

Q: How is a Google-certified Android streamer different from a normal streamer?

A: An official Google Android Streamer has Google TV Launcher, Google Assistant, Chromecast, Google Home and access to the Google Play Store. Normal TV Streamers don't have access to these Google features.

Q: Why might my Nokia Media Streamer be slow?

A: Please check the memory consumption and number of apps downloaded. Please limit the memory consumption to 2GB for the best viewing experience.

Q: Will heavy gaming apps slow down the system performance?

A: Yes, apps such as Deer Hunter Classic, Asphalt 8 and Dead Trigger may slow down the system due to their heavy graphic requirements.
