

## Nokia Supplier List

Nokia's products are manufactured and/or produced by a global network of final assembly partners and component suppliers. Below is an alphabetical list of such Nokia Contract Manufacturers and strategic Original Design Manufacturers and Component Suppliers, which account for approximately 50% of Nokia's spend in Fiscal Year 2025 for the manufacturing and/or production of Nokia's products. To learn more about Nokia's engagement with suppliers as it relates to sustainability, including ethics, labour, climate, circularity etc, please visit our annual Sustainability statement.

Accelink Technologies Co., Ltd.
