retail client as defined in point (8) of Article 2 of Regulation (EU) No. 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("EUWA"); or

(ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000, as amended (the "FSMA") and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No. 600/2014 as it forms part of domestic law by virtue of the EUWA; or
(iii) not a qualified investor as defined under Article 2 of the UK Prospectus Regulation; and

(b) the expression an "offer" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes.

If the Final Terms in respect of any Notes specifies "Prohibition of Sales to UK Retail Investors" as "Not Applicable", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms (or are the subject of the offering contemplated by a Drawdown Prospectus) in relation thereto to the public in the United Kingdom, except that it may make an offer of such Notes to the public in the United Kingdom:

(a) at any time to any legal entity which is a qualified investor as defined in Article 2 of the UK Prospectus Regulation;

(b) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in Article 2 of the UK Prospectus Regulation), subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or

(c) at any time in any other circumstances falling within section 86 of the FSMA,

provided that no such offer of Notes referred to in (a) to (c) above shall require the Issuer or any Dealer to publish a prospectus pursuant to section 85 of the FSMA or supplement a prospectus pursuant to Article 23 of the UK Prospectus Regulation.

For the purposes of this provision, the expression an "offer of Notes to the public" in relation to any Notes means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes; and the expression "UK Prospectus Regulation" means Regulation (EU) 2017/1129, as it forms part of domestic law by virtue of the EUWA.

Additional United Kingdom Securities Laws

Each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that:

(a) No deposit-taking: in relation to any Notes which have a maturity of less than one year:

(i) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business; and

(ii) it has not offered or sold and will not offer or sell any Notes other than to persons:

(A) whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or as agent) for the purposes of their businesses; or

(B) who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses, where the issue of the Notes would otherwise constitute a contravention of section 19 of the FSMA by the Issuer;

(b) Financial promotion: it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which section 21(1) of the FSMA does not apply to the Issuer; and

(c) General compliance: it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.
Japan

The Notes have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948, as amended; the “FIEA”). Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer or sell any Notes, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (as defined under Item 5, Paragraph 1, Article 6 of the Foreign Exchange and Foreign Trade Act (Act No. 228 of 1949, as amended)), or to others for reoffering or resale, directly or indirectly, in Japan or to, or for the benefit of, a resident of Japan except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the FIEA and any other applicable laws, regulations and ministerial guidelines of Japan.

Singapore

Each Dealer has acknowledged, and each further Dealer appointed under the Programme will be required to acknowledge, that this Base Prospectus has not been registered as a prospectus with the Monetary Authority of Singapore (the “MAS”). Accordingly, each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that it has not offered or sold any Notes or caused the Notes to be made the subject of an invitation for subscription or purchase and will not offer or sell any Notes or cause the Notes to be made the subject of an invitation for subscription or purchase, and has not circulated or distributed, nor will it circulate or distribute, this Base Prospectus or any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the Notes, whether directly or indirectly, to any person in Singapore other than (i) to an institutional investor (as defined in the Securities and Futures Act (Chapter 289) of Singapore (as amended, the “SFA”)) pursuant to Section 274 of the SFA, (ii) to a relevant person (as defined in Section 275(2) of the SFA) pursuant to Section 275(1) of the SFA, or any person pursuant to Section 275(1A) of the SFA, and in accordance with the conditions specified in Section 275 of the SFA, or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the Notes are subscribed or purchased under Section 275 of the SFA by a relevant person which is:

(a) a corporation (which is not an accredited investor (as defined in the SFA)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or

(b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary of the trust is an individual who is an accredited investor,

securities (as defined in Section 2(1) of the SFA) or securities-based derivative contracts (as defined in Section 2(1) of the SFA) of that corporation or the beneficiaries' rights and interest (howsoever described) in that trust shall not be transferred within six months after that corporation or that trust has acquired the Notes pursuant to an offer made under Section 275 of the SFA except:

(i) to an institutional investor or to a relevant person or to any person arising from an offer referred to in Section 275(1A) or Section 276(4)(i)(B) of the SFA;

(ii) where no consideration is or will be given for the transfer;

(iii) where the transfer is by operation of law;

(iv) as specified in Section 276(7) of the SFA; or

(v) as specified in Regulation 37A of the Securities and Futures (Offers of Investments) (Securities and Securities-based Derivatives Contracts) Regulations 2018 of Singapore.

Any reference to the SFA is a reference to the Securities and Futures Act, Chapter 289 of Singapore and a reference to any term as defined in the SFA or any provision in the SFA is a reference to that term as modified or amended from time to time including by such of its subsidiary legislation as may be applicable at the relevant time.

Notification under Section 309B(1)(c) of the SFA – Unless otherwise stated in the Final Terms in respect of any Notes, all Notes issued or to be issued under the Programme shall be prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).
General

Each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that it has complied and will comply with all applicable laws and regulations in each country or jurisdiction in or from which it purchases, offers, sells or delivers Notes or possesses, distributes or publishes this Base Prospectus, any Drawdown Prospectus or any Final Terms or any related offering material, in all cases at its own expense. Other persons into whose hands this Base Prospectus, any Drawdown Prospectus or any Final Terms comes are required by the Issuer and the Dealers to comply with all applicable laws and regulations in each country or jurisdiction in or from which they purchase, offer, sell or deliver Notes or possess, distribute or publish this Base Prospectus, any Drawdown Prospectus or any Final Terms or any related offering material, in all cases at their own expense.

The Dealer Agreement provides that the Dealers shall not be bound by any of the restrictions relating to any specific jurisdiction (set out above) to the extent that such restrictions shall, as a result of change(s) or change(s) in official interpretation, after the date hereof, of applicable laws and regulations, no longer be applicable but without prejudice to the obligations of the Dealers described in the paragraph headed "General" above.

Selling restrictions may be supplemented or modified with the agreement of the Issuer. Any such supplement or modification may be set out in the relevant Final Terms (in the case of a supplement or modification relevant only to a particular Tranche of Notes), in the relevant Drawdown Prospectus or in a supplement to this Base Prospectus.
GENERAL INFORMATION

Authorisation
1. The establishment of the Programme was authorised by resolutions of the Board passed on 25 and 26 October 2007. The updating of the Programme was authorised by resolutions of the Board passed on 30 April 2014. The Issuer has obtained or will obtain from time to time all necessary consents, approvals and authorisations in connection with the issue and performance of its obligations under the Notes.

Legal and Arbitration Proceedings
2. There are no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened, of which the Issuer is aware) which may have, or have had during the 12 months prior to the date of this Base Prospectus, a significant effect on the financial position or profitability of Nokia.

Significant/Material Change
3. There has been no significant change in the financial performance or financial position of Nokia taken as a whole since 31 March 2021 and there has been no material adverse change in the financial position or prospects of Nokia since 31 December 2020.

Independent Auditors
4. The auditors of Nokia are Deloitte Oy, Authorised Public Accountants, with Authorised Public Accountant (KHT) Marika Nevalainen as the auditor with principal responsibility who is a member of the Finnish Association of Auditors. Deloitte Oy has audited Nokia's financial statements, without qualification, in accordance with good auditing practice in Finland, for the financial year ended on 31 December 2020. PricewaterhouseCoopers Oy audited Nokia's financial statements, without qualification, in accordance with good auditing practice in Finland for the financial year ended on 31 December 2019. Neither Deloitte Oy nor PricewaterhouseCoopers Oy has any material interest in Nokia.

Dealers Transacting with the Issuer
5. Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer and its affiliates in the ordinary course of business. Certain of the Dealers and their affiliates may have positions, deal or make markets in the Notes issued under the Programme, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of the Issuer and its affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading activities.

In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or the Issuer's affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Documents on Display
6. Copies of the following documents may be inspected in physical form during normal business hours at the registered offices of the Issuer and from the specified offices of the Fiscal Agent for 12 months from the date of this Base Prospectus and on our website.
Our website is located at https://www.nokia.com (and further debt information can be found at https://www.nokia.com/about-us/investors/debt-information/debt-downloads). We have included our website address as an inactive textual reference only. The contents of the website are not incorporated by reference into this Base Prospectus.

(a) the constitutive documents of the Issuer (with an accurate/direct translation thereof);

(b) the Agency Agreement, the Deed of Covenant, forms of the Temporary Global Notes, the Permanent Global Notes, the Notes in definitive form, the Receipts, the Coupons and Talons;

(c) a copy of this Base Prospectus;

(d) the Issuer-ICSDs Agreement (which is entered into between the Issuer and Euroclear and/or Clearstream, Luxembourg with respect to the settlement in Euroclear and/or Clearstream, Luxembourg of Notes in New Global Note form); and

(e) any future prospectuses, offering circulars, information memoranda and supplements including Final Terms (save that a Final Terms relating to a Note which is neither admitted to trading on a regulated market in the European Economic Area or the United Kingdom nor offered in the European Economic Area or the United Kingdom in circumstances where a prospectus is required to be published under the Prospectus Regulation will only be available for inspection by a holder of such Note and such holder must produce evidence satisfactory to the Issuer and the Paying Agent as to its holding of Notes and identity) to this Base Prospectus and any other documents incorporated herein or therein by reference.

Clearing of the Notes

7. The Notes have been accepted for clearance through Euroclear and Clearstream, Luxembourg. The appropriate common code and the International Securities Identification Number in relation to the Notes of each Tranche will be specified in the relevant Final Terms. The relevant Final Terms shall specify any other clearing system as shall have accepted the relevant Notes for clearance together with any further appropriate information.

The address of Euroclear is Euroclear Bank SA/NV, 1 Boulevard du Roi Albert II, B-1210 Brussels and the address of Clearstream, Luxembourg is Clearstream Banking, 42 Avenue JF Kennedy, L-1855 Luxembourg.

Conditions for determining price

8. The price and amount of Notes to be issued under the Programme will be determined by the Issuer and each relevant Dealer at the time of issue in accordance with prevailing market conditions.

Post-issuance information

9. The Issuer does not intend to provide any post-issuance information in relation to any issues of Notes.
